

Don't

Let Interference Get in the Way of Your Data

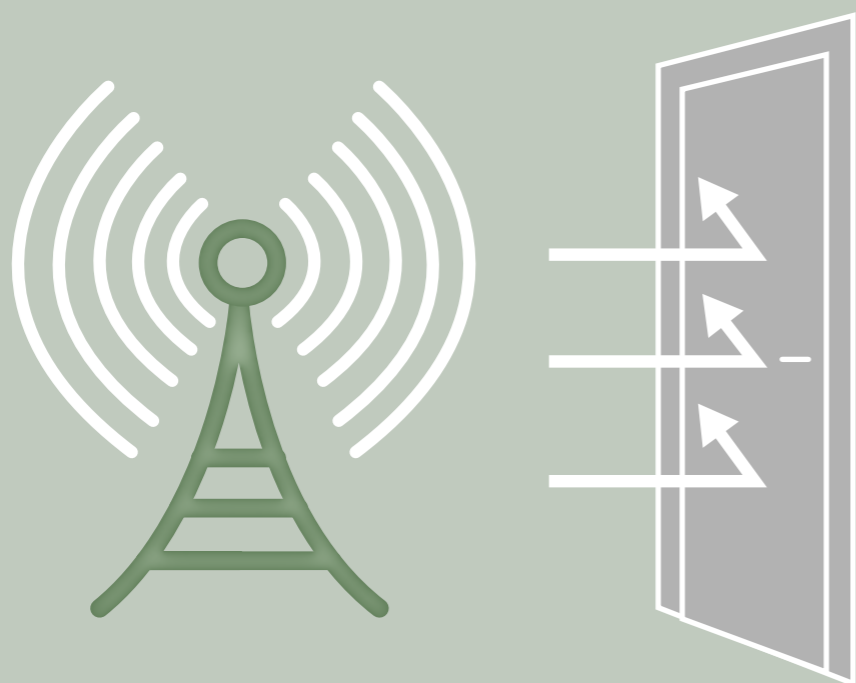

Shield, Prevent, and Protect It.

NEW Split Frame Design

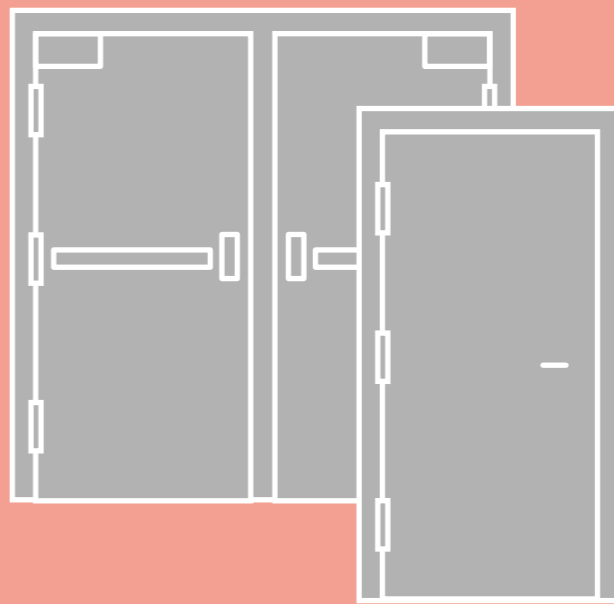

EMI-RFI/STC Shielding Assemblies with Split Frame and Adjustable Seals provide the best electromagnetic and radio-frequency protection for new and retrofit applications including SCIF compliance.

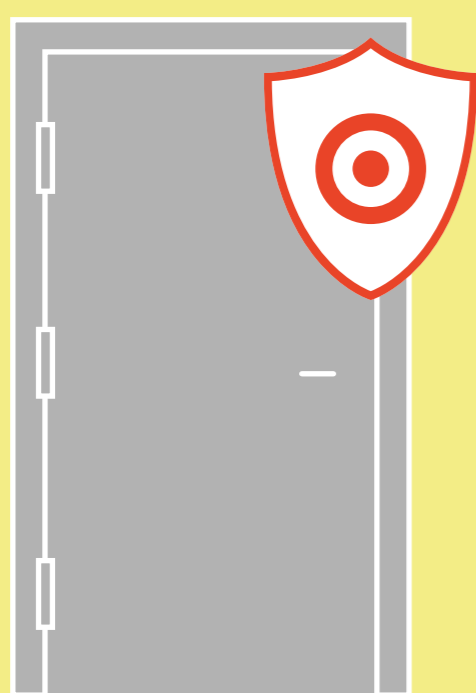

**Electromagnetic (EMI),
Radio Frequency (RFI), and
Sound Transmission Class (STC)
protection**

Flush singles up to 4'0" x 8'0"
and pairs up to 8'0" x 8'0" with
fixed or removable mullion

Prime painted 304 and 316
Stainless Steel with optional finishes

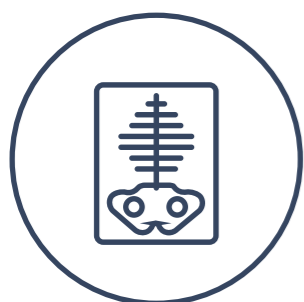

Adjustable EMI-RFI/STC Shielding protection in
compliance with ICD-705 (Group 3 and 4),
IEEE 299, SCIF and TEMPEST requirements

Shielding Protection
9 kHz - 18 GHz

Sound
Protection
STC 50

Fire Rated
90 Minute

Applications

Healthcare Facilities

Data Centers

Test Labs

Government and Military
Security Centers
