

The new Tiguan Allspace

Volkswagen

The new Tiguan Allspace. Plenty of room for an adventure.

Whatever you have in mind: with its spacious interior and third row of seats*, the new Tiguan Allspace has room for everyone and everything. The longer wheelbase not only creates more space and more flexibility, it also emphasises the vehicle's dynamic design. The bold radiator grille, the distinctive light signature and the roof with standard roof railings set a confident tone. Thanks to innovative technology and state-of-the-art assist systems, you are equipped for practically any adventure.

*For passengers up to max. 1.60m.

Space to feel free. As far as the eye can see.

Volkswagen

In the new Tiguan Allspace, you can't just see freedom, you can feel it too, thanks to the comfortable amount of legroom.

Or the freedom to change your plans at the drop of a hat. That's because the flexible interior concept and third row of seats mean that you are equipped to cope with almost every eventuality.

01 The ergonomic cockpit impresses with its clear and straightforward design. At the heart of the design is the centre console tilted towards the driver, with an elegant glass cover over the "Discover Pro" radio navigation system standard on R-Line.

02-03 The spacious dimensions in the new Tiguan Allspace provide plenty of legroom, even in the second row of seats. Extra long legs or a bulky bit of luggage? The second row of seats can be adjusted by pushing the seats forward, split asymmetrically and folded for added flexibility. Added comfort is provided by the folding centre armrest with two built-in drinks holders.

04-05 The standard third row of seats has space for two further passengers. These seats can be folded down, either completely or in parts, increasing the size of the load compartment accordingly. As a result, the new Tiguan Allspace is even more versatile: a genuine all-rounder.

On road or off-road, a new drive experience awaits.

Wherever you're heading – the Tiguan Allspace's powerful engines with optional 4MOTION technology take you up and down hills. That way you stay in control – on every road. With 4MOTION Active Control, your Tiguan Allspace is always perfectly set up for the driving surface.

07 All 4MOTION models have high torque engines and 4MOTION Active Control with a choice of driving modes providing optimum handling whatever the weather conditions or terrain.

08

Freedom of movement.

In the new Tiguan Allspace, you won't just feel freedom from every seat. Freedom also means being able to make a call while driving, want to reach your destination using the navigation system or simply wish to listen to your own music – your Tiguan Allspace provides various options for using modern technology in a convenient and uncomplicated way.

Volkswagen

08 **Gesture Control** makes operating the “Discover Pro” radio navigation system even easier. It enables you to move through the main menu and all the various sub-menus – with total ease using a single swiping gesture. For instance, with one hand movement, you can move from station to station, from song to song and photo to photo.

The “**Discover Pro**” radio navigation system is the Infotainment system for the tech-savvy driver. A real eye-catcher: the chic glass cover, the 23.4 cm (9.2 inch) touchscreen, which both looks and feels like a top-of-the-range tablet. Standard on R-Line.

09 The **Active Info Display** provides a system that can be tailored to suit your exact preferences. The fully configurable, interactive 12.3-inch TFT displays vehicle data and information on your dashboard – all in the driver's direct field of vision. Standard from Highline onwards.

10 The **Discover Media Navigation** system adds navigational functionality to the ‘Composition Media’ system, providing branded points of interest, preloaded navigation data, Speed Limit Display and three routes (Fast, Short and Eco), 2D/3D map view and voice control. Standard on 4MOTION models.

11 Enhance your cockpit: with **App-Connect^{^1}**, you can operate many of your personal smartphone apps safely and conveniently on the Infotainment system touchscreen in the centre console. Depending on your smartphone model, you can use MirrorLink®, Apple CarPlay™ or Android Auto™ by Google to connect it to the Infotainment system. The screen shows Apple CarPlay™. A whole world of mobile apps awaits. Standard across the range.

12 With a stunning 20.3 cm (8 inch) touchscreen glass display, the **Composition Media** system is a delight to use – simply touch the screen, just like your phone. Featuring an SD card slot and playback for MP3 and WMA files, the six rich-sounding speakers will be music to your ears. Standard on 2WD Comfortline.

^{^1} Only available in conjunction with the “Composition Media” radio or the “Discover Media” navigation function and “Discover Pro” radio navigation systems.

