The Caravelle
The perfect shuttle.
Setting the standard for professional passenger transport for over 30 years.

LOW FUEL CONSUMPTION.
Thanks to advanced engine technology.

EFFICIENT BLUEMOTION TECHNOLOGY.
Standard for all engines.

UNIQUE DRIVE CONCEPT.
4MOTION all-wheel drive combined with a dual clutch gearbox DSG.

ADVANCED DRIVER ASSIST SYSTEMS.
From ACC to "Front Assist" and "Light Assist" to the Automatic Post-Collision Braking System.

MOST OFF-ROAD-READY VEHICLE IN ITS CLASS.
Thanks to the combination of 4MOTION all-wheel drive, Hill Descent Assist and mechanical differential lock.

A SALOON INTERIOR.
High-quality and comfortable interior design.

STATE-OF-THE-ART INFOTAINMENT SYSTEMS.
Video rear cameras, intelligent functions, excellent connectivity.

INNOVATIVE MOBILE ONLINE SERVICES.

MOST OFF-ROAD-READY VEHICLE IN ITS CLASS.
Thanks to the combination of 4MOTION all-wheel drive, Hill Descent Assist and mechanical differential lock.

MAXIMUM FUNCTIONALITY AND FLEXIBILITY.
Variety of seating and passenger compartment variants.

PERFECTLY THOUGHT-OUT DRIVER WORKING ENVIRONMENT.
Extra robust and use-optimised, with a satisfying variety of storage possibilities.

FORERUNNER FOR YEARS.
In the passenger transport segment.

PROVEN VOLKSWAGEN QUALITY.
Durable materials and high-quality workmanship.
One for all.

The Caravelle moves you in three equipment variants.

The Caravelle vehicle concept has been meeting the highest standards of professional passenger transport for over 30 years. The Caravelle is optimally tuned to the individual needs of its drivers and passengers. The Caravelle Trendline and Caravelle Comfortline are your reliable partners for the most demanding standards, while the Caravelle Highline allows you to raise the bar even further. All three variants are available with a long wheelbase upon request, to provide all passengers with a further 40 cm of exclusiveness.

Illustration includes options at extra charge. Please contact your local Volkswagen dealer for details of the standard equipment and optional extras available in your country.
There are times when everything has to be perfect: the time, the place and the professional appearance. With the Caravelle, you create the ideal conditions the moment you arrive. The sharp design with clear-cut lines and contours allows the Caravelle to make a striking first impression.

Highlights include elegant chrome details, which differ according to the equipment line chosen. For instance, the Caravelle Comfortline (see illustration) comes with three chrome strips on the radiator grille as standard, to warmly welcome discerning passengers.

Confidently on-scene. The design ensures an impeccable appearance.

Illustration includes options at extra charge. Please contact your local Volkswagen dealer for details of the standard equipment and optional extras available in your country.
The Caravelle enables you to concentrate completely on your job. The high-quality materials, carefully combined with top-class finishing, add to the comfortable atmosphere, alongside the modern design and intelligent arrangement of all controls. The clearly thought-out storage system allows for the ordered storing of documents and offers space for tablets, smartphones and all the other important things for a long day of shuttle work. Adding to the driver’s comfort is a height-adjustable driver’s seat with lumbar support.

The instrument cluster with the “Plus” multifunction display shows all of the important information at a glance, providing current vehicle data such as the range, driving time and average speed and consumption.*

Versatile
to the smallest detail. The interior with use-optimised storage system.

*Option at extra charge for the Caravelle Trendline. *Edition includes options at extra charge. Please contact your local Volkswagen dealer for details of the standard equipment and optional extras available in your country.
Spacious dimensions. The variable space concept for up to 9 people including luggage.

The modular mounting system, available as an option, enables seats to be easily repositioned for shuttle journeys or trips with a lot of luggage. The double folding, 3-seater bench seat is especially practical, and can expand the luggage compartment in a matter of moments. The Caravelle Trendline and Caravelle Comfortline seat seven as standard; these can optionally be upgraded to nine. The high-quality leather seats in the Caravelle Highline offer space for eight people. The tailgate’s large opening height (fig. 01) provides plenty of space for loading and unloading the luggage compartment. It also serves as a convenient shelter in wet weather. Also optionally available with rear wing doors.

1) Selected engine/gearbox combinations are alternatively supplied with 5 seats as standard. Your local Volkswagen Commercial Vehicles dealer will be happy to inform you.

