

Volkswagen

# The new Tiguan

Model shown is Tiguan 4MOTION R-Line with optional premium Oryx White paint.

Front cover model shown is new Tiguan 4MOTION R-Line with standard Heads-up Display and optional premium Oryx White paint.

# Opens up a world of opportunity. On road and off-road.

On road and off-road, the second generation new Tiguan opens up a world of possibilities. The all-new design provides greater functionality than previous models, enhancing handling and performance on a wide range of terrain, from motorway to gravel road. Whether you prefer elegant and refined, dynamic and sporty or rugged and robust, there's a new Tiguan model for you, impressively equipped with a range of advanced features to ensure new levels of driving enjoyment wherever you are.

**01** Integrated rear lights, equipped with **LED technology** for optimum performance and visibility, blend harmoniously into the bodylines, creating a dynamic look.

Interior shown is Tiguan 4MOTION Highline with standard Discover Media navigation system and 'Vienna' leather in Saffrano Orange upholstery (Saffrano Orange upholstery optional on 4MOTION Highline models).

# Total control at your fingertips.

Functionality and ergonomics go hand in hand in the new Tiguan. The premium quality centre console is angled towards the driver for optimum driving convenience, placing the impressive 8.0 inch colour touch-screen and infotainment system easily within reach and every switch and control intuitively to hand. With controls optimally positioned and information clearly in view, driving the new Tiguan is so much fun. Discover Navigation Pro 8.0 inch standard on 4MOTION R-Line models. Optional on 4MOTION Highline models.

**01** The **electrically operated, panoramic glass sunroof with integrated roller blind and LED ambient lighting** adds additional light and space, whether open or closed, filling the interior with natural light and providing an inviting view of the sky above. When tilted upwards, it lets in fresh air, and if the sky is a little dull, the integrated LED lighting adds a pleasant, ambient feel. Panoramic glass sunroof optional on all models. LED ambient lighting standard from Highline models onwards. Image shown is new Tiguan 4MOTION Highline with optional 'Vienna' leather in Saffrano Orange upholstery.

Model shown is new Tiguan 4MOTION Highline TDI with optional 'Off-road exterior pack', 19" 'Auckland' alloy wheels and metallic paint. 'Off-road exterior pack' optional on 4MOTION Highline only.

# On road or off-road, the adventure starts here.

The new Tiguan boasts a smart new look that's longer and lower than previous models, providing more interior space and helping to improve drive and handling. Sharp lines, stylish alloy wheels and details such as LED daytime running lights, along with deeper front air intake grilles on R-Line models, give a look that is dynamic, strong and unmistakably Volkswagen. 4MOTION models feature shorter front and rear overhangs and restyled bumpers with improved approach and departure angles with the optional 'Off-road exterior pack'. All 4MOTION models have high torque engines and new 4MOTION Active Control with a choice of driving modes providing optimum handling whatever the weather conditions or terrain. 'Off-road exterior pack' optional on 4MOTION Highline only.

**01** All 4MOTION models feature **4MOTION Active Control** which allows you to adapt your Tiguan to suit the weather and road conditions ahead. Choose from four driving modes including On road, Off-road, Off-road Individual and Snow, enabling you to find the optimum choice of driving mode wherever your adventures may take you. Standard on all 4MOTION models. Image shown features standard 'Vienna' leather upholstery on 4MOTION Highline and R-Line models.

---

# Elegant and beautifully crafted design in perfect harmony with advanced technology.

01

Interior shown is Tiguan 4MOTION Highline with standard Discover Media navigation system and 'Vienna' leather in Saffrano Orange upholstery (Saffrano Orange upholstery optional on 4MOTION Highline models).

**01 Ambient lighting** illuminates the interior, creating a pleasant interior atmosphere and enhancing the sense of spaciousness. Integrated LED lights in the front footwell, door sill protectors, dashboard and decorative inserts in the front door panels give a luxurious feel with the brightness adjusted via the infotainment screen. LED ambient lighting standard from Highline models onwards.

