## SLIDING BED

### SAFE PERFORMANCE

Reduces crew fatigue and improves equipment access, keeping productivity high and injuries low

### VERSATILITY

Smart center channel to tie down smaller loads

### BUILT FOR REAL LOADS

Rated to handle payloads up to 2000 lbs.

**SERIOUS ACCESS.**  
**SMART**  
**INVESTMENT.**

### **YOUR GEAR. ONE SLIDE AWAY.**

The WEATHER GUARD® Sliding Bed is built to make every second count - giving your team fast, safe access to their gear without climbing in and out of the truck all day. Backed by pro-grade materials, smarter installation, and a limited lifetime warranty, this is the upgrade that delivers real value to your fleet.

Visit **WEATHERGUARD.COM**  
for more information

**FLAT DECK. FULL ACCESS.**

The true-flat load surface runs edge to edge, making it easy to slide, stack, or secure cargo without interference, with 100% bed extension

**4 TIE DOWN POINTS**

Secure cargo without interference

**BUILT PRO TOUGH**

Constructed with heavy-duty steel, high-performance steel rollers, and powder-coated for corrosion resistance—this is built for the jobsite, not the driveway

**SAFE LATCHING SYSTEM**

The intuitive handle system makes loading and locking easier and safer on your drivers

**CUSTOMIZABLE STORAGE**

Remove the side rails to accommodate larger gear or create a flush-top install with other equipment
