ANCIENT CIVILIZATION WINE

Phoenician trade routes:
Morocco, Israel, Lebanon, Greece,
Cyprus, etc. The wines of Phoenicia
had such an enduring presence
in the Greek and Roman world that
the adjective “Bybline”—from
the Phoenician town of Byblos—
became a byword denoting
wine of high quality.

Chateau Musar

GHAZIR, LEBANON

Winemaking in the territory now known
as Lebanon is said to have started more than 6000
years ago, but came to the attention of the international
wine world only in 1984, when Serge Hochar was named
Man of the Year by the English “bible of wine”,
Decanter Magazine, which cited his perseverance and
dedication to his vineyards and to his winemaking in spite
of the war being waged throughout Lebanon at that time.

If you have not experienced Hochar’s splendid
wines, you owe it to yourself to try Chateau Musar,
and there’s no time like the present.

OLD WORLD WINE

Roman spread of viticulture, “Old World” countries have a long-established history of wine production and are predominately from Western Europe—most notably, France, Italy, Germany, Spain, and Portugal—These are the original sources of the New World’s *vitis vinifera* vines.

BARBARESCO & BAROLO

These classic Italian red wines are the greatest examples of the Nebbiolo grape. Rich & seductive, Barolo & Barbaresco have a depth and subtlety of expression unmatched by other neighboring regions. The wines represent the elegance of Piedmont winemaking at its best.

NEW WORLD WINE

“Immigrant” vines from the Old World. Wines produced outside the traditional wine-growing areas of Europe and the Middle East—Argentina, Australia, Chile, New Zealand, South Africa and the United States.

SANTA BARBARA

An exciting region with a tight-knit community of growers and winemakers, Santa Barbara has made a name for itself with diligent attention to responsible farming and low-intervention winemaking. These vineyards feature some of the most interesting arrays of soil types as a result of ancient sea beds. These are truly wines of place.