**02 The Active Info Display** provides a system that can be tailored to suit your exact preferences. The fully configurable, interactive 12.3 inch TFT display replaces the standard analogue instrument cluster, displaying vehicle data and information on your dashboard. Six different modes allow you to customise the screen. When used in navigation mode in conjunction with the Discover Navigation Media<sup>1</sup> or Discover Navigation Pro systems, you can move the speedometer and rev counter to the edge of the display, creating more space for the navigational map. If you wish, you are able to include driving, navigation and assistance functions within the graphics of the speedometer. As the Active Info Display is linked to all other assistance systems in the vehicle, any data shown in the centre console of the infotainment system, such as phone numbers or your music's compatible cover art, can also be displayed on the dash conveniently placed directly within the driver's optimum field of vision. Standard on 4MOTION Highline and R-Line models. Optional on 2WD models.

**03 The Head-up Display** rises from its position behind the dashboard into the driver's primary field of vision at the press of a button. Driving information, including current speed and navigational details, are projected onto the retractable screen and transparently displayed helping to reduce the amount of time that the driver's eyes are averted from the road. Standard on 4MOTION R-Line models.

**04-05 3-Zone electronic air conditioning with air intensity control and automatic air recirculation** ensures a pleasant interior temperature to suit the individual preference of driver, front passenger and rear seat passengers. Rear passengers are able to make adjustments via an electronic control panel conveniently located to the rear of the front centre armrest. A sensor monitors the outside air quality and, if necessary, automatically activates the air recirculation function. Standard on all models.

<sup>1</sup> When the large navigation map is displayed on the full Active Info Display in conjunction with the Discover Navigation Media<sup>1</sup> system, the navigation map cannot be displayed on the central 8.0 inch colour touch-screen. This does not apply to Discover Pro. Standard on 4MOTION R-Line.

---

# Advanced infotainment. State-of-the-art navigation.

Intuitive 8.0 inch colour touch-screen displays and state-of-the-art technology ensure radio and navigation systems, are not only easy to operate, but provide all the journey information you need and recognise many external multimedia devices you may wish to connect.

Image shown may not match NZ specifications.

The **Composition Media system** is equipped with an impressive 8.0 inch colour touch-screen with proximity sensor that recognises your intention to touch the screen in advance and automatically magnifies the display mode. Features also include CD player, USB connection for compatible products and SD card reader. The media system also includes Bluetooth telephony and audio connection for compatible devices<sup>1</sup>, simultaneous pairing of 2 compatible mobile devices, SMS functionality – allowing you to listen, voice compose and send SMS messages using the touch-screen display to a compatible smartphone, title and compatible cover art display and facilitates music playback from MP3, WMA and AAC files through eight speakers, front and rear. Finally, car information display and Think Blue. Trainer. – provide journey analysis and driver tips on your journey. Standard on 2WD models.

The **Discover Navigation Media touch-screen navigation/radio system**<sup>2</sup> builds upon the impressive Composition Media system, but with additional features enabling you to easily manage not only your music, but also navigation data and a broad range of vehicle information. The system offers preloaded New Zealand navigation data, 2D/3D map view which can be easily followed on the 8.0 inch colour touch-screen, and three calculated route choices (Fast, Short and Eco). Standard on 4MOTION models. Optional on 2WD models.

The **Discover Navigation Pro touch-screen navigation/DVD radio system with integrated voice activation**<sup>2</sup> can be operated intuitively via the 8.0 inch colour touch-screen, enabling you to manage music and navigation data. Eight powerful speakers deliver great acoustics and the DVD system is compatible with MP3 and WMA files. It also offers a 64 GB SSD hard drive, two SD card readers, photo display from JPEG and PNG files, voice control and USB connection. Standard on 4MOTION R-Line. Optional on 4MOTION Highline models.