2) Centre seat panel and inner side bolsters in “Nappa” leather. Illustration includes options at extra charge.

Please contact your local Volkswagen dealer for details of the standard equipment and optional extras available in your country.

CV1023 CV0854
The man

The convenient details in the Caravelle invite passengers to make themselves
comfortable. The passenger compartment is the ideal solution for commercial passenger
transport, with plenty of space for passengers, and their individual requirements. This
includes high-quality materials and the typical excellent workmanship, along with
comfortable reading lights. The Easy Entry function of the outer seat in the second one
at the sliding-door side provides especially comfortable access to the third row of
seats. Easy Entry seats can be folded forward in a matter of moments, and are fitted
on both sides in vehicles with two sliding doors.

The upholstery immediately creates a comfortable ambience, allowing passengers to sit
back and enjoy the journey. In addition, the Caravelle’s excellent noise insulation keeps
exterior noise where it belongs; outside.

Please contact your local Volkswagen dealership for details of the standard and optional equipment available in your country.
Confident, versatile, spacious and comfortable.

The Caravelle Trendline.

Two wheelbases and a variety of seating packages. The Caravelle offers high levels of comfort and space. From the 4-seater package, you will find a suitable configuration for a wide range of shuttling tasks. The Caravelle with a 40 cm longer wheelbase provides additional luggage space or the possibility to integrate a fourth row of seats.

Easy Entry on the sliding door side. The Easy Entry seats can be folded forward in no time at all, allowing passengers in the third row of seats to enter and exit the vehicle faster and more comfortably. Vehicles with two sliding doors now have Easy Entry on both sides. The Caravelle can also transport bulky goods without the need for prior planning. The backrests of all seats can be folded down – even those with the Easy Entry function.

Please contact your local Volkswagen dealer for details of the standard equipment and optional extras available in your country.
The Caravelle Trendline. Your partner for first-class service.

Illustration includes options at extra charge. Please contact your local Volkswagen dealer for details of the standard equipment and optional extras available in your country.
The equipment of the Caravelle Trendline.

Reliable, safe and thought-out right down to the smallest detail.

The storage system. The driver's cab in the Caravelle Trendline is equipped to cope with every challenge a busy day has to offer. The intelligent arrangement of the various storage options, compartments and holders makes the interior the perfect workplace. Valuables can be stored safely in the lockable glove compartment, documents can be tidily filed away in the A4-size middle compartment, and beverages are kept secure in the bottle and cup holders.

For smartphones and other electrical devices, the Caravelle Comfortline and Highline have a USB connection, while this is optional in the case of the Caravelle Trendline. Upon request, all equipment lines can be equipped with a second 12 V socket.

The passenger compartment. The high-quality materials and the durable upholstery, along with Volkswagen's typical meticulous workmanship create a truly comfortable atmosphere. The outstanding noise insulation effectively insulates the interior against exterior noise.

De lux headlining in the Trendline. Four reading lights, fold-out handles and clothes hooks fulfil individual needs.

The equipment of the Caravelle Trendline.

Reliabile, safe and thought-out right down to the smallest detail.

THE STANDARD EQUIPMENT of the Caravelle Trendline.

EXTERIOR
– Black radiator grille with a chrome trim strip
– Heat-insulating windows
– Sliding door, right side
– H4 halogen headlights with headlight range adjustment
– 16-inch or 17-inch steel wheels

INTERIOR
– Driver's seat with height adjustment and lumbar support
– Steering wheel with height and reach adjustment
– Fully lined passenger compartment
– Seat cover, free of charge which fits the passenger compartment, and plenty of space for luggage
– 2 comfort seats with ISOFIX child seat mountings
– Double folding 3-seater bench seat with stowed edges of seats
– Rain sensor, rain-on-windscreen wipers
– Integrated step lighting
– Practical luggage compartment light
– Plastic loading sill protection for tailgate lock carriers

OPERATING EQUIPMENT
– Rear view mirror and roof lights on the rear window
– 12 V socket in passenger compartment

SAFETY
– Driver and front passenger airbags with front seat passenger airbag deactivation function
– Electronic Stabilisation Programme with brake assist system, ABS, ASR, EDS, and Hill Start Assist
– Automatic Post-Collision Brake System
– 16-inch or 17-inch running gear with 17-inch brake system

Please contact your local Volkswagen dealer for details of the standard equipment and optional extra available in your country.
The Caravelle Comfortline. 
Your specialist for first-class comfort.
De lux headlining. Ventilation strips in the headlining supply fresh air to the passenger compartment and help to prevent the side windows misting up.

