Imagine a car that blurs the line between beauty and functionality. Where style and spaciousness are in perfect harmony. Where there’s room for everything except compromise. We imagined such a car. And we call it the ŠKODA SUPERB.

Sculpted by an emotional design language, the SUPERB is an instant conversation starter. As well as being incredibly spacious, it’s the most comfortable way to stretch not just your legs but your ambitions, too – perfect for family and business alike. And being a ŠKODA, this car showcases our best Simply Clever thinking that guarantees comfort with elegance.

The SUPERB is yet another example of our philosophy of making beautifully designed cars that are as much a joy to drive now as they were back when we started. That’s Simply Clever. That’s ŠKODA.
Exterior Design
The SUPERB’s design invites you not just to look, but to look closer. The signature angular contours and sharp dynamic lines prove how the beauty of the whole is revealed in its exciting details. The result is a rousing display of precision and purpose.

The imposing lines of the bonnet are complemented by the profiled contours of the headlamps and equally crisp front fog lamps - their design paying homage to Czech glass making.

The perfectly balanced proportions, the large glass areas and the headlamps sweeping around the sides lend the car’s profile an extraordinary visual presence and emotional appeal.

Speaking of light, the LED technology combined with crystalline elements in the distinctive C-shaped rear lights further adds to the feeling of poised elegance.

The interaction between convex and concave forms on the rear of the car creates a striking interplay of surface light.
DOOR SILL STRIPS
The style quotient of the car is underlined by the decorative door sill strips with the SUPERB inscription. A clear nod to the car’s overall blend of form and function.

EXTERNAL SIDE-VIEW MIRRORS
The sleek sharp contours of the external side-view mirrors with integrated indicators whip up a sporty look, while the large mirrors ensure total functionality.

PANORAMIC SUNROOF
The SUPERB COMBI will open up new vistas with the electrically-adjustable panoramic sunroof, which will expand the feeling of space.
LIGHT DESIGN
LET THE EYES DO THE TALKING

Lights can inspire as much as they can illuminate. Borrowing from Czech crystal glass-making heritage, the lights of the SUPERB are the most magnificent eyes ever to have lit up the road.

HEADLAMPS
Three types of headlamps are available for the SUPERB, each unique in technology and style. The Bio-LED headlamps include decorative cut crystal high beam lamps. Illuminated 'eyelashes' also feature in the high-spec headlamps (with the Smart Light Assist).

REAR LIGHTS
Crystalline elements also appear in the ‘inactive’ area of the rear lights. Also, the reverse and flasher lamps, plus the LED part of the fog lights, are hidden behind ‘gems’, making the SUPERB’s lighting signature even more distinctive.
Make your space more harmonious and comfortable with soft, cozy ambient lights running along the inside of the car, setting the perfect mood for any journey.

**AMBIENT LIGHTING**
It's up to you to choose one favourite colour or to complement each day with a different tone. The ambient lighting offers ten amazing colour options.

**FOOT AREA ILLUMINATION**
Experience ultimate comfort thanks to the SUPERB's unrivalled legroom. Sit back, adjust the interior lights and enjoy a discreetly lit ambience during your journey.
CONNECTIVITY
SMARTLINK+ With the SmartLink+ system (ŠKODA Connectivity bundle supporting MirrorLink®, Apple CarPlay and Android Auto), the car's infotainment system enables the driver to safely use the phone while driving. Plus, all installed applications that are certified as safe for vehicles are compatible with MirrorLink®, Apple CarPlay or Android Auto. The SmartLink+ system also includes the SmartGate function. It enables you to connect your smartphone to the car via WiFi to access interesting data about your drive, like driving economy, driving dynamics or service information.*

*Columbus 3D navigation system features a 9.2" display. The device offers not only comfortable touch control, but also gesture control, which enables you to go through the menu or various lists. Many functions, including Bluetooth, the SmartLink+ system and Wi-Fi, come as standard. The integrated phone module with fast LTE internet compatibility is also available.

IN-CAR COMMUNICATION Digital voice enhancement improves communication between passengers inside the car by extracting the driver's voice from cabin noise and playing the enhanced speech from rear-speakers.

