THE COMPACT SUV | RE-INVENTED
Suzuki pioneered the Compact SUV. Now we’ve re-invented it. Every aspect of the design continues to reflect Vitara’s legendary vitality, culminating in a vehicle that combines SUV lifestyle with city convenience like never before.

The muscular body styling immediately turns heads. To further express your individuality, you can now mix and match interior trims, features and choose exciting two-tone exterior colours.

A spirited but highly fuel efficient engine, a 6-speed automatic transmission with paddle shift and newly designed suspension enhance Vitara’s agile driving dynamics. The Vitara Turbo further re-ignites a passion for power and acceleration with comparable outstanding fuel economy.

The result is an exhilarating driving experience unexpected in an SUV and more usually found in performance hatches. Staying true to Suzuki’s legendary 4x4 heritage, Vitara’s ALLGRIP 4WD system and 4x4 ground clearance mean mud and the snow are no barrier to adventure. This capability can now also be combined with diesel engine efficiency. Technology reaches a whole new level with Suzuki’s intuitive touchscreen system incorporating Apple CarPlay® as standard. This connects you to satellite navigation, Bluetooth® and your own multimedia world.

‘You are what you drive’ takes on an all-new meaning in the Suzuki Vitara. The Compact SUV re-invented.
Stand out from the crowd and step up to the Compact SUV that re-ignites the thrill of turbo performance. Hot on the heels of its success in Europe, the all-new Vitara Turbo has arrived.

With a distinctive high-profile grille that adds to its dominant road presence, LED headlamps with red-trimmed projector covers, black alloy wheels, a sporty red-accented interior and striking alloy pedals, the Vitara Turbo redefines performance and premium quality in the Compact SUV category.

Available in 2WD or 4WD, the 1.4-litre Boosterjet direct-injection turbo engine delivers more power and acceleration for an even more dynamic drive while delivering outstanding fuel economy of 5.9L/100km*. We’ve lit the fuse. Are you ready to re-ignite your passion?

*NRAR 77/15 results for 2WD turbo automatic transmission. ADR Fuel Consumption figures may not reflect real-life driving conditions and should be considered for comparison against other vehicles only.
A range of powerful, yet fuel-efficient engines

**Vitara S Turbo**
The 1.4 litre Boosterjet is a newly developed direct-injection turbo engine that produces a smooth surge of responsive power while also delivering superb fuel economy. The instant acceleration performs like a larger engine and adds to the agility of every drive.

- **Maximum Output:** 103kW of Power
- **Maximum Torque:** 220Nm of Torque
- **Fuel Consumption:** 5.9L/100km* (on combined cycle)

*ADR 81/02 results for 2WD Turbo automatic transmission. NEDC Fuel Consumption figures may not mimic real-life driving conditions and should be considered for comparison against other vehicles only.

**Vitara RT-X Diesel**
The 1.6 litre direct-injection common rail diesel engine enhances the Vitara’s performance characteristics. An adoption of an electronically controlled variable geometry turbocharger allows for a greater range of torque whilst delivering cleaner emissions, superior fuel efficiency and dynamic performance.

- **Maximum Output:** 88kW of Power
- **Maximum Torque:** 320Nm of Torque
- **Fuel Consumption:** 4.9L/100km* (on combined cycle)

*ADR 81/02 results for 4WD diesel automatic transmission. NEDC Fuel Consumption figures may not mimic real-life driving conditions and should be considered for comparison against other vehicles only.

**Vitara RT-S**
The 1.6 litre engine has an updated design for optimal performance across the rev range. Weight savings in the engine and related parts help to achieve superior fuel economy with high output and torque.

- **Maximum Output:** 86kW of Power
- **Maximum Torque:** 156Nm of Torque
- **Fuel Consumption:** 5.8L/100km* (on combined cycle)

*ADR 81/02 results for 2WD manual transmission. NEDC Fuel Consumption figures may not mimic real-life driving conditions and should be considered for comparison against other vehicles only.
INDIVIDUALITY | RE-INVENTED

Make your Vitara truly yours. With the ability to choose striking two-tone body colours, add bold interior trim colours and even more accessories, you can take your Vitara and personalise it.

Mix and match colours and designs to suit your taste, and make your Vitara as individual as you are.

The RT-S model comes standard with fabric seats with silver stitching, while the S Turbo and RT-X Diesel models come with leather seats with suede inserts and suede door inserts. Red stitching on the S Turbo model adds to the sporty feel.

Personalise your Vitara with a choice of optional interior trims and features.
The spacious interior of the Vitara redefines Compact SUV comfort. Taking its inspiration from the sporty exterior the cabin envelops you in iconic style.

The focal point of the Vitara is the dynamic dash design integrating the 7-inch multimedia touchscreen with intelligent technology. From every angle the striking lines and features convey Vitara's sporty and muscular SUV style inside, as it does outside.