In addition, the **'App-Connect'** combines the functionality of Apple 'CarPlay', Google 'Android Auto' and 'MirrorLink'<sup>™</sup> allowing 'mirroring' of a smartphone display on the infotainment touch-screen via USB connection. Display and operation of certified apps including audio and voice control (if supported by the app). Usage of certified apps only while driving. Only operable in conjunction with compatible smartphones including iPhone 5 and 6.

Depending on which smartphone you have, you can connect **'App-Connect'** via one of three interfaces: Apple 'CarPlay', Google 'Android Auto' or 'MirrorLink'<sup>™</sup>, allowing your smartphone display to be 'mirrored' on the infotainment touch-screen via USB connection<sup>3</sup> and giving access to your favourite smartphone functions, such as music and phone. Standard on all models.

<sup>1</sup> Devices must be Bluetooth HFP (Hands Free Profile) compatible, please contact your authorised Volkswagen retailer for specific device compatibility.

<sup>2</sup> Standard only on 4MOTION Highline.

<sup>3</sup> Only operable in conjunction with compatible smartphones including iPhone 5 and 6.

---

# As versatile as life demands it to be.

Business, pleasure, family or adventure, whatever your reason for travelling and whatever you need to load up, whether it's shopping, kids, leisure equipment or otherwise, your new Tiguan is well prepared. The flexible interior can be adapted to meet your personal requirements, such as extending the boot space with the variable boot floor, which along with the lower load sill, helps make loading and unloading bulky objects easier, while the optional keyless entry/keyless start also allows you to open the electrically-operated tailgate from the driver's door. Keyless entry standard on 2WD Highline models onwards. Optional on 2WD Comfortline.

**01** From front to rear, everything in the new Tiguan is designed to meet your needs. The **rear seats split 40:20:40** and each side can be moved lengthways, giving you various loading options. When all but the driver's seat are folded down, there's an impressive loading capacity of up to 1,655 litres. The load area is continuously level and can be lowered or removed totally for maximum boot space, thanks to the variable boot floor.

**02** Everything about the new Tiguan is geared to providing total comfort and functionality. The **flexible seating** concept allows you to adapt the interior to suit your requirements with all seats, apart from the driver's seat, folding down. Standard on all models. Interior shown is new Tiguan 4MOTION Highline with optional 'Vienna' leather in Saffrano Orange upholstery and panoramic sunroof.

# Intelligent driving begins here.

Impressively equipped with intelligent technology and advanced driver assistant systems, the new Tiguan provides a confident, reassuring driving experience for added peace of mind.

**01 Front and rear parking sensors** assist parking manoeuvres by emitting both audible and visual signals, alerting the driver to any obstacles in the way. The closer you are to an obstacle the faster the sound frequency, while an optical parking display indicates your position in relation to obstacles on the screen of the vehicle's infotainment system. Standard on all models. Image shown is new Tiguan 4MOTION Highline TDI with optional 'Off-road exterior pack' and metallic paint.

**02 The Park Assist system** not only makes parallel parking easier, but also helps you reverse park into a space at 90 degrees to the kerb. Using ultrasonic sensors, Park Assist will detect a parking space large enough for parallel parking. Once the vehicle is in reverse, all the driver has to do is operate the accelerator and brake, and keep a lookout, while the Tiguan steers itself into its chosen space. Park Assist including parking sensors, front and rear is standard on all models.

**03** The **Head-up Display** uses technology originally developed for jet fighter pilots that reduces the need to refocus when alternating vision between the instrument dials and the exterior view ahead. Driving information, including current speed and navigational details are transparently displayed onto the retractable screen within the driver's primary field of vision, helping to reduce the amount of time that the driver's eyes are averted from the road. Standard on 4MOTION R-Line. Optional on 2WD Highline onwards.

**04** The **rear-view camera**, which forms part of the Park Assist option, displays the area behind your vehicle on the screen of the vehicle's audio system, helping you to manoeuvre into tight spaces quickly and easily. Auxiliary lines help you navigate safely into parking spaces, and thanks to the high resolution display, even small obstacles such as kerbs are visible. Standard on all models.

