Amarok

100% on and off road

Uncompromising off-road. Spirited on the asphalt. The Amarok combines everything that you expect from an exclusive, premium-class all-rounder: a masculine design and robust construction along with plenty of power.

V6 3.0L TDI engine

Performance of 190kW / 580Nm for the Amarok V6 Sportline and V6 Aventura models. **SA** **SS**

2.0L TDI engine

Tried and tested 4 Cylinder, Twin Turbo engine with torque of up to 420 Nm. **SC**

Permanent 4WD

Featuring Volkswagen's iconic permanent 4MOTION all-wheel-drive system built for supreme safety on road, full time. Equally as impressive off the beaten track and beyond. **S**

High level of safety on every terrain

With off-road ABS and ESP with hill start/descent assist and trailer stabilisation. **S**

Exterior design

Styling features including revised front end, bi-xenon headlights, new alloy wheel options and unique paint colours. **O**

Interior design

Redesigned dash panel, fresh upholstery options and optional ergoComfort 14-way power seats. **S**

Modern infotainment systems

"Discover Media" with colour touchscreen display, navigation and App-connect. **SA** **O**

Best loading platform

Widest load platform and extremely lightweight tailgate for easy loading. **S**

Premium cockpit and first class comfort

The Amarok provides a convincing combination of space and first class comfort. The interior cockpit features the dash panel with a decorative trim and A4 format storage compartments on selected models.

Additionally, all models include a leather-covered multifunction steering wheel which is also height and reach adjustable.

01

01 ergoComfort seats with 14-way adjustment. Both front seats are heated and can be electrically adjusted in twelve ways using a control unit or manually adjusted in two ways. Available in Vienna or Nappa leather. **SA** **O**

12 V sockets with up to 4 x 12V sockets inside the vehicle: one in the dash panel, one in the central console and one in the rear row of seats. **S**

02

03

02 "Discover Media" infotainment with 6.33 inch colour touchscreen display, navigation, MP3 compatible CD player and 6 loudspeakers. **SA** **O**

03 Also featuring **App-Connect** - enabling you to connect to your Volkswagen using Apple Carplay®, Android Auto and MirrorLink®. Music, mapping, messaging and more. **S**

When power is everything

Volkswagen V6 3.0 I TDI engine with up to 190kW of power and torque up to 580Nm. Powerful like no other: the 6-cylinder turbodiesel engine with a 3.0 I displacement has more than enough power reserves even in the most demanding situations. For even more power, an overboost function is available, briefly increasing performance by an additional 10kW for the 190kW model.

V6

01 V6 3.0 I TDI Fuel Economy, single turbo V6 with average fuel consumption from 8.9l/100km combined. **SA SS**

2.0 I TDI Fuel Economy, twin turbo with average fuel consumption from 8.5l/100km combined. **SC**

02 Optional 8-speed automatic gearbox and permanent 4MOTION all-wheel drive. The Amarok is the only vehicle to offer the unique combination of comfortable 8-speed automatic gearbox with the iconic torsen differential and permanent 4MOTION all-wheel drive. The first gear is designed for off-road driving, whereas the eighth gear is optimised for economical driving at low engine speeds. **S**

02

Go anywhere with Amarok V6 Sportline

100% incline, 50° gradient and outstanding off-road ABS.

Asphalt, earth, gravel. In the Amarok you will experience the pinnacle of exclusive driving comfort on almost any terrain. It combines high ground clearance with the best body stability along with the proven 4MOTION all-wheel drive. This vehicle also comes into its own on the road, for example by significantly increasing traction when cornering.

01 Side slope angle. The broad wheelbase of the Amarok provides enormous stability even when driving along slopes with a 50° incline.^{1,2}

02 High-climbing ability. The Amarok handles 100% grades with a payload of up to 1 tonne.¹

Off-road ABS. Once activated, the wheels lock when braking on loose surfaces with a larger interval, essentially creating a wedge which significantly reduces the braking distance. This noticeably increases the driving safety. **S**

03 Permanent 4MOTION all-wheel drive. This 4x4 drive system with a self-locking Torsen middle differential is unique in the ute segment and provides a balanced 40:60 distribution for all on-road and off-road tasks.³ **S**

1) The values vary depending on the equipment and engine. 2) The incline on the left side is 49.7° and 50.8° on the right side. Please bear in mind that these figures result from static calculations. 3) The distribution varies depending on the surface. Please contact your local Volkswagen Commercial Vehicles dealer for details of the standard equipment and optional extras applicable in your country.

