

CROSSOVER TRUCK TOOL BOXES

UWS crossover tool boxes are available in a variety of sizes and unique styles and feature our patented RigidCore™ lid, extra-thick aluminum construction and convenient access from either side of the vehicle. All UWS tool boxes are assembled in the USA.

IMPOSSIBLY STRONG. INCREDIBLY DEPENDABLE.

Hidden strength

The patented RigidCore™ foam-filled lid maximizes strength and prevents binding for a stronger, more durable tool box

Weather-resistant

The MicroSeal™ design features a gasket that provides exceptional weather and humidity resistance, protecting tools and gear

Convenient storage

The built-in tool trays are perfect for stowing small or important items, and for stowing items that need to be retrieved quickly

Patented RigidCore™ foam-filled lid

The foam-filled lid greatly enhances strength and overall structural integrity. It also helps prevent lid warping. Because of its rigidity, the lid is highly resistant to binding, ensuring smooth opening and closing of the box

Additional Features

- 0.058" extra-thick, one-piece aluminum tub holds heavy tools and cargo
- Stainless steel lock handles for security and corrosion-resistant operation
- Connecting rod allows for convenient operation from driver or passenger side
- Widespread handles are easy to reach from either side of the truck
- Interior rod enclosure helps prevent bending or jamming of lock system
- Lid self-opens for convenient operation and loading (Secure Lock is self-closing)
- Built-in screwdriver holders (select models)
- Easy to install with pre-drilled mounting slots and included hardware
- Available in various styles, sizes and configurations for a custom fit
