

SIDE MOUNT TOOL BOXES

UWS side mount tool boxes maximize storage space around the truck bed. Perfect for organizing and securing extra gear — our side, topside and underbody tool boxes feature extra-thick aluminum construction and are assembled in the USA.

MAXIMIZE STORAGE SPACE ON WORK TRUCKS AND TRAILERS.

Topside & Underbody Tool Boxes

- Stainless steel aircraft cables for strong door support
- Door opens 90 degrees for easy loading and unloading of tools and equipment
- Stainless steel T-handles for security and corrosion resistance
- MicroSeal™ gasket helps seal out moisture, dust and dirt
- Multiple box sizes available for a custom fit on each truck application
- Available with single and double doors
- Mounting hardware not included

Topside boxes mount high atop truck bed rails for easy access to tools and cargo and are constructed with 0.058" thick, one-piece aluminum

Underbody boxes are constructed with 0.058" thick, one-piece aluminum and mount low —perfect for storing bulky tools and gear that is difficult to lift

Truck Side Tool Boxes

- Mounts on the inside of the truck bed rails
- Patented RigidCore™ foam-filled lid to maximize strength and prevent binding
- 0.058" extra-thick, one-piece aluminum tub holds heavy tools and cargo
- Can be mounted on the driver or passenger side
- Low profile provides better field of vision
- Mounting hardware not included

Truck side boxes provide a longer, shallower space for storage above the rear fender and are available with paddle handles (standard models only) or push-button operation (low-profile models only)

Wheel Well Tool Boxes

- Integrates with the wheel well fender to provide convenient storage space
- Three sliding drawers open toward the rear for storage of tools and equipment
- Stainless steel lock handles for security and corrosion-resistant operation
- Corrosion-resistant zinc-plated metal sliders
- Available for driver and passenger side

Fender boxes maximize bed space behind the rear fender, providing a deeper space to store valuable tools and gear, and also provide sliding trays to store smaller items
