# Beautifully designed. Technologically advanced.

Charismatic, confident and capable, the new Golf range features a powerful design and a wealth of technology. New generation infotainment systems and advanced driver assistance systems ensure you're equipped to handle just about anything everyday life can throw at you. And as you'd expect, it's all done with effortless style and flair. It's time to experience the future. Today.

01 Newly designed bumpers to the front and rear, a **restyled radiator grille**, **new headlights** with LED daytime running lights, rear LED tail lights, redesigned front wings and a fresh selection of alloy wheels and colours give a stylish updated look and feel to this iconic car.

02 Optional 18-inch Jurva alloys on Highline.

# Exterior

With its powerful, refined design, the new Golf makes a real statement. The characteristic C-pillar, generous wheelbase and short overhangs create an unmistakable silhouette, while the redesigned bumpers, restyled radiator grille with extended chrome strip and new headlights accentuate the width, creating presence and style.

**03** The front of the new Golf and Golf Wagon is characterised by the instantly recognisable Golf styling. Changing with the times while remaining true to its heritage, the latest generation Golf delivers on every level.

# Interior

**04** The optional **Active Info Display** is a fully configurable, interactive 12.3 inch TFT display which replaces the standard analogue instrument cluster, displaying vehicle data and information on your dashboard. Five different modes allow you to customise the screen, with large or small dials as you prefer, and a number of items displayed behind them. When used in navigation mode, in conjunction with the Discover Media or Discover Pro Navigation systems, you can move the speedometer and rev counter to the edge of the display, creating more space for the navigational map. If you wish, you can include driving, navigation and assistance functions within the graphics of the speedometer. As the Active Info Display is linked to all other assistance systems in the vehicle, any data shown in the centre console of the infotainment system, such as phone numbers or your music's compatible cover art, can also be displayed on the dash, conveniently placed directly within the driver's optimum field of vision.

**05** The new **intelligent dashboard** and controls provide a gateway to the digital world, with a sophisticated new design, larger infotainment touch-screens and intuitive operation. The optional Discover Pro system with the 9.2-inch glass-covered touchscreen display features a stylish glass surface, with higher resolution display, sharper graphics clearly showing all the relevant information you need, and operable with touch, voice and gesture control. In addition, new decorative trim panels in the door, dash and centre console, along with a new selection of stylish seat upholsteries, allow you to personalise your Golf to your taste, creating your own interior ambience.

## R-Line

More distinctive than ever, the dynamic R-Line features a unique styling pack, comprising a number of sporty exterior upgrades such as restyled bumpers, sills, spoilers, radiator grille and badging, and a luxurious interior, with front sports seats and aesthetic detail, creating the look and feel of a real sports performer.

**06** The 'R-Line' styling pack includes specially designed front and rear bumpers, a redesigned radiator grille, gleaming black front air intake and side skirts, creating a powerful, athletic look, complemented by sporty 18 inch 'Sebring' alloy wheels, chrome effect trapezoid exhaust surrounds to the left and right, and unique 'R-Line' badging. A new rear roof spoiler provides additional downforce to the rear axle when accelerating.

**07** Front sports seats are ergonomically designed for both comfort and style. Finished in contemporary 'R-Line' cloth with 'Carbon Flag' inner sides of bolsters in ArtVelours and the R-Line logo displayed on the seat backrests, not only do they look good, but also provide excellent lateral support when cornering, while lumbar support for the driver and front seat passenger ensures maximum comfort on every journey.

# The new GTI, the rebel returns.

Cool, stylish and powerful, the Golf GTI is back, delivering exhilarating performance and pure driving pleasure. Unique exterior styling creates a powerful road presence, while sports running gear and lowered sports suspension helps hug the road, especially on corners. With its new turbocharged 2.0 litre TSI petrol engine delivering 169kW, and with plenty of driver assistance systems, the new Golf GTI is all you'd expect and more. The rebel returns.

Overseas models shown, local specification may vary.

# Exterior

08 'Milton Keynes' 18 inch alloy wheels are dynamic and stylish, with red brake callipers adding a sporting touch.

09|10 The rear of the new Golf GTI is characterised by a 'Black' diffuser with new, larger chrome exhaust tailpipes to the left and right, a body-coloured rear roof spoiler and unique 'GTI' badging. New LED rear light clusters complete the picture, giving a distinctive look at night.

10

Overseas models shown, local specification may vary.

# Interior

As soon as you open the door of the new Golf GTI, with its illuminated red door sill panels and 'GTI' badging, you'll be inspired.

**11|12** Front sports seats are upholstered in 'Clark' cloth and feature height and lumbar adjustment, ensuring optimal support when cornering. The **leather trimmed three-spoke multifunction steering wheel** displays eye-catching red stitching and the 'GTI' logo, with matching gear knob gaiter, enhanced by 'Honeycomb Black' decorative inserts in the dash and door panels. Stainless steel pedals give a real sports feel, while the optional Active Info Display, with 12.3 inch high resolution screen, allows you to keep an eye on the performance of your vehicle when driving, and two-zone climatronic air conditioning with automatic air recirculation and allergy filter ensures an ambient interior temperature throughout the cabin. Images shown feature optional 'Honeycomb' microfleece ArtVelours front seats, Active Info Display and Discover Pro Navigation system.

# The ultimate performer.

Ready to go at a moment's notice, the new Golf R delivers sheer, unadulterated power. Sports-tuned suspension and 4MOTION all-wheel drive ensure control and comfort, while the powerful 2.0 litre 228kW TSI petrol engine delivers power exactly when and where you need it. Are you ready to go?