# Safety at your fingertips.

From its elevated driving position to the latest active and passive intelligent safety features, the new Tiguan offers reassuring levels of protection for both you and your passengers.

**01 Area view with Park Assist.** Four separate cameras, located in the rear tailgate, door mirrors and radiator grille, provide a 360-degree view around the new Tiguan, helping you to manoeuvre with confidence in any direction. The driver can select multiple views of the vehicle, from the front, rear or side, on either full or split-screen displayed on the infotainment system. Should you specify the optional Discover Navigation Pro system, you will also gain a bird's-eye view around your new Tiguan. Optional on 2WD Comfortline.

**02 Side Assist** provides assistance if you want to change lanes from speeds of 10 km/h upwards. Sensors in the rear of the vehicle monitor the traffic and should they detect any road users in your blind spot or vehicles approaching quickly from behind, the system will alert you via a warning light within the door mirror housing and an audible warning within the vehicle. When reversing, the rear traffic alert monitors the area behind and next to your vehicle, alerting you if it detects a vehicle or object, and automatically instigating an emergency stop if a collision is imminent. Standard on all models.

**03** The Front Assist monitoring system with Autonomous Emergency Braking alerts you if it detects a situation where the distance to the vehicle in front is critical, via acoustic and optical signals, as well as a gentle jolt of the brakes. The system even performs an emergency stop should the distance become critical, helping to avert potential accidents. Standard on all models.

**04 Adaptive Cruise Control (ACC)**, including Front Assist radar sensor controlled distance monitoring system, City emergency braking system, cruise control and speed limiter offers you intelligent control of your driving speed by automatically adjusting acceleration and braking. Whether around town or on the motorway, the system will adjust your speed to that of the vehicle in front, keep your specified distance, warn if you are approaching too fast and, in an emergency situation, generate enough braking force to try to reduce the severity of a collision or possibly even prevent the collision entirely. Standard on 4MOTION R-Line. Optional on other models.

**05 Lane Assist** is a camera controlled warning system that warns you if your vehicle drifts out of its lane helping to reduce the chance of an accident and helping to make long motorway journeys safer. Using a camera located in the rear-view mirror unit, it monitors the road markings and prevents unintentional lane deviations, countersteering accordingly. The system only intervenes if the indicators are not used, so if you decide to change lanes and indicate, the intelligent system recognises this and switches off. Standard on all models.

## Alloy wheels.

**01 'Tulsa'** 7J x 17 alloy wheels with 215/65 tyres and anti-theft wheel bolts.

**02 'Nizza'** 7J x 18 alloy wheels with 235/55 tyres and anti-theft wheel bolts.

**03 'Kingston'** 7J x 18 alloy wheels with 235/55 tyres and anti-theft wheel bolts.

**04 'Auckland'** 7J x 19 alloy wheels with 235/50 tyres and anti-theft wheel bolts.

**05 'Victoria'** 7J x 19 alloy wheels with 235/50 tyres and anti-theft wheel bolts.

**06 'Suzuka'** 8.5J x 20 alloy wheels with 255/40 tyres and anti-theft wheel bolts.

Models shown feature optional metallic paint.

# Tiguan Accessories.

## 01 Rubber floor mats (front and rear)

The Volkswagen Genuine all-weather rubber floor mats protect your vehicle's interior against dirt and moisture. They are designed to fit perfectly, are easy to clean and have a non-slip underside. The integrated model lettering is a particular visual highlight. The floor mats are also 100% recyclable, very sturdy and durable. The material used allows the Genuine all-weather floor mats to be considerably lighter than standard floor mats.

## 02 Flexible boot liner

The Volkswagen Genuine flexible boot liner for vehicles with variable luggage compartment floor is light, flexible and perfectly shaped to fit the contours of your vehicle. The edge provides adequate protection against moisture and dirt and goods are effectively prevented from slipping. If the flexible boot liner is not required, it can simply be rolled up so that it takes up less storage space.

