Fast and Agile

Ford's famed 2.3-litre EcoBoost turbo engine is the most powerful ever offered for a Focus ST, using advanced turbocharging technology delivering 206kW of power and 420Nm of torque².

Take Your Pick

For the first time, the new Focus ST is available with a new 7-speed automatic transmission and 6-speed manual transmission. This along with Adaptive Shift Scheduling, which alters gearshift timings depending on different driving styles, delivers driving performance that is optimised whether you're on the road or the track.

Ride Quality

The Focus ST comes armed with Ford's sophisticated Continuously Controlled Damping technology. This smart system continuously monitors vehicle suspension. It then adjusts individual damping responses to deliver enhanced comfort and outstanding driving dynamics.

Faster Off The Line

Designed to deliver a consistent take off and maximise acceleration off the line, Focus ST is equipped with Launch Control. Set the maximum rpm for the engine and you can put your foot flat on the throttle whilst the car holds your desired engine evolution.

Take The Driver's Seat

So you get the most out of your Focus ST, it comes with race-inspired RECARO sport seats. Highly supportive, these seats are optimised to give you the perfect position for every drive.

No Strings Attached

No need for cables thanks to the sophisticated wireless charging pad. Charge your compatible device just by placing it on the pad.

Stay Focused

The Focus' 180-degree split view camera gives you incredible awareness of your surroundings. You'll be able to spot hazards that can't be seen over your shoulder or in the mirrors.

Listen Up

Not only does the Focus look good, it sounds good too, thanks to the B&O PLAY sound system. With 10 premium speakers it will transform your road trip with any playlist.

Speak Up

It's all in the power of the voice. With Apple CarPlay and Android Auto you'll be able to control music, hear text messages and find your nearest restaurant, all with voice commands². Plus, the SYNC[®]3 system allows you to set and clear directions and view traffic conditions.