Electric exterior mirrors. The electrically adjustable exterior mirrors can be quickly de-iced on frosty days thanks to the integrated heater.

Driver’s cab with storage system. Exclusive details round out the functionality of the cleverly thought-out storage system in the Comfortline. These include the instrument cluster with “Plus” multifunction display framed in chrome.

The equipment of the Caravelle Comfortline.

Comprehensive, attractive, high-quality and more convincing with every kilometre.

In conjunction with 16-inch steel wheels.

*In conjunction with 16-inch steel wheels. Decoration includes options at extra charge.

Please contact your local Volkswagen dealer for details of the standard equipment and optional extras available in your country.

THE ALTERNATIVE STANDARD EQUIPMENT of the Caravelle Comfortline compared to the Caravelle Trendline.

EXTERIOR
- Radiator grille painted black with three chrome strips
- Colour-coded add-on parts, bumpers, door handles and exterior mirrors
- Silver wheel trim*

INTERIOR
- Driver and front passenger seats with armrests
- Instrument cluster with “Plus” multifunction display framed in chrome
- De lux headlining with air vents
- Illuminated vanity mirrors
- Sunblinds on the side windows of the passenger compartment
- Carpet floor covering in the driver’s cab and passenger compartment

FUNCTION
- "Composition Audio" radio system with four speakers
- Two remote control flip keys for central locking system
- Electrically adjustable and heated exterior mirrors
- "Climatic" semi-automatic air conditioning system
- Additional 12-V socket on the dash panel
- Electric windows

SAFETY
- Driver Alert System
- Dual-tone horn
- H7 halogen headlights
Passenger compartment with two electric sliding doors. These make life particularly easy for your passengers when entering or exiting the vehicle. The sliding doors in the passenger compartment can be opened electrically from the driver’s cab as well as the push of a button or using the remote control key.

Leather seats. The elegant, high-quality seat upholstery made of “Nappa” leather in Titanium Black combines exclusive seating comfort with outstanding durability.

Chrome package. Chrome trim on the radiator grille and at the sides and rear enhances the appearance of the Caravelle Highline.

De luxe dash panel. The broad centre console of the de luxe dash panel provides even more space for comfort. The closed storage compartment located in the centre can be optionally equipped with connection options for smartphones. Additional special features include two cup holders and a bottle holder for bottles up to 1.0 litre. The steering wheel and gear lever knob are upholstered in leather.

The equipment of the Caravelle Highline. Demanding, first-class quality and relaxing from the moment you get in.

The alternative standard equipment of the Caravelle Highline compared to the Caravelle Comfortline.

EXTERIOR
- 17-inch “Cascavel” alloy wheels in silver
- Additional chrome trim at the rear and sides and on the air intakes
- Two electric sliding doors

INTERIOR
- De luxe dash panel with chrome elements and an attractive decorative insert in “Black Glossy”
- Driver’s cab trim with “Structural X” decorative trim and leather-look mirror trim
- Leather-covered multifunction steering wheel and leather-look gear lever knob
- “Nappa” leather seat upholstery in Titanium Black
- Step lighting with “Highline” lettering
- Easy Entry on both sides for comfortable entry and exit
- Eight seats, six of these in the passenger compartment, and good space for luggage
- Privacy glass in the passenger compartment

FUNCTION
- “Composition Colour” radio system with six speakers in the driver’s cab and passenger compartment
- “Air Care Climatronic” 3-zone air conditioning
- Reading lights in the driver’s cab and passenger compartment
- Electric closing assist for tailgate

SAFETY
- Fog lights with integrated static cornering light

Please contact your local Volkswagen dealer for details of the standard equipment and optional extras available in your country.

1) Centre seat panel and inner side bolsters in “Nappa” leather. 2) Additional decorative insert are also optionally available. 3) Chrome trim in “Structural X” is also optionally available. Structural elements, systems at extra charge.

Illustration includes options at extra charge.

Please contact your local Volkswagen dealer for details of the standard equipment and optional extras available in your country.
Advanced engine technology.
With extra low fuel consumption.

Every engine option features incredibly low fuel consumption without compromising on driving pleasure. The 2.0 l TDI engine with 84 kW is particularly powerful, while also boasting low fuel consumption.