## 03 Mudflaps (front and rear)

Long lasting and durable, the Volkswagen Genuine mudflaps effectively protect the underbody and bumpers against excessive dirt. They also significantly reduce the impact of dangerous road chippings and water spray.

### 01 Upper partition grille

Safety first, the sturdy Volkswagen Genuine metal partition grille separates the luggage compartment from the passenger compartment. It is quickly and easily fitted, and just as easily removed with only a few quick motions.

### 02 Support bars

The Volkswagen Genuine supporting rods are the ideal base system for all attachments. The aerodynamic aluminium profile supporting rods are City Crash Plus tested to Volkswagen's strict standards and can accommodate items such as a surf board holder, bicycle holder, ski and snowboard holder or a practical roof box. The supporting rods are delivered pre-assembled and are easy to attach to the roof rails of your Volkswagen. The supporting rods can be locked to prevent theft. A torque wrench is also included.

### 03 Bicycle holder

Keep your bike safe and secure using this easy to fit bicycle carrier. It attaches to the existing genuine load bars of your vehicle and can carry one bicycle safely and securely. The bicycle holder is City-Crash tested and lockable for extra peace of mind and what's more you can still access the boot for added convenience.

Images shown are for illustration purposes only and may not necessarily reflect NZ specification.  
Models shown features optional metallic paint.

New Tiguan 4MOTION

On illustrations, where arrows and figures are shown inside of the vehicle, the measurements are for interior dimensions. Where arrows and figures are shown outside of the vehicle, the measurements are for exterior dimensions.

# AdBlue®

All Tiguan TDI models are fitted with an advanced emissions control system, which helps your vehicle meet the latest EURO 6 exhaust gas regulations.

## How does the system work?

AdBlue®, a water/urea based additive, is stored in a tank (like diesel fuel), however, unlike fuel it is not injected into the engine, but directly into a specially modified part of the vehicle's exhaust. This begins a chemical reaction which removes the polluting oxides of nitrogen (NOx), converting them into harmless oxygen and nitrogen in a process known as Selective Catalytic Reduction, or SCR for short. SCR is only applicable to diesel engines and the more economically you drive, typically, the less AdBlue® you will use.

The size of the AdBlue® tank fitted to your car will vary depending on which Volkswagen model you have, therefore the interval between top-ups will vary. In addition, many factors such as mileage, journey type, driving style and environmental conditions can influence how much AdBlue® is consumed. A passenger car can consume approximately 1.5 litres of AdBlue® every 998km.

Model (SCR derivatives only)	Tank size (Approximately)	AdBlue® tank filler location	Estimated AdBlue® tank range:
New Tiguan	13 litres	Next to fuel filler nozzle	7,000 – 8,000 km or sooner* (initial warning at 2,400 km remaining)

\* Distances are approximate and the warning light may come on sooner depending on driving style, journey type, engine and vehicle load and environmental conditions.

## How will I know if the system needs topping-up?

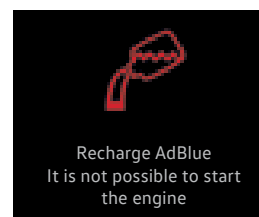

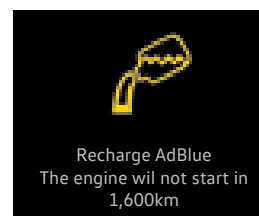

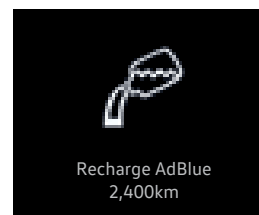

A series of warnings will be given via the driver information system, accompanied by advice/messages.

The first message is displayed when the remaining range is approximately 2,400km, and is repeated every 100km until the range reaches 1,600km, at which point the warning turns amber. This warning is repeated every 50km and is accompanied by an audible tone. If these warnings are not acted upon, the warning turns red; once this happens the car will not restart once the ignition is turned off. This is not a fault, but a required feature of the system. If this stage is reached the system will need a full top-up before the car can be restarted. Further information is available in the vehicle handbook.

