**From Information center click on ABEGS Experts link**

## Join ABEGS Experts

The Arab Bureau of Education for the Gulf States (ABEGS) seeks to achieve excellence and preeminence in the joint educational work, by supporting cooperation, coordination, integration, and development among its Member States.

The Bureau also provides help, consultation and conveys its distinct educational practices and experiences to meet the needs of knowledge community, and works on developing the values of citizenship in the Member States.

In order to achieve these aspirations, ABEGS adopts an ambitious program to build a database of experts who are specialized in education, human development and administrative development.

ABEGS will take advantage of this database in hiring qualified specialists in its programs and projects.

The database will also be available for ministries and government entities that request it, and it will serve as an introductory portal for professionals, contributing to the definition of their expertise, scientific and knowledge products.