BCC adaptive chassis control (not illustrated) The optional BCC adaptive chassis control improves vehicle handling and can be adjusted to your favourite setting at the touch of a button, simply choose from NORMAL, SPORT or COMFORT.

Dual clutch gearbox 6-speed (not illustrated) The optional 7-speed dual clutch gearbox permits fully automatic, almost imperceptible gear changing with no interruption in power flow, which results in significantly increased driving comfort. You can choose between normal and sport mode.

The consumption and emission figures listed have been determined in accordance with the measuring method prescribed by law. Since 1st September 2017, said new vehicles have already been tested in accordance with the Worldwide Harmonized Light Vehicles Test Procedure (WLTP). This is a more realistic test procedure for measuring fuel consumption and CO₂ emissions. As of 1st September 2018, the WLTP will successively replace the New European Driving Cycle (NEDC). Due to the more realistic testing conditions, the fuel consumption and CO₂ emission values measured using the WLTP test procedure are frequently higher than those measured using NEDC. Further information about the differences between WLTP and NEDC is available at www.volkswagen-nutzfahrzeuge.de/de/unternehmen/wltp-nefz.html.

Diesel engines.

2.0 l TDI (75 kW):
Average fuel consumption: from 6.5 l/100 km
CO₂ emissions: from 170 g/km

2.0 l TDI (84 kW):
Average fuel consumption: from 6.5 l/100 km
CO₂ emissions: from 171 g/km

2.0 l TDI (110 kW):
Average fuel consumption: from 6.3 l/100 km
CO₂ emissions: from 165 g/km

2.0 l TDI (146 kW):
Average fuel consumption: from 6.7 l/100 km
CO₂ emissions: from 176 g/km

Please contact your local Volkswagen dealership for details of the standard and optional equipment available in your country.
Volkswagen models with BlueMotion Technology follow the “Think Blue” concept. That is why every single Caravelle is equipped with a start/stop system, regenerative braking, Hill Start Assist and roll resistance-optimised tyres.

**Start/stop system** (fig. 01). After shifting into neutral and releasing the clutch*, the engine is switched off automatically, e.g. at red traffic lights. To start the engine again, it’s enough to step on the clutch.

**Regenerative braking** (not illustrated). This recharges the vehicle battery during overrun and braking phases, thereby relieving strain on the engine and reducing fuel consumption.

**Roll resistance-optimised tyres** (not illustrated). The Caravelle makes contact with the road via tyres with optimised rolling resistance. Low rolling resistance reduces fuel consumption, and, with it, CO₂ emissions.

*Only applicable for manual gearbox. Illustration includes options at extra charge. Please contact your local Volkswagen dealership for details of the standard and optional equipment available in your country.

BlueMotion Technology
as standard. Technologies that save fuel too.
The Caravelle has various innovative features that ensure excellent traction as well as optimum handling and steering, even in difficult driving conditions.

4MOTION all-wheel drive (not illustrated). The optional 4MOTION all-wheel drive is now fitted with the latest transmission generation all-wheel drive coupling. Advantages include reduced weight and further enhancement of vehicle handling and dynamics.

Hill Descent Assist (not illustrated). This optional system allows you to drive down slopes in a safe, controlled way, thanks to the engine management’s ability to govern the engine speed and apply the brakes if necessary.

4MOTION all-wheel drive with dual clutch gearbox DSG (not illustrated). The Caravelle is the only vehicle in its class available with the optional 4MOTION all-wheel drive and optional 7-speed dual clutch gearbox DSG.

Mechanical differential lock (not illustrated). The mechanical differential lock is available for the rear axle in combination with the optional 4MOTION all-wheel drive.

Unique in its class. The 4MOTION all-wheel drive in combination with the dual clutch gearbox DSG.*
Safety systems, prepared for almost anything.

**Electronic Stabilisation Programme:** Prevents under- or over-steering via targeted braking of individual wheels (TL, CL, HL).

**Anti-lock braking system (ABS):** Prevents wheel block and, thus, maintains manoeuvrability. (TL, CL, HL).

**Traction control system (ASR):** Prevents wheel spin. (TL, CL, HL).

**Electronic differential lock (EDL):** Distributes the engine torque to the tyres without slippage. (TL, CL, HL).

**Airbags:** Provide the best possible protection in the event of head-on and side impacts as standard. The front passenger airbag can be deactivated using the vehicle key. (TL, CL, HL).