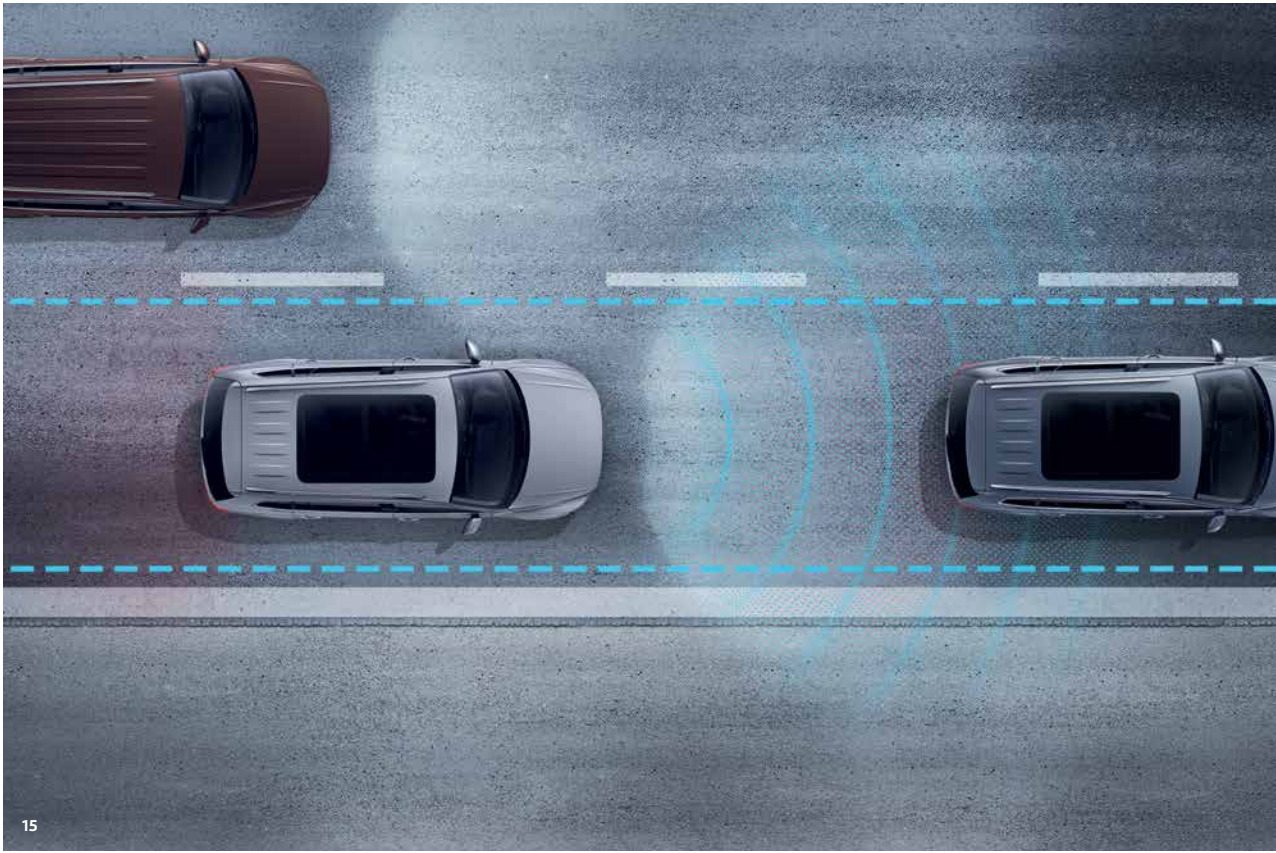

Driver assistance systems.

Wherever your plans may take you: The assistance systems in the new Tiguan Allspace make day-to-day life on the move even easier, leaving you calm and confident behind the wheel.

13 The **Area View Camera** supports the driver when exiting concealed exits or side streets, when entering or driving out of parking spaces. It generates a 360 degree surround view on the touchscreen and provides a bird's eye view.