MY ŠKODA APP Meet Paul, the interactive assistant of the MyŠKODA App (for Android or IOS systems), who can be helpful in various daily situations. You can use him to access information about your car or for a complete description of what controls what, what each indicator lamp means, etc. Paul can also keep an eye on the dates in your planner. Not only will you never forget a meeting, but your assistant will also advise you on how to get there.

PHONE BOX This practical phone compartment, located in front of the gear stick, creates an amplified signal for your mobile device. At the same time, it wirelessly charges your phone while driving.

MULTIMEDIA COMMAND This application enables you to control the infotainment in the car from your tablet or smartphones using WiFi, wherever you are. It’s available exclusively with the Columbus navigation system.

MULTIMEDIA HOLDER Fit your device securely to the multimedia holder in the rear armrest or the front seat headrest. The 230V socket and a 2nd USB slot for passengers in the rear are also available.

CANTON SOUND SYSTEM Enjoy absolute sound clarity, whether it’s music or the spoken word, as the Canton Sound System with twelve speakers, including a central speaker and subwoofer in the luggage compartment.

SYNC ALL YOUR LIVES You can communicate, work or entertain yourself with ease on board the SUPERB. The infotainment systems, which come in an exclusive glass design, bring top-level connectivity so you can enjoy the best functions of your mobile devices on-the-go. Rear passengers can connect their external devices, too.

SIMPLY CLEVER
NEVER LOSE A THING

There’s a place for everything, even in your car. The SUPERB features a multitude of compartments, pockets and holders, keeping your elegant interior tidy, and your belongings safe from loss, breakage or spillage.

JUMBO BOX
The spacious Jumbo Box storage compartment is housed in the front armrest. You can store your electronic items safely inside or cool it to keep your snacks fresh. A dual drinks holder can also be found on the centre console.

GLOVE COMPARTMENT
The storage compartment in the dashboard on the front passenger side can also be cooled, when the air conditioning is on.

POCKETS
Storage pockets on the insides of the front seat backrests can carry small objects, such as a mobile phone, keys, diary, etc.

DRINK HOLDERS
Passengers in the rear seats will appreciate drink holders in the rear armrest.

HIDDEN STORAGE SPACE
Keep your car tidy. A hidden storage space with a tilting lid for various small items can be found under the passenger seat.

BOTTLE HOLDER
You will find a 1.5-l bottle holder in a spacious compartment in the front and rear doors.

STORAGE COMPARTMENT
Vests can be located in the storage compartments in the front and rear doors, ensuring they are always within reach.
FOOT REST
A seat for your feet. This angled foot rest at the rear attaches to the textile floor mats and makes long trips even more comfortable.

UMBRELLA BOX
Ingenious compartments with two original SUPERB umbrellas are fitted inside both front doors. They are designed to let water drain away from the car keeping the interior dry.

UNIBAG
The removable Unibag, designed for transporting skis or a snowboard, can be stored in the opening between the luggage compartment and cabin.
How do you open or close the luggage compartment when your hands aren’t free? Just swipe your foot underneath and it will do it, magically. The virtual pedal enables contact-free access and it’s available exclusively with the electrically-controlled 5th door and KESSY (Keyless Entry, Start and exit System).

SPACE KEEPS EXPANDING

The luggage compartment capacity puts the SUPERB at the top of its class for space. But maximising space is nothing without maximising practicality. That’s why we added Simply Clever solutions that make handling luggage even easier.

VIRTUAL PEDAL

How do you open or close the luggage compartment when your hands aren’t free? Just swipe your foot underneath and it will do it, magically. The virtual pedal enables contact-free access and it’s available exclusively with the electrically-controlled 5th door and KESSY (Keyless Entry, Start and exit System).

ELLECTRICALLY-CONTROLLED 5TH DOOR

The electrically-controlled 5th door opens and closes at a mere touch of the button on the remote control or central panel. Especially handy in unfavourable weather. You may also adjust the upper door position to suit your needs.

FLASLIGHT

A practical removable LED flashlight can be found on the left side of the luggage compartment. It recharges automatically while the engine is running.

NET PROGRAMME

The set of nets increases the flexibility of the luggage space while tightly securing objects. It includes one horizontal and two vertical nets. You can add a further net under the luggage compartment cover in the liftback version.