**Seat belt warning:** If the seat belt is not fastened, the seat belt warning system reminds the driver to fasten it with a visual warning when the engine is started, and an acoustic warning after setting off. (TL, CL, HL).

**Automatic Post-Collision Braking System:** Triggers braking after a collision, with the aim of preventing secondary collisions. The Automatic Post-Collision Braking System activates when two independent sensors detect an accident. After a short delay, the vehicle begins a phased braking action down to 10 km/h, during which the driver can take over at any time. (TL, CL, HL).

**Electronic Stabilisation Programme:** Prevents under- or over-steering via targeted braking of individual wheels (TL, CL, HL).

**Anti-lock braking system (ABS):** Prevents wheel block and, thus, maintains manoeuvrability. (TL, CL, HL).

After a short delay, the vehicle begins a phased braking action down to 10 km/h, during which the driver can take over at any time. (TL, CL, HL).

*Within the system’s limits. Illustration includes options at extra charge. Please contact your local Volkswagen dealer for details of the standard equipment and optional extras available in your country.*
Driver assistance systems, which support you in every situation.

**Driver Alert System.** Uses visual and acoustic warning signals to recommend that the driver take a break as soon as driving behaviour that indicates tiredness is detected.

**Brake assist system.** Ensures that the system is activated and lowers the risk of an accident in daylight.

**Hill Start Assist.** Can prevent the vehicle from rolling back on inclines by maintaining the brake pressure for a second or two. This makes it easier to start off uphill slopes.

**Adaptive Cruise Control ACC.** Automatically adapts the speed of the vehicle to that of the vehicle driving in front and maintains the distance set by the driver. At the same time, it ensures the vehicle is travelling at a safe speed. Includes the “Front Assist” ambient traffic monitoring system.

**“Front Assist” ambient traffic monitoring system with City Emergency Braking System.** Automatically brake the vehicle when the distance to the vehicle in front is critical and reduce the vehicle's stopping distance. If dangerous situations, the system applies the deceleration by means of visual and acoustic signals, and with a warning jolt of the brakes.

**Lane change assist “Side Assist”.** Displays a warning signal in the exterior mirror if one of the system’s sensors registers a vehicle in the blind spot when changing lanes.

**High-beam assistant “Light Assist”.** Automatically switches on the high-beam headlights when the vehicle is travelling above 60 km/h in complete darkness.

**Fog lights with integrated static cornering light.** Ensures optimal visibility in poor weather conditions. The headlight nearest to the corner illuminates the roadside when turning.

---

1) Within the system's limits. 2) Depending on the version of the radio system. 3) Up to 30 km/h.

Please contact your local Volkswagen dealer for details of the standard equipment and optional extras available in your country.
Innovative
for good entertainment. The infotainment system with intuitive operation and excellent connectivity.

Thanks to state-of-the-art technology, you can stay connected while out on the road in your Caravelle. For example, the touchscreen displays in the optional navigation systems feature intuitive controls and a good overview of all the information you need. With Car-Net App-Connect and Car-Net Guide & Inform, you can add many other mobile online services to these top-quality systems. A detailed description of the services is available at www.vwn.de/mod.

The Caravelle's state-of-the-art technology allows you to stay connected while out on the road. More information and services are available at www.vw.com.

1) Online Traffic Information. Avoid traffic jams thanks to real-time traffic information and dynamic route adjustment.

2) Online POI Search. Find the cheapest filling station in your vicinity along with its opening hours.

3) Parking Spaces. Save time with an optimised parking space search and display the empty parking spaces nearby, including prices and opening hours.

4) Filling Stations. Find the cheapest filling stations with the lowest prices. A total of 11 services are available to you, free of charge for the first three years.* For further information, go to www.vw.com.
**Infotainment.**

86. “Composition Media” navigation system. The system, compatible with Car-Net Car-Info and Car-Text Connect, consists of a 3.5-inch TFT colour display, a touchscreen with voice control, an MMF and WMA-compatible CD drive, a 4 x 20 watt output with six speakers, an AUX-IN interface, a SIM card port compatible with devices such as iPhones, a Bluetooth connection for mobile phones, a dual tuner with phase diversity, two USB card slots and an SD card with map material for optimum Western Europe navigation. Free updates for the installed maps are available from Volkswagen MapCare on the Volkswagen website. 

