Compliant with GreenCircle Certified Sustainability Facts Certification Standard Audit Plan 10.2024

* Attributes in green contribute to LEED v4, v4.1, and/or v5 credits.

All reductions benchmarked to production.

1. The pre-consumer, post-consumer, and total recycled content percentages represent the minimum values across the product family. This meets the requirements of LEED v4 and v4.1: MR Credit: Sourcing of Raw Materials. This also meets the requirements of LEED v5 MR Credit: Building Product Selection and Procurement.
2. This meets the requirements of LEED v4 and v4.1: MR Credit: Building Product Disclosure and Optimization - Environmental Product Declarations. This also meets the requirements of LEED v5 MR Credit: Building Product Selection and Procurement.
3. This is global warming potential for cradle-to-gate life cycle stage (A1-A3) using TRACI methodology.
4. Verified community support through the following: donation to local street painting festival, sponsorship of students at a local job fair, donation to and sponsorship of local school robotics team, donation to a program where law enforcement officers assist underprivileged children with their holiday shopping, annual employee volunteer efforts for a local community Christmas event and school Halloween event.
5. Verified commitment to policies and programs supporting social health and equity.
6. Verified the availability of employee benefits, which include medical benefits and training and development programs, to all employees.
7. Corporate audit policies of supply chain practices conform to Design for Freedom principles.