HOOKS

Foldable hooks, located on the sides of the luggage compartment, make shopping items easier to transport and more secure.

CARGO ELEMENTS

To avoid any undesired movement of luggage while driving, these two plastic cargo elements with a Velcro fastener are ideal. They can be slipped away in the cargo slots behind the rear wheel arches when not in use.

FOLDAWAY KNOB

The tow bar has a foldaway knob, controlled via the luggage compartment handle. Thanks to this innovation, you don’t need to remove the tow bar after use, and it won’t disrupt the stylish appearance of your car.
AUTOMATIC ROLL COVER
Easy access to your luggage is provided by the automatic roll cover, which shifts to a central position after the electrically-controlled 5th door is opened. The unique Nivomat for the combi version ensures that the clearance remains the same even with a full load.

DOUBLE FLOOR
Another way to utilize the luggage space comes in the combi version. The double floor places the bottom of the luggage compartment on the loading edge level, facilitating easier luggage handling. In addition, it provides a discrete storage place.

POCKET
The practical pocket under the roll cover can serve as a safe storage place for items that you would like to transport separately from other objects in the luggage compartment.

CAPACITY
The luggage compartment parameters are exceptional. The combi version (see photo) offers 660 litres, stretched to 1,950 litres with the rear seat backrests folded down. The liftback will also impress you with a capacity of 625/1,760 litres. All cars, including the combi version with the double floor, are equipped with load-lashing points for the net fastening.
ORDER ROOM SERVICE

Loaded with thoughtful features, the SUPERB will indulge you in absolute comfort, whether it’s staying relaxed during the longest journey or being entertained on-the-go.

HEATING AND VENTILATION SYSTEM
The auxiliary heating and ventilation system, which heats the interior as well as the engine, plus enables fresh air to flow into the interior, can be operated by remote control with a range of up to a few hundred metres.

EXTERNAL SIDE-VIEW MIRRORS
External side-view mirrors retract automatically once you lock the car, which you’ll especially appreciate when parking on packed city streets. The mirrors also feature automatic dimming and memory functions.

 PERSONALISATION
The car’s infotainment system offers great personalisation options, allowing different drivers to create their own individual preferences. These include, for example, setting the driving mode, the electrically-adjustable driver’s seat, Climatronic air conditioning, radio and navigation system. A personalised car is provided with three keys, so if there are more drivers in your family, they can each use their own key.

3-ZONE CLIMATRONIC
With 3-zone Climatronic air conditioning you can set different temperatures for the driver, front and rear passengers. It’s also fitted with a humidity sensor, which reduces windscreen misting.

DRIVER SEAT WITH MEMORY AND MASSAGE FUNCTION
The electrically-adjustable driver’s seat with built-in memory can store three different seat and external side-view mirror positions. In addition the driver seat can be equipped with a massage function. This highest comfort is always accompanied by ventilated front seats upholstered in perforated leather.

HEATED STEERING WHEEL
The multifunctional leather driving wheel comes with a heating function, controlled via an infotainment system.

LED BOARDING SPOTS
Avoid puddles in the dark. Boarding spots with LEDs, designed to illuminate the entry area, are located on the external side-view mirrors.

The electrically-adjustable driver’s seat with built-in memory can store three different seat and external side-view mirror positions. In addition the driver seat can be equipped with a massage function. This highest comfort is always accompanied by ventilated front seats upholstered in perforated leather.
SMART LIGHT ASSIST
Now you can use distance lights for longer without blinding incoming traffic. The Smart Light Assist can not only switch between the lights but also dim the distance lights, using a multifunctional camera located in the interior rear-view mirror.

DRIVER ALERT
This clever assistant system evaluates data from the power steering sensors to detect any driver fatigue behaviour. In such cases, the Maxi DOT display warns the driver to take a break.

TRAVEL ASSIST
This helper uses co-operation between the multifunctional camera and the navigation system to recognize and display, on the Maxi DOT and navigation displays, certain traffic signs.

LANE ASSIST
You can leave the task of keeping the car in the correct lane to Lane Assist. The system is displayed on Maxi DOT.

