

## Comfortable

no matter where you're sitting. High-quality materials create a truly comfortable atmosphere.

The many convenient details in the Caravelle invite passengers to make themselves comfortable. The passenger compartment is the ideal solution for commercial passenger transport, with plenty of space for passengers, and their individual requirements. This includes high-quality materials and the typical excellent workmanship, along with convenient reading lights. The Easy Entry function of the outer seat in the second row at the sliding-door side provides especially comfortable access to the third row of seats. Easy Entry seats can be folded forward in a matter of moments, and are fitted on both sides in vehicles with two sliding doors.

The upholstery immediately creates a comfortable ambience, allowing passengers to sit back and enjoy the journey. In addition, the Caravelle's excellent noise insulation keeps exterior noise where it belongs: outside.