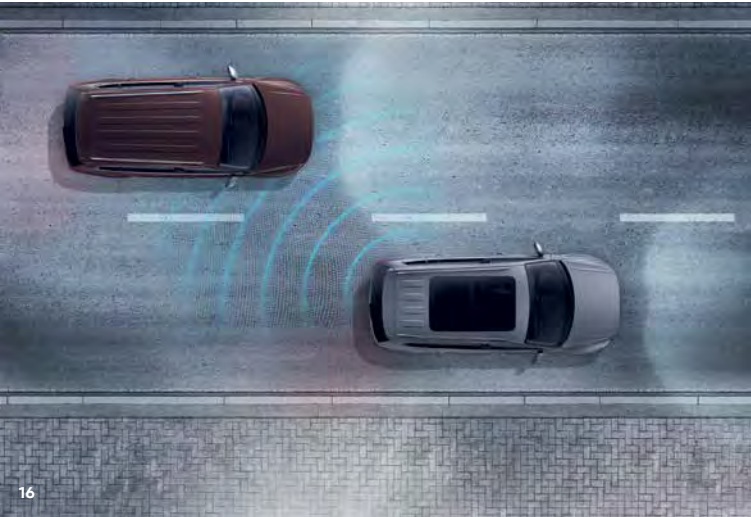

14 The standard **"Front Assist"** incorporates City Emergency Braking with Pedestrian Monitoring, which enables the system to respond to stationary vehicles at speeds up to 30 km/h and detect pedestrians at speeds up to 60 km/h.

15 **Adaptive Cruise Control (ACC)**, including Front Assist radar sensor controlled distance monitoring system, City emergency braking system, cruise control and speed limiter offers you intelligent control of your driving speed by automatically adjusting acceleration and braking. Standard from Highline onwards.

In a medical emergency or in the event of the driver's inactivity, **"Emergency Assist"** automatically controls some functions of the vehicle with the aim of avoiding accidents or minimising their consequences. Standard from Highline onwards.

Traffic Jam Assist guarantees a completely new level of driving convenience in traffic jams by linking "Lane Assist" and adaptive cruise control functions. The system is enabled within a speed range of 0 to 60 km/h. Standard from Highline onwards.

The **"Lane Assist"** lane departure warning system issues visual, acoustic or physical warnings if the driver is about to leave the lane unintentionally and will also actively intervene with steering if necessary. Standard across the range.

16 From speeds of 15 km/h, the lane change assist **"Side Assist"** helps you out when changing lane. Two radar sensors in the rear scan the areas behind and next to the vehicle (blind spot) and the system then draws your attention to potential hazards. As a result, you can reduce the risk of accidents, particularly on roads with multiple lanes. Standard across the range.

Comfort.

The Tiguan Allspace makes your journey as pleasant as possible with its spacious interior and wealth of comfort systems. Whether you're towing a trailer or a caravan – the new Tiguan Allspace can easily tow up to a mighty 2.5 tonnes^{^1}.

17 Do you often over-pack? Not a problem for the new Tiguan Allspace. You can enjoy a load compartment volume of up to 1,775 litres. By folding up the third row of seats, you can expand the load compartment to around 700 litres (with 2nd row pushed forward). More boot space waiting to be filled with your spirit for adventure.

18 Unlock the doors as if by magic with your key in your pocket, open the boot lid holding full shopping bags by simply moving your foot under the rear of the car: keyless locking and starting system **Keyless Access^{^2}**, **Easy Open and Easy Close^{^3}** revolutionise how you enter, exit and load the Tiguan Allspace.

19 Always informed, never distracted: the **Head-up Display** rises from its position behind the dashboard into the driver's primary field of vision at the turn of a button. Driving information, including current speed and navigational details are transparently displayed helping to reduce the amount of time that the driver's eyes are averted from the road. Standard on R-Line.

R-Line.

More freedom – even when it comes to sportiness. Decide for yourself just how dynamic your new Tiguan Allspace will be. The R-Line exterior highlights the vehicle's sporty exterior with countless details such as the bold colour-keyed bumper with black C-signature or the 20-inch "Suzuka" alloy wheels available exclusively for the R-Line. The full R-Line package has even more dynamic features, with additional interior highlights not to be missed.