TRAFFIC JAM ASSIST
Facilitate the driving of DSG-fitted vehicles in traffic jams with the Traffic Jam Assist. By controlling the engine, brakes and steering, it makes the vehicle pull away, brake and turn to copy the movement of the surrounding vehicles (at speeds of up to 60 km/h).

ADAPTIVE CRUISE CONTROL
Using a radar device in the front grille in addition to its basic cruise control functions, this assistant system maintains a safe distance from vehicles in front of you.
REAR TRAFFIC ALERT

This assistant, which comes as part of the Blind Spot Detect system and uses the same radar sensors, helps you reverse safely from a parking space during poor visibility. It can even engage the brakes automatically if it detects imminent danger.

MANOEUVRE ASSIST

Using the sensors of the Park Assist, this system offers protection from obstacles within driving distance of the car (at speeds of up to 10 km/h), both when reversing and when driving forward. If an obstacle is detected, based on the distance from the obstacle and the car’s speed, the system initiates the emergency brakes.

REAR-VIEW CAMERA

Enjoy easier parking by equipping your car with the rear-view camera located on the handle of the 5th door. It monitors the space behind the car and indicates the driving lanes, based on the vehicle width. Integrated washers improve the camera’s functionality.

PARK ASSIST

Minimise the hassle of parking in tight spots with the Park Assist. It automatically selects an appropriate parking place in a row of parallel or perpendicularly parked vehicles.

BLIND SPOT DETECT

Using radar sensors in the rear bumper, Blind Spot Detect monitors the blind areas behind and beside the car. Based on the distance and speed of the surrounding vehicles, it decides whether or not it should warn the driver.

REAR TRAFFIC ALERT

This assistant, which comes as part of the Blind Spot Detect system and uses the same radar sensors, helps you reverse safely from a parking space during poor visibility. It can even engage the brakes automatically if it detects imminent danger.
A SAFE BET

While we don’t recommend leaving anything to chance, you may certainly rely on the SUPERB. In potentially dangerous situations, where the driver cannot actively influence the outcome, the car’s passive safety elements take over. Like the airbags. You can equip your car with up to nine of them.

FRONT DRIVER AND PASSENGER AIRBAG
While the driver airbag is enclosed in the steering wheel, the passenger airbag is located in the dashboard. If needed, this can be deactivated when a child seat is installed on the front seat.

KNEE AIRBAG
The knee airbag, which protects the driver’s knees and shin, is located under the steering wheel.

HEAD AIRBAGS
Upon activation, head airbags create a wall, which protects the front and rear occupants against head injury.

FRONT AND REAR SIDE AIRBAGS
These four airbags protect the pelvis and chest of the driver and other passengers in the event of a side collision.
**PERFORM MIRACLES**

If the design of the SUPERB teased you from the outside, a closer look under the bonnet will set your pulse racing. The engines offer outstanding comfort without compromising on performance or the environment. Those who want to enjoy the car’s agility to the full can choose a sports chassis, which offers variable steering firmness. So the faster the car; the stiffer the steering wheel becomes.

**DYNAMIC CHASSIS CONTROL**

Enjoy the high performance of your car in maximum comfort and safety. The Dynamic Chassis Control (DCC) continuously evaluates and responds to various driving situations (braking, acceleration, turning), adapting the damping and steering characteristics. As part of the information menu, it allows you to select one of three modes according to your specific requirements: Comfort, Normal or Sport.

**DSG**

Depending on the engine variant, the car can be equipped with either an automatic 6-speed or 7-speed DSG (Direct Shift Gearbox). We recommend the 6-speed DSG and 4-wheel drive as the perfect match.

**ENGINES**

Our top-of-the-line variant is a 2-litre petrol engine, which packs an impressive 206kW punch with 4-wheel drive. The range also features a 1.4-litre petrol engine with ACT (Active Cylinder Management Technology), which disconnects 2 cylinders when not loaded, considerably reducing fuel consumption. The strongest diesel engine yields 140kW of pure performance. For example, the liftback version, in combination with a manual transmission and a front-wheel drive, has a combined fuel consumption of a mere 4.3–4.4 l/100 km.
**WOLF, IN WOLF’S CLOTHING**

The ŠKODA SUPERB SPORTLINE inherits the signature contoured body of the SUPERB and arms it with dynamic details. The car is fitted with a sports chassis and features, besides other things, a glossy black front grille, window frames, exterior side-view mirrors, side strips, diffuser, 5th door spoiler (liftback) and roof railings (combi). Stepping up the game are the darkened fog lamps. The sports style is further emphasised by the exclusive alloy wheels and distinctive exhaust pipe end pieces.

