

**BORED LOCKS**

# Announcement

## LARGE FORMAT INTERCHANGEABLE CORE (LFIC) LEVER OPTIONS FOR SARGENT 10X LINE BORED LOCKS

SARGENT now offers lever options for the 10X Line Grade 1 bored lock designed to accept ASSA ABLOY ACCENTRA® or Medeco large format interchangeable cores (LFIC). These options allow facilities to install the 10X Line lock while maintaining existing key systems.

Locksets can now be ordered to accept the following core types:

- ASSA ABLOY ACCENTRA® 7-pin LFIC – specify option YRC-7P-
- Medeco 32 Series 6-pin LFIC – specify option MRC-

Options YRC-7P- and MRC- are available for mechanical, electromechanical, and electronic access control configurations using the following trim designs:

Shown with Medeco core

**How to order:**

- Specify the appropriate option code when ordering.
- Locksets are supplied less core, but include the correct tailpiece required for the specified LFIC. Cores provided by others.

**How to order examples:**

Options	Function	Trim	Finish	Hand
YRC-7P-	10XG04	LL	26D	RH
MRC-	10XG05	LL	26D	RH

**Exceptions:**

The ASSA ABLOY ACCENTRA® 7-pin LFIC lever is not available for the 10XG38 function when specified with VSLL trim.

**Pricing:**

There is no additional upcharge for these levers.

**Availability:**

Orders are being accepted beginning April 1, 2026, with standard lead times for shipping.