87. “Composition Audio” radio system. This system consists of a TFT monochrome display, a 4 x 20 watt output with four loudspeakers, an SD card slot, an AUX-IN interface, a USB port compatible with devices such as iPhones, a Bluetooth connection for mobile phones and a dual tuner with prophase diversity.

88. “Composition Colour” radio system. This system consists of a 16.5 cm (6.33-inch) TFT colour display, a touchscreen with voice control, an MMF and WMA-compatible CD drive, a 4 x 20 watt output with two loudspeakers, an SD card slot, an AUX-IN interface, a USB port compatible with devices such as iPhones, a Bluetooth connection for mobile phones and a dual tuner with FOV-theory for optimum radio reception. A USB port in the storage compartment can be used to mirror a compatible mobile device directly onto the screen. Two sets of infrared headphones are included.

89. Volkswagen CarStick LTE. It utilises Car-Net Car-Info to provide a separate LTE signal to the vehicle’s devices and the “Composition Media” and “Composition Audio” navigation systems can connect to the Internet via this hotspot.

Please contact your local Volkswagen dealership for details of the standard and optional equipment available in your country.
Comfort and interior.

Leather-covered multifunction steering wheel. Adjustable height and reach provide an ergonomic grip and also make it extremely user-friendly. The radio or navigation system, a mobile phone and the cruise control system can all be controlled using its buttons.

Leather-covered multifunction steering wheel with paddles (optional). In vehicles featuring the dual-clutch gearbox DSG, the paddles can be used to manually shift gears if required, without even having to take your hands off the steering wheel.

Air Care Climatronic air conditioning. This system offers 3-zone temperature control for the driver, front passenger, and passengers in the passenger compartment. It detects the intensity of the sun's rays and the outside temperature and adds more or less cool air or heating for the driver and front passenger seats. It includes several temperature meters that can be individually set for the driver, front passenger, and passengers in the passenger compartment. It detects the intensity of the sun's rays and the outside temperature and adds more or less cool air or heating for the driver and front passenger seats. It includes several temperature meters that can be individually set for the driver, front passenger, and passengers in the passenger compartment.

Leather-covered multifunction steering wheel.

“Climate” air conditioning system. The seven automatic climate control systems have a constant temperature with the desired temperature for the driver’s cab. It also provides optimal air distribution in the passenger compartment.

Auxiliary heating system (not shown). This works independently of the heating and ventilation systems, and can be controlled via the centre console or remote control. Alternatively, an auxiliary heater is also available.

Heated windscreen. 2) Electric 2-way seat adjustment (not electrified). The driver's seat is equipped with seat heating, and is electrically adjustable. The lumbar support, backrest tilt, seat height and seating surface height and length are all adjustable, so the driver can find the ideal seating position. Three different seat configurations can be saved using the memory function. Electric 2-way seat adjustment includes seat heating for the driver and passenger seats.

Front passenger bench seat. 4) The Caravelle with a long wheelbase is fitted with up to eight lashing eyes. Please bear in mind that the sliding windows cannot be made with acoustic glass.

Lashing eyes. There are six lashing eyes in the passenger compartment and luggage compartment to help you ensure your load is fully secure. Depending on the seating package selected, the Caravelle with sliding windscreen is fitted with up to eight lashing eyes. (TL, CL, HL)

Sliding windows. Just reach for the handle to let it slide in quickly and easily — with sliding windows on both the left and right side of the passenger compartment. Please bear in mind that the sliding windows cannot be made with acoustic glass.

Exterior.

85. LED headlights. Modern LED technology for dipped and high beams gives the vehicle an attractive lighting signature at the same time as providing ample light.

86. LED taillights. Modern LED technology gives the taillights an attractive lighting signature and also optimises visibility.

88. Highline. Depending on the engine version, loads of up to 2.5 t can be towed. The tow hitch features a trailer stabilisation function as part of the Electronic Stabilisation Programme.

89. Roof-mounted indicators. Offer greater protection against rear-end collisions due to their highly visible position.

90. Headlight cleaning system. The washer jets for the windshield wiper system are extended as needed and then retract back into the bumper. This system, which is linked to the windshield wiper system, works when high or dipped beams are switched on. The headlight housing glass is washed once every five windshield washes.

92. Bicycles are not available in conjunction with rear wing doors. May result in longer delivery periods. Due to roof-mounted indicators, the mounting points cannot be used for external roof systems.