**INTERIOR DESIGN**

The interior is decorated with the carbon décor bearing the Sportline logo. Sports front and rear seats with Black Alcantara®/leather upholstery with silver stitching provide maximum comfort even during a dynamic drive. The electrically-adjustable driver seat with built-in memory comes as standard. The interior sports style is enhanced by foot pedals with alu optics and a black ceiling.

**INFOTAINMENT**

The Sportline version can be equipped with an infotainment system bringing more information and entertainment. It shows, among other things, the temperature of oil or cooling liquid and also offers a LapTimer function, which further adds to the feel of a sporty driving experience.

**STEERING WHEEL**

The multifunctional leather steering wheel in sports design, with silver stitching and chrome elements, allows you to control the radio and telephone.

**PLAQUETTE**

The Sportline plaquette is presented on both front wheel arches.

**DOOR SILL STRIPS**

Even practical equipment, such as the door sill strips, comes in sports design and so further adds to the unique look of the car.

**INTERIOR DESIGN**

The interior is decorated with the carbon décor bearing the Sportline logo. Sports front and rear seats with Black Alcantara®/leather upholstery with silver stitching provide maximum comfort even during a dynamic drive. The electrically-adjustable driver seat with built-in memory comes as standard. The interior sports style is enhanced by foot pedals with alu optics and a black ceiling.

**VEGA WHEEL**

19" Vega anthracite alloy wheels are optional.

**ZENITH WHEEL**

18" Zenith platinum alloy wheels come as standard.
The standard equipment of the Active version includes external side-view mirrors and door handles in body colour, tinted windows, rear LED lights, remote-controlled central locking, leather steering wheel and gear stick knob, Swing radio with Bluetooth, Maxi Dot, electrically-controlled front and rear windows, air conditioning, Jumbo Box with adjustable armrest, plus more.

The standard equipment of the Ambition version includes chrome side window frames, decorative front door sill covers, front foot rest area and interior door handle illumination, Climatronic dual-zone air conditioning, rain sensor, auto dimming interior rear-view mirror, digital clock on the rear side of the Jumbo Box, plus more.
The standard equipment of the Style version includes electrically-folded external side-view mirrors with Boarding Spots, rear parking sensors, front and rear door sill covers, the LED lighting pack, electrically-adjustable driver seat with memory function, plus more.

- Customisation
MAKE IT MORE SUPERB

Your SUPERB will share and support your lifestyle. Thanks to thoughtful ŠKODA Genuine Accessories you can customise your car according to your needs and deeds.

BOX
Lockable box with a capacity of up to five pairs of skis or four snowboards is available in black, white or silver colour.

FOOT MATS
The rubber foot mats with raised trim protect the interior during inclement weather, while the high-quality textile foot mats with SUPERB logo make the interior more comfortable and cosy.

RUBBER MAT
The upholstery is protected from soiling and damage with the rubber mat, which covers the central tunnel in the rear.

MULTIMEDIA HOLDER
The multimedia holder, which can be mounted on the front seat headrests or the rear armrest, will surely be appreciated by the rear seat passengers. This must be combined with an adapter.
NET PROGRAMME
The set of nets is a very practical accessory, which will reliably prevent unintended movement of luggage and other objects in the luggage compartment.

PLASTIC DISH
If you often carry things that might soil the luggage compartment, the plastic dish with raised edges is the perfect solution, as it can be easily removed and washed.

RUBBER LINER
No matter what you transport in the luggage compartment, the upholstery will remain clean with the rubber liner.

GRILLES
The trunk grilles enable you to separate the luggage compartment from the cabin as well as split the compartment into two separate areas.

DECORATIVE VALVE CAPS
With the tyre valve caps bearing the ŠKODA logo, your car will look stylish to the smallest detail.

RUBBER LINER
No matter what you transport in the luggage compartment, the upholstery will remain clean with the rubber liner.