## Why should I use a Volkswagen Authorised repairer for top-ups?

- AdBlue® top-ups at authorised repairers are extremely competitive and charged by the litre, so you only pay for what you need
- Authorised repairer staff are trained to handle AdBlue®
- AdBlue® tanks need special adaptors on fillers to ensure there are no spillages
- Volkswagen do not recommend keeping top-up bottles in cars

The top-up bottles supplied by Volkswagen have a capacity of 1.89 litres, and come complete with the adaptor nozzles that fit the Volkswagen AdBlue® tank. These are available from all Volkswagen Authorised repairers

AdBlue® warning lights.

## Important information

- AdBlue® is not a fuel additive. This is why there is a separate AdBlue® tank
- If you put AdBlue® in your fuel tank by mistake, please do not start the engine, but contact a retailer for help
- Put only AdBlue® in the AdBlue® tank; do not fill the AdBlue® tank with any other liquids
- Prevent anything from contaminating AdBlue®
- If small quantities of AdBlue® come into contact with the vehicle's paintwork, for example, wipe them off and if necessary rinse the area with water

---

# Volkswagen service.

Exclusions and terms and conditions apply to all warranties and plans listed. For pricing and further details of Volkswagen Warranties and Service Plans, please consult your authorised Volkswagen dealership, or visit [www.volkswagen.co.nz](http://www.volkswagen.co.nz)

## **The Volkswagen Warranty.**

### **Three-year Warranty.**

All Volkswagen passenger cars come with a three-year/unlimited kilometre mechanical warranty, which protects your car against the failure of most technical and electrical components due to manufacturing defects. Full details of the three-year warranty are available from your authorised Volkswagen dealership<sup>1</sup>.

### **Body Protection Warranty.**

The internal body sections and panels of the Tiguan are covered against rusting through from the inside for 12 years. Naturally, the vehicle must be cared for in compliance with the manufacturer's operating instructions. Please consult your authorised Volkswagen dealership for full warranty details.

### **Three-year Paintwork Warranty.**

This latest paintwork warranty, pioneered by Volkswagen, provides you with cover on a new car. Naturally, during the warranty period the car must be cared for in compliance with the manufacturer's operating instructions. Any paintwork defects, as a result of the manufacturing process, will be rectified without charge.

### **Volkswagen Roadside Assistance.**

Every new car is registered for Volkswagen Roadside Assistance for the period of the warranty. This program guarantees your mobility when you are travelling on the road. For full details, please contact your authorised Volkswagen dealership. Exclusions and terms and conditions apply.

### **Approved Accessories.**

A comprehensive range of accessories from alloy wheels to carpet mats is available to complement the factory-fitted option list. Volkswagen approved accessories purchased from and fitted by your authorised Volkswagen dealership at the point of vehicle sale will also benefit from the three-year vehicle warranty.

<sup>1</sup> All warranty work must be completed by an authorised Volkswagen dealership.

**Volkswagen Finance.**

Tailor-made packages to suit you. At Volkswagen Finance, we offer you the same peace of mind with financial matters as you experience when you decide on a Volkswagen motor vehicle. We offer flexible finance for both private and business customers that lets you drive the Volkswagen you want by making our money work for you. We offer a comprehensive range of finance products to help you fund your new or used car. This allows you to change your Volkswagen on a regular basis, which means you can keep up to speed with the latest model technology. Our range of products include;

- Credit Agreement - available for both Business and Consumer customers
- Lease - available for both Business and Consumer customers
- Operating Lease - full and non maintained options - available for both Business and Consumer customers.

**Please note:**

Some illustrations in this brochure do not necessarily reflect NZ specifications and may not be available.

The specifications contained in this brochure are for information purposes only and are subject to change.

If you require any specific feature, you must consult your authorised Volkswagen dealership who is regularly updated with any change in specification. Please check model availability and full specification details with your authorised Volkswagen dealership prior to ordering.