95. Headlight cleaning system. The washer jets for the high beam and dipped beam lights are extended as needed and then retract back into the bumper. This system, which is linked to the windshield wiper system, works when high or dipped beams are switched on. The headlight housing glass is washed once every five windshield washes.

96. Headlight cleaning system. The washer jets for the high beam and dipped beam lights are extended as needed and then retract back into the bumper. This system, which is linked to the windshield wiper system, works when high or dipped beams are switched on. The headlight housing glass is washed once every five windshield washes.

97. Tailgate bicycle carrier. The bicycle carrier mounted on the tailgate is ideal for bicycles with a tubular frame diameter of up to 55 mm. The carrier is particularly convenient with an electric tailgate. The electric tailgate can still be opened automatically when the bicycle carrier is fitted and no bikes are attached. The carrier with 50 mm wide wheel rails can carry up to 60 kg and accommodates up to four bicycles. Tensioning straps and four lockable spacers are used to secure the bicycles.

98. Bicycle carrier expansion. Fitted in conjunction with the bicycle carrier for the tow bar, the easy-to-fit expansion kit enables three bicycles to be carried.

99. Loading sill protection for the rear bumper. The loading sill protection protects the bumper from scratches that may occur when loading and unloading the load compartment. It is available in black and in silver.

00. Bicycle carrier for the tow bar. The sturdy and convenient carrier is fitted onto the tow bar and still allows the tailgate to be opened after fitting. The carrier enables up to two bicycles to be carried.

01. Loading ramp for bicycle carrier. Simplifies the loading of bicycles in conjunction with the bicycle carrier for the tow bar.

02. Headlight cleaning system. The washer jets for the headlight cleaning system extend as needed and then retract back into the bumper. This system, which is linked to the windshield wiper system, works when high or dipped beams are switched on. The headlight housing glass is washed once every five windshield washes.

03. Headlight cleaning system. The washer jets for the headlight cleaning system extend as needed and then retract back into the bumper. This system, which is linked to the windshield wiper system, works when high or dipped beams are switched on. The headlight housing glass is washed once every five windshield washes.

04. Headlight cleaning system. The washer jets for the headlight cleaning system extend as needed and then retract back into the bumper. This system, which is linked to the windshield wiper system, works when high or dipped beams are switched on. The headlight housing glass is washed once every five windshield washes.

05. Roof-mounted indicators. Offer greater protection against rear-end collisions due to their highly visible position.

06. Bicycles are not available in conjunction with rear wing doors. May result in longer delivery periods. Due to roof-mounted indicators, the mounting points cannot be used for external roof systems.
Light & Sight package (not illustrated). Designed to improve visibility, this package consists of an automatically dimming rear view mirror, which protects against dazzling from traffic to the rear, and a rain sensor, which activates the windscreen wipers. The driving light assistant illuminates the path to the vehicle, providing an extra layer of safety at night.

Exterior package (not illustrated). An exterior package is available for the Caravelle Trendline. It comprises low beam headlights in the grille, a short rear bumper, a storage compartment on the right-hand side of the individual seat, sun visors and twenty mirrors on the door and right and left grab handles on the A pillars for the driver and front passenger. A 12 V socket is integrated into the upper storage compartment on the dash panel for further electrical appliances such as car phones and music devices.

Insulating glass package (not illustrated). Reduces exterior noise by up to 6 dB. The front windscreen is specially coated and made from insulated glass, while the side windows are also weathered. All windows in the passenger compartment are tinted (privacy glass). An automatically dimming rear view mirror and rain sensor round out the package for the Caravelle Trendline. These are already standard features for the Comfortline and Highline. The optionally available sliding windows cannot be supplied with acoustic glass.

Light & Sight package (not illustrated). Consists of electrically adjustable and heated exterior mirrors and electric windows. The corresponding switches are integrated into the driver’s and front passenger’s doors.

EDITION package. This equipment package gives the Caravelle an individual look. The 17-inch “Cascavel” alloy wheels in black, fog lights and H7 double headlights and tinted tail lights are particularly striking. The passenger compartment also boasts black decorative film on the B-pillars and privacy glass, emphasizing the sporty character while also providing effective protection from the sun's rays. Further details include the roof and exterior mirrors in glossy black as well as colour-coded door handles and bumpers. The black decorative film with “EDITION” lettering on the side sills and at the rear completes the package. Tailored to the equipment package, you can choose between solid paint finishes in Candy White, Cherry Red and Grape Yellow as well as optional metallic paint finishes in Turmeric Yellow, Mojave Beige, Reflex Silver, Indian Grey, Bamboo Garden Green, Acapulco Blue and Snow White.