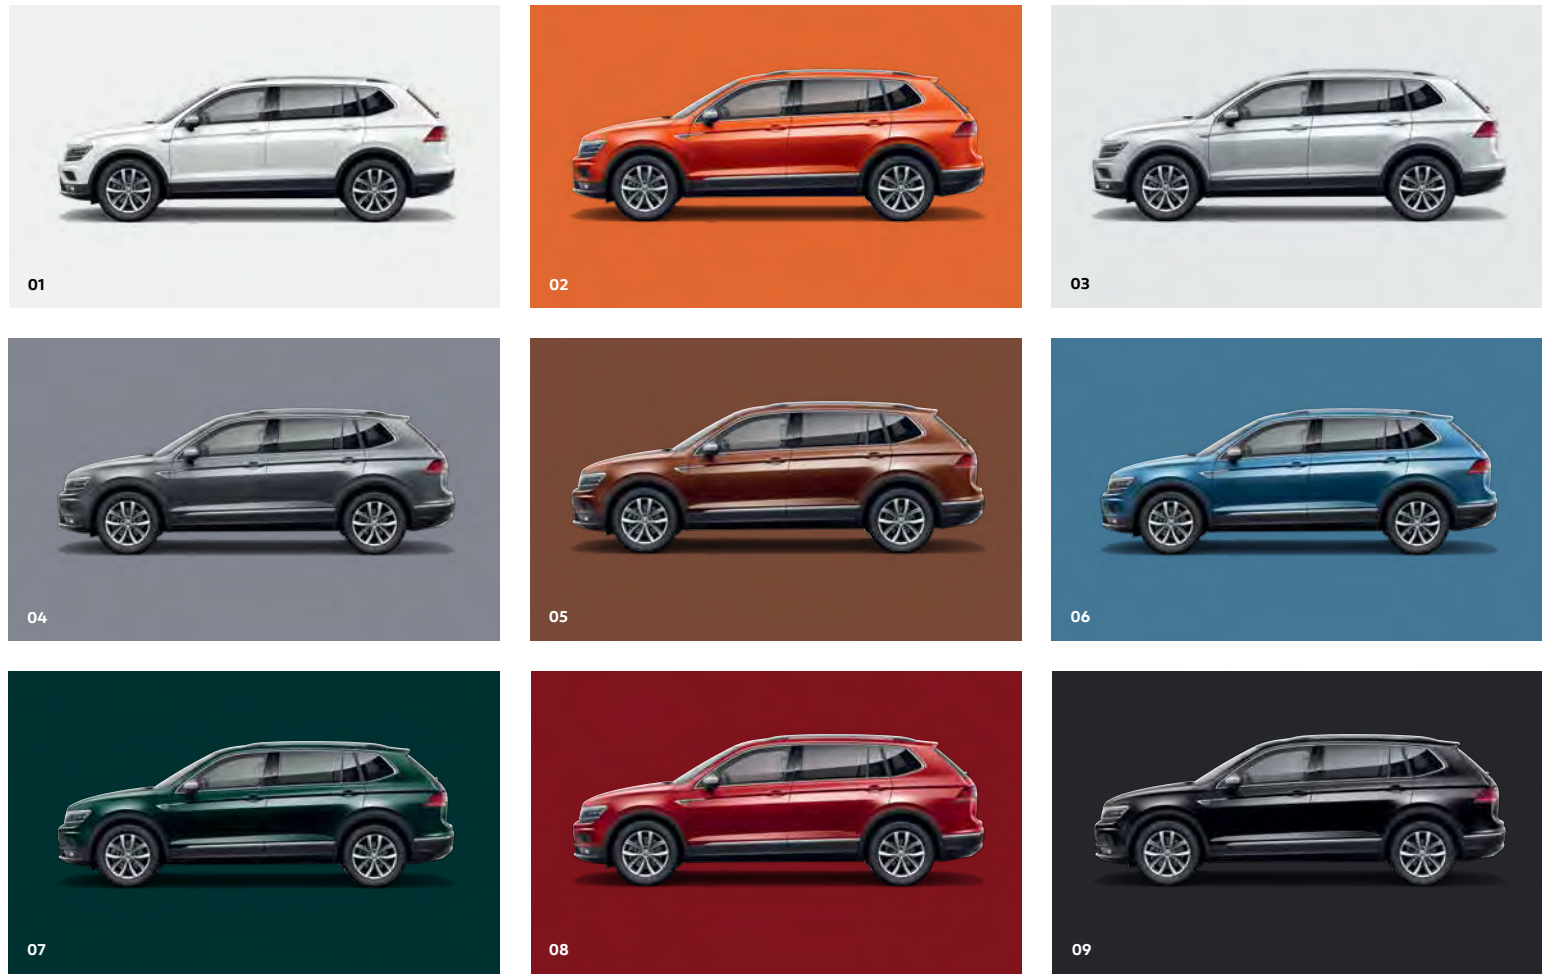

20 Sporty design that you can see: like the black headlining available in the R-Line package. And feel, too: thanks to the premium R-Line comfort seats in "Vienna" leather in the front, providing perfect sporting elegance and optimum support with the distinctive "R-Line" logo on the backrest.

Volkswagen

^{^1} Depending on your engine-gearbox combination and equipment, the trailer has a maximum trailer weight of between 1,800 and 2,500 kilograms. ^{^2} Standard across the range. ^{^3} Standard from Highline onwards.