The dash also features a digital climate control system, ensuring you and your passengers always travel in complete comfort. The high level of finish throughout extends to suede door inserts and leather and suede seat upholstery in the Turbo and RT-X Diesel models. Premium red accents on the Turbo further add to the overall sporty feel.

In the cabin is all the driving intelligence you need. Average fuel use, outside temperature and the ALLGRIP^ driving mode can be read at a glance. Audio controls, cruise control and Bluetooth® phone controls are all conveniently located on the steering wheel, so you can keep your eyes on the road ahead.

Automatic wipers and lights* Rain-sensing wipers automatically turn themselves on and off, so you can concentrate on any challenging driving conditions ahead. The auto-levelling headlights have sensors that turn the headlights on or off depending on the brightness on the day.

Keyless push start system* Even when the key is in your pocket or bag, you can easily lock or unlock the Vitara by pressing the button on the door handle. The system also allows you to start and stop the engine by pushing a button on the dash.

Sporty paddle shift control Choose the 6-speed auto and you’ll find paddle shifts on the steering wheel. These add to the sense of a sporty feel, as you manually shift up and down gears.

Audio controls Practical and convenient, steering wheel-mounted controls allow you to concentrate on the road.

*4WD models only.
Life’s out there waiting. All you want to do is instantly link up with your world and connect. Whether you want to listen to your music, call your friends or plan a journey, Vitara’s multimedia satellite navigation system with Apple CarPlay® makes it easy.

7-inch multi-touch colour display
The WVGA (Wide Video Graphics Array) display gives you intuitive control of audio and video, as well as hands-free phone and navigation systems. This includes Bluetooth® connectivity, full iPod® integration and AM/FM radio and audio playback options.

Satellite Navigation
Easy-to-follow art map style navigation makes it easier to get to wherever you want to go.

Bluetooth®
Bluetooth® audio streaming lets you stream music from your smart phone and enables you to use the phone hands free.

Rear view camera
The navigation system also features a rear view camera with guidelines that makes agile parking with safety a breeze.

Responsive voice control
Voice recognition lets you search for points of interest, your favourite music, or dial up your contacts, without taking your hands off the steering wheel.

For more information and to check the compatibility of your device with any of the different technologies, please visit the relevant website for Apple CarPlay®. Apple CarPlay® is a registered trademark of Apple Inc.
STYLE | RE-INVENTED
The Vitara is designed around your lifestyle. The interior has a massive 375 litres of luggage space. The 60:40 split folding rear seat and movable luggage board let you recompose the interior in an instant. Even when the rear seats aren’t folded down, heaps of gear and even a golf bag fit in comfortably. The tailgate is also lower for extra easy loading. You’ll also find lots of clever compartments exactly where you want them.
With its car-like handling, excellent fuel economy (5.8L/100km*) and spacious interior, the Vitara blends SUV lifestyle with city convenience like never before. In fact, the Vitara RT-S has already taken out the top ‘Drive Car Of The Year – Best City SUV 2015’ award. If you’re looking for extra zip, the Vitara Turbo delivers more power and super smooth acceleration with comparable fuel efficiency.

The 6-speed automatic transmission improves performance, fuel efficiency and quietness, while the lightweight rigid body and MacPherson-strut suspension enhances overall driveability. A diesel engine option is also available that turns in impressive City/Highway figures of 4.9L/100km^.

Perfectly suited to city driving thanks to its compact design and hatch-like cornering and stability, it feels just as comfortable navigating tight city streets as it does enjoying the freedom of the open road.

*ADR 81/02 results for 2WD manual transmission. NEDC Fuel Consumption figures may not mimic real-life driving conditions and should be considered for comparison against other vehicles only.

^ADR 81/02 results for 4WD diesel automatic transmission. NEDC Fuel Consumption figures may not mimic real-life driving conditions and should be considered for comparison against other vehicles only.
Hill Hold Control
Makes hill starts easy by preventing rolling back when moving your foot from the brake to the accelerator.

Hill Descent Control
Standard on models with ALLGRIP 4WD. If engine braking isn’t enough to slow you down when negotiating a steep downhill slope, this automatically applies the brake to keep your Vitara at a low speed.

ADVENTURE | RE-DISCOVERED

The Vitara Turbo 4WD and the RT-X Diesel option both come with ALLGRIP, Suzuki’s fully integrated 4WD system. ALLGRIP maximises road grip in varying conditions while decreasing running costs.

The 4WD system lets you choose from four driving modes using a simple push-and-turn dial on the centre console. Coupled with Vitara’s extra ground clearance and Suzuki’s 4x4 heritage, Vitara is ready to escape the city for your next weekend adventure.

Four driver-selectable modes

Auto mode
Auto mode normally keeps the vehicle in 2WD. However, when tyre slippage is detected, it automatically switches to 4WD. It prioritises fuel economy by switching to 4WD only when necessary. Auto mode provides reassurance in case of sudden changes in the weather like a sudden shower.

