[1] IMPORTANT INFORMATION ABOUT OUR DATA

Fuel consumption is determined in accordance with the ECE driving cycle (93/116/EC) made up of approximately one third urban traffic and two thirds extra-urban driving (based on the distance covered). CO₂ emissions are measured in addition to fuel consumption.

All data is presented based on a vehicle of this model with standard equipment as tested for the German market. Where those vehicles are available in a right hand drive variant, they can be specially ordered from the factory by New Zealand customers.

Figures given for unladen weight in kg is based on vehicle with standard equipment and includes a 90 per cent tank filling, 68 kg allowance for the driver and 7 kg allowance for luggage. Optional equipment may increase this figure. The performance and fuel consumption rates listed are based on the use of RON 98 fuel.

Actual figures for fuel consumption and emissions will depend on many factors including traffic conditions, driving habits, prevailing conditions and your vehicle's actual equipment, condition and use. Test figures are unlikely to be achieved in real world driving conditions and should only be used for comparing one vehicle with another.

Further information about the official fuel consumption and the official specific CO₂ emissions for new passenger vehicles can be found in the 'New Passenger Vehicle Fuel Consumption and CO₂ Emission Guidelines', which are available free of charge at all sales outlets, from Deutsche Automobil Treuhand GmbH (DAT), Hellmuth-Hirth-Str. 1, 73760 Ostfildern, Germany, or at <http://www.dat.de/en/offers/publications/guideline-for-fuel-consumption.html>.

OPTIONAL EQUIPMENT.

			M5	M5 Competition
1MD	M Carbon engine cover Made painstakingly by hand from Carbon-fibre reinforced plastic (CFRP), the M Carbon engine cover gives the M5 an individual, motorsport and high-quality look.	\$2,500	○	●
248	Steering-wheel heating	\$500	○	○
2NK	M Carbon ceramic brake An advanced motorsport derived braking system. Powerful braking performance is complimented by aesthetic appeal with perforated brake discs housed behind a unique caliper finished in matt Gold, with M lettering at the front. <small>Dependent on conditions and usage, features specific to the materials used can lead to operational noises particularly in wet conditions just before the vehicle comes to a halt. The impact of moisture and road salt can cause the braking action to be equivalent to a conventional brake system. This can for a short time be experienced as a reduction in braking action and can be balanced out by greater pressure on the pedal where necessary.</small>	\$15,000	○	○
3AC	Towbar, electrically folding The towbar with electrically adjustable tow ball is extremely easy to fold under the rear apron, where it is not visible during rides without a trailer. This feature also includes trailer stability control. The maximum trailer load is 2,000kg	\$2,400	○	○
3MB	BMW Individual Exterior Line Aluminium satinated	NCO	○	○
403	Glass roof, electrical with electrically operated headliner Not in conjunction with Carbon fibre roof	NCO	○	○

BMW ConnectedDrive.

The BMW ConnectedDrive Services & Apps are on hand to make sure you have more time for the important things in life. Various innovations by BMW make things more convenient for you every day – whenever you want.

Concierge Service is a personal telematic call service that connects you to a BMW operator, who will be able to quickly access the information you need 7 days a week, 24 hours a day.

Emergency Call is standard for every new BMW. With either the manual or the automatic emergency call, details of your vehicle and location will be sent directly to an Emergency Service Centre.

Real Time Traffic Information (RTTI) provides a precise account of current traffic in real time. The information is presented on the Navigation map using colourful visualisation of traffic status, with diversion recommendations based on the current traffic situation.

BMW Connected App.

The BMW Connected app learns your mobility routines, reads your calendar and knows when you need to leave, providing customers with a personal experience that is integrated into their everyday life. The app will allow customers to fully unleash the capabilities of BMW's innovative technologies intuitively through your smartphone.

Learned destinations

BMW Connected learns your most frequently travelled routes and provides them as 'learned destinations' for future suggestions. If destinations are repeatedly visited, they are automatically listed at the usual time.

Remote Services

Stay in touch with your BMW where ever you are. You can perform online searches powered by Google™, find your vehicle Location, lock & unlock your doors and flash the headlights or honk the horn to find your car.

Share Live Trip Status

Using the BMW Connected+ feature "Share Live Trip Status", you can let others have details of your journey, live and in real time. To do this, send a link to a selected contact, who will then be able to access a map view with your current position, destination and estimated time of arrival.
