### ADVANCED SAFETY

**Adaptive Cruise Control<sup>13</sup>.**

Adjusts to the flow of traffic, slowing down when it senses a vehicle in front and returning to your pre-set speed once it clears.

**Pre Collision Assist with Pedestrian Detection (AEB)<sup>13</sup>.**

Detects if the car in front stops unexpectedly, or a pedestrian steps out onto the road, and can automatically apply the brakes if you don't.

**Lane Keeping Aid with Lane Departure Warning<sup>13</sup>.**

Monitors road markings to detect if you unintentionally move out of your lane, and vibrates your steering wheel to warn you.

**Auto Wipers / Headlights (inc. High Beam)<sup>13</sup>.**

Automatically turns high beams on and off depending on light levels and surrounding vehicles. Auto Wipers automatically turn on and adjust speed, depending on how heavy the rain is.

**Reverse Camera & Rear Cross Traffic Alert<sup>13, 16</sup>.**

Park with confidence. When reversing, Rear Cross Traffic Alert can detect approaching vehicles, or other hazards, and warn you.

**Blind Spot Information System (BLIS)<sup>13</sup>.**

If another vehicle enters your blind spot, the system activates a warning indicator light in the side mirror.

**Tyre Pressure Monitoring System (TPMS)<sup>17</sup>.**

Available on Transit Custom Sport models, it will notify you if one of your tyres is significantly under-inflated.

**MyKey™**

Program restricted driving mode settings (like top speeds) into your keys, encouraging responsible driving for those who may use the van.