13 | 14 There's no mistaking the dynamic new Golf R, with its uniquely shaped bumpers, 'R' radiator grille with matt-chrome strip, side sills and matt-chrome effect door mirrors, enhanced by 18 inch 'Cadiz' alloy wheels with 'Black' brake callipers.

Overseas models shown, local specification may vary.

# Exterior

**15** The rear of the R is dynamic and sporty, with the 'Black' diffuser featuring twin oval chrome exhaust tailpipes to the left and right, rear roof spoiler and unique 'R' badging completing the look.

**16** 18 inch 'Cadiz' alloy wheels combined with DCC Adaptive Chassis Control, give the look and feel of a true sports performer and are exclusive to the R model.

# Interior

**17|18** The sleek interior includes ambient lighting, a unique 'R' instrument cluster and gear lever knob, and front sports seats upholstered in 'Race' with Alcantara side bolsters and embroidered 'R' logo. 'Carbon Touch' decorative inserts in the dash and door panels, a leather trimmed multifunction three-spoke steering wheel with 'R' logo and gear knob gaiter, and unique 'R' design key add to the exclusive sporty feel. Image shown features optional Discover Pro Navigation system and Active Info Display.

# Infotainment

The new Golf range incorporates the latest generation infotainment systems, providing new levels of connectivity and intuitive operation, utilising touch-screens, voice control, phone operation and, for the first time ever, gesture control.

**19|20 Innovative gesture control** enables you to operate the optional Discover Pro Navigation 9.2-inch glass-covered touchscreen system with the greatest of ease. Using a simple sideways swiping gesture, you can scroll through the main menu, change radio stations, flip through the playlist or browse through your picture viewer or albums in the media library. Successful swipes are confirmed by a sound effect that can be deactivated if you wish. Images shown feature optional Discover Pro Navigation system.

21

22

23

**21** The **Composition Media radio system** is equipped with an 8.0 inch colour touch-screen, DAB digital radio receiver, Multi Device Interface (MDI), single CD player, SD card reader and USB connection. It allows music playback from MP3, WMA and AAC files, simultaneous pairing of two compatible mobile devices, SMS functionality (when stationary and on compatible Android smartphones only), Bluetooth telephone and audio functionality, and provides driver tips and journey analysis via the 'Think Blue. Trainer.' Eight speakers, situated to the front and rear, deliver 4 x 20 watt output. Standard on Comfortline models.

**22** The **Discover Media Navigation system** adds navigational functionality to the 'Composition Media' system, providing branded points of interest, preloaded navigation data, Speed Limit Display and three routes (Fast, Short and Eco), and 2D/3D map view. The system offers Volkswagen Media Control, allowing remote control of the infotainment system via a smartphone or tablet, preloaded navigation data, 3D map view, three calculated routes (Fast, Short and Eco), branded points of interest, Speed Limit Display, photo display from JPEG and PNG files and two SD card readers. Standard on Highline, R-Line GTI and R models.

**23** The **'DYNAUDIO Excite'** premium audio system produces phenomenal sound, delivering 400 watt output via an 8-channel digital amplifier and eight speakers located around the cabin. The Digital Signal Processor (DSP) maximises the sound from each speaker, ensuring every seat is in the optimum listening position.

**24** The **Discover Pro Navigation system** features a glass-covered 9.2 inch colour touch-screen for navigation, DVD, CD, radio functions and hard drive. It responds to spoken voice commands for navigation and telephone functions, and also features gesture control for use with various different menus, responding to a sideways swiping gesture and confirming a successful swipe with a sound effect, which can be deactivated if required.

1) Devices must be Bluetooth HFP (Hands Free Profile) compatible, please contact your authorised Volkswagen retailer for specific phone compatibility.

2) Speed Limit Display only reflects national speed limits and does not show temporary speed limit restrictions, or where permanent changes to speed limits are made in-between map updates.

24

# Driver assistance systems.

Intelligent driver assistance systems ensure greater comfort and convenience on your journey, and can help you to overcome or avoid potentially critical situations.

**25 Lane Assist** reduces the risk of accidents by stopping the vehicle from unintentionally leaving the lane following a short lapse in attention. The system only responds if the driver has not operated a turn signal or purposefully turned the steering wheel. (Standard across the range)

**26 Adaptive Cruise Control (ACC)** offers you intelligent control of your driving speed by automatically adjusting acceleration and braking. Whether around town or on the motorway, the system will adjust your speed to that of the vehicle in front, keep your specified distance, warn if you are approaching too fast and, in an emergency situation, generate enough braking force to try to reduce the severity of a collision or possibly even prevent the collision entirely. (Optional on Comfortline, standard on other models)

**27 Front Assist** including city emergency braking function can be used if it senses a rear-end collision and will help to reduce the severity of the accident or – ideally – to avoid it altogether by warning the driver. If the driver fails to respond, the vehicle automatically applies the brakes. (Standard across the range)

**28** The optional **Active Info Display** is a fully configurable, interactive 12.3 inch TFT display which replaces the standard analogue instrument cluster, displaying vehicle data and information on your dashboard. Five different modes allow you to customise the screen, with large or small dials as you prefer, and a number of items displayed behind them. When used in navigation mode, in conjunction with the Discover Navigation or Discover Pro Navigation systems, you can move the speedometer and rev counter to the edge of the display, creating more space for the navigational map. If you wish, you can include driving, navigation and assistance functions within the graphics of the speedometer. As the Active Info Display is linked to all other assistance systems in the vehicle, any data shown in the centre console of the infotainment system, such as phone numbers or your music's compatible cover art, can also be displayed on the dash, conveniently placed directly within the driver's optimum field of vision.