Fully loaded

01 The widest load platform. No other diesel ute provides so much space between the wheel housings: the loading width of 1,222 mm even enables standard pallets to be loaded crosswise. The spacious cargo box with a 2.52 m² load surface features convincing dimensions – such as the 508 mm high side panels and the low loading sill height of 780 mm. **S**

02 The smoothest moving tailgate it can be loaded with up to 200 kg and can serve as a load platform extension. **S**

Standard Equipment **S**

Driver assist

01 ParkPilot emits audible warnings when obstacles are detected in front of or behind the vehicle when parking, and provides a visual display. **S**

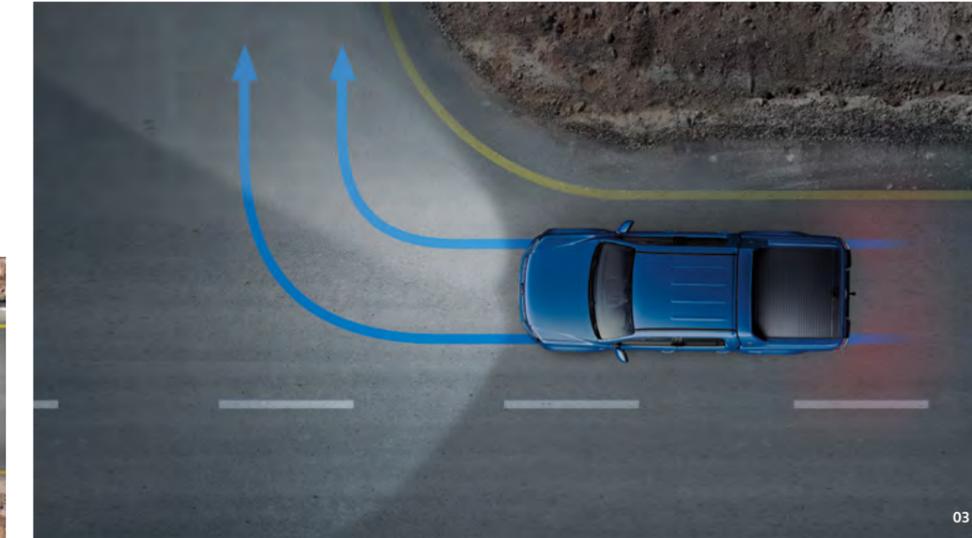

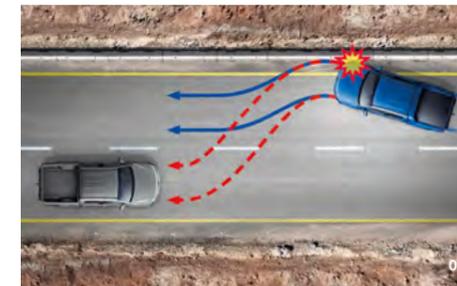

02 Automatic Post-Collision Braking System triggers braking after a collision, with the aim of preventing secondary collisions. After a short delay, the vehicle begins phased braking action down to 10 km/h. **S**

Electronic Stabilisation Programme prevents under- or over-steering via targeted braking of individual wheels. **S**

03 Fog lights with optionally integrated static cornering light. Ensures optimal visibility in poor weather conditions. The fog light nearest to the corner illuminates the roadside when turning. **S**

Hill Start Assist prevents the vehicle from rolling back on inclines and makes it easier to start off on uphill slopes. **S**

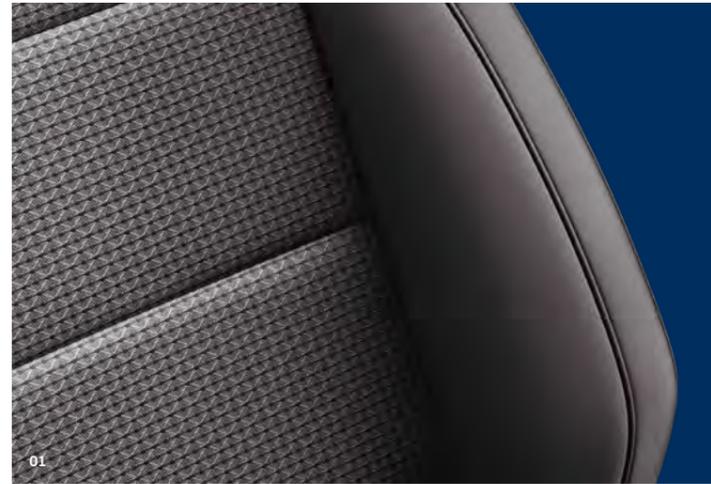

Hill Descent Assist allows you to drive down slopes in a safe, controlled way at walking speed by governing the engine speed and applying the brakes, if necessary. **S**

04 "Rear View" reversing camera simplifies parking by showing a limited view of the area behind the vehicle on the display. Static guidelines facilitate the parking process. **S**

Cruise control from a speed of 30 km/h. It maintains the desired speed depending on uphill and downhill inclines. **S**