Lock mode*
Lock mode constantly distributes high torque to the rear wheels to generate maximum traction. If the vehicle becomes stuck, ESC and other controls are optimised for extrication from deep snow and mud. Braking is applied to the slipping wheels and provides ample torque to the gripping wheels. Lock mode automatically switches to Snow mode at speeds over 60km/h.

Snow mode
Snow mode provides optimal configurations on slippery surfaces, such as snow, ice and mud. In accordance with accelerator pedal and steering inputs, Snow mode anticipates slippage before it occurs and allocates torque to the rear wheels to ensure outstanding grip. In addition, ESC kicks in earlier to assist vehicle stability on low friction surfaces. Reliable in slippery conditions with stability and outstanding control, Snow mode lets you relax and enjoy driving.

Sport mode
Sport mode actively uses 4WD to deliver supreme cornering performance on sharp bends and winding roads. It changes accelerator and torque characteristics for better engine response, and on vehicles with automatic transmission the engine revs are kept high. All these features combine to offer a sporty drive. In addition, Sport mode delays ESC intervention, respecting your intentions for sporty driving.

Auto mode
Auto mode normally keeps the vehicle in 2WD. However, when tyre slippage is detected, it automatically switches to 4WD. It prioritises fuel economy by switching to 4WD only when necessary. Auto mode provides reassurance in case of sudden changes in the weather like a sudden shower.

Thirsty for excitement, yet incredibly fuel-efficient, the Vitara revitalises the original passion we felt when we pioneered the Compact SUV.

You’ll quickly discover a spirited petrol or diesel engine brimming with personality. With impressive torque through all gears, the engine produces powerful driving on city roads as well as winding tracks. The reduced friction and weight in the engine both contribute to an extremely low fuel consumption of 5.8L/100km* on the combined cycle. The Vitara Turbo further dials up the excitement with a surprisingly similar level of economy. Coupled with the 6-speed automatic transmission with paddle shifts or super smooth 5-speed manual**, the Vitara is the perfect balance of responsive power and exceptional fuel economy. A quick glance at the fuel gauge will certainly assure you of this.

You’ll also notice the evolved high performance suspension. This lighter, stiffer suspension provides superior handling while boosting ride comfort.

EXCITEMENT | RE-INVIGORATED

6-speed automatic
This adds to response at low speeds and also lowers engine revs at higher speeds. Paddle shifts on the steering wheel let you experience manual mode by shifting up and down gears. The expanded lockup area also improves performance, fuel efficiency and quietness.

5-speed manual transmission**
Smartly optimises gear ratios for better fuel economy and the light shift action heightens your driving pleasure.

MacPherson-strut suspension
The front wheels have a MacPherson-strut suspension. Extra driving stability is delivered by enhancing the rigidity of the lower arms, suspension frame layout, and struts. The rear wheels have an improved torsion-beam suspension. This also contributes to stability and ride comfort.

*ADT 81/02 results for 2WD manual transmission. NEDC Fuel Consumption figures may not mimic real-life driving conditions and should be considered for comparison against other vehicles only. **RT-S model only.
Whether driving down the highway or a bush track, you are surrounded by some of the world’s most advanced safety features. Seven airbags including dual front, side, curtain and a knee airbag for the driver immediately create a sense of confidence. The best protection is avoiding an accident altogether. This is where Vitara’s dynamic safety systems such as Electronic Stability Control (ESC), Electronic Brakeforce Distribution (EBD) and Brake Assist System (BAS) come into their own.

ESC (Electronic Stability Control)
If the wheels lose traction, ESC adjusts the engine and brakes to help keep you in control.

Parking sensors
Front and rear sensors on the Vitara S Turbo and RT-X Diesel models monitor the space around you and give out a beeping sound when approaching an obstruction.

Impact safety and pedestrian protection
Maximising occupant safety and pedestrian protection, Suzuki’s TECT (Total Effective Control Technology) utilises high tensile steel. Crumple zones absorb energy on impact, as the frame shifts it away from passengers inside.

SAFETY | RE-ASSURED

LED DRLs and Fog Lamps
Daytime Running Lamps feature bright LED energy saving technology. Fog lamps further enhance visibility and safety.

Rear view camera
The navigation system features a rear view camera with guidelines that makes agile parking with safety a breeze.

Parking sensors
Front and rear sensors on the Vitara S Turbo and RT-X Diesel models monitor the space around you and give out a beeping sound when approaching an obstruction.
We’ve re-invented the Compact SUV. Now it’s your turn to get inventive. With the ability to add bold interior trim colours and a range of exterior and interior accessory packs, you can take your Vitara and make it personal.

Mix and match colours and designs to suit your taste, and make your Vitara as individual as you are. Ask your Suzuki Dealer to show you the complete range of exterior genuine accessories.
With a range of exterior accessory packs available, you can style your Vitara and make it unique.

The accessory packs include striking chrome accents that exude a bold style, plus daring black accessories including wheels and grilles that transform the Vitara into the latest fashion statement.

For a full range of Suzuki Genuine Accessories and accessory packs to suit your Vitara, speak to your local Suzuki Dealer.