- TL
- CL
- HL

1) Only available for the short wheelbase. 2) The 18-inch “Springfield” alloy wheels in black are exclusively available for the Comfortline and Highline. 3) Tinted standard tail light cluster for vehicles with wing doors. 4) Decorative film may show signs of wear and tear or ageing, in particular when subjected to direct sunlight, after a period of 1 to 3 years or even within 1 year if the vehicle is kept indoors for an extended period of time. Visual differences may appear between the area protected by the film and the paint finish that is not covered by film. Please contact your local Volkswagen dealership for details of the standard and optional equipment available in your country.

### Standard Equipment

- **Roll resistance-optimised tyres** (not illustrated). All wheels have roll resistance-optimised tyres as a BlueMotion Technology measure.

- **Low rolling resistance** reduces fuel consumption, and with it, CO₂ emissions.

### Optional Equipment

Volkswagen Accessories.

**Roof box.** This custom fit bicycle carrier transports up to 4 bicycles and securely fits to the roof bars of anodised aluminium profile, can carry up to 8 kg and is suitable for round frame bicycles up to 2 inches in diameter. The digging junctions, attachment columns that can be removed with one hand and securing feet with adhesives to fit the vehicle and can be attached without drilling in seconds. [01]

**Basic carrier.** The lockable, city-crash-tested roof bars are made of anodised aluminium profile, can carry up to 8 kg and are suitable for round frame bicycles up to 2 inches in diameter. The digging junctions, attachment columns that can be removed with one hand and securing feet with adhesives to fit the vehicle and can be attached without drilling in seconds. [01]

**Wind and sun deflector.** The deflector effectively reducesay and makes cycling more comfortable when cycling with the window open. This also provides shade when the sun shines from the side. The deflector’s shape is customised to fit the vehicle and can be attached without drilling in seconds. [01]

**Luggage net.** The tear-resistant, elastic net is simply secured to the roof bars and can be used in any weather. The deflector effectively reduces spray and wind noise. This ensures that small and medium-sized objects remain in place. [01]

**Luggage compartment lid.** This light, flexible, made to measure liner utilises the functions of the T6 Liner exactly. It is designed to fit the vehicle’s unladen weight. Vehicles corresponding with the average are given a D and Efficiency classes evaluate vehicles on the basis of CO₂ emissions, taking into account the individual duties (e.g. the vehicle’s unladen weight). [01]

**Return and recycling of end-of-life vehicles.** The consumption and emissions figures have been determined in accordance with the measurement procedure prescribed by law. Since Spring 2017, new vehicles have already been tested in line with the Worldwide Harmonised Light Vehicle Test Procedure (WLTP). This procedure provides for determining fuel consumption and CO₂ emissions. As of September 2018, the WLTP will become the new measure for the fuel consumption and CO₂ emissions of new vehicles. In the new model testing conditions, the fuel consumption and CO₂ emissions measured using the WLTP may differ from those measured using NEDC. Further information about the differences between NEDC and WLTP is available at www.volkswagen-accessories.de/diecheck. [01]

Protected for up to five years – with the extended warranty.

With the Volkswagen Commercial Vehicles extended warranty, you can extend the two-year warranty on your Caravelle by up to an additional three years. When purchasing a new vehicle, there are several variants with different terms and mileages to choose from. Depending on which offer you go for, you enjoy all of the benefits of the manufacturer's warranty for three, four or five years – with no excess. Your Volkswagen Commercial Vehicles dealer will be happy to advise you.

The benefits for you

- Best possible all-round protection for up to five years
- All of the benefits of the two-year manufacturer’s warranty
- No excess
- Choose the term/mileage combination that works for you:
  - one year, max. 60,000 km
  - two years, max. 80,000 km
  - three years, max. 100,000 km
- Personal support from your authorised dealer
- Choose from any authorised workshop at home or abroad*
- All repairs with genuine parts
- Value retention and higher resale value
- Can be ordered at any stage prior to vehicle handover

* Applies to the EU, Norway and Switzerland. Please contact your local Volkswagen dealer for details of the standard equipment and optional extras available in your country.
The Caravelle
