COVID Immune Protocol

Developed by Barbara Musser, Senior Practitioner

Approved by Desda Zuckerman

This protocol is for Practitioners and Med Bag Carriers to use with clients. Please do not change the protocol or distribute it to clients.

There are many new energies in this Protocol. Call them in from your Edge until you feel them. Trust your brilliant intuitive skills. At the conclusion of the Covid Immune Protocol, dowse the frequency of repetition of the protocol required. Once done with the client, either online or in person, it may be repeated as needed on a Thought Form without the client present.

What?

Covid and all its variants are now endemic. Since 2020, millions of people have died from the virus, and many more are permanently affected in various organs and systems in their physical bodies. Covid-related depression is common.

Vaccines have been developed that may help reduce the severity of an event. Many people choose to be vaccinated and others choose not to. This protocol is not a cure or immunization against Coronavirus. It is support for the immune system as a part of the Layers System (bio layer). It may also help prevent long covid and/or lessen the severity of a covid event.

Why?

If the immune system is working at optimum function, it helps the physical body to stay in balance when viruses and pathogens are around. Apart from vaccines, the Covid Immune Protocol helps the immune system to ward off all identified variants of the coronavirus by supporting and strengthening the energetic immune system through the Layers.

How?

The Covid Immune Protocol strengthens and energizes the immune system of the bio layer. This happens by bathing every cell and molecule in the maximum beneficial energetic dose of many recognized vitamins, essential oils, homeopathic and pure source energies. This combination has helped thousands to remain covid-free.

For some medical professionals who worked in ICU environments before vaccines were developed, using Super Generators programmed to deliver the Covid Immune Protocol multiple times daily helped them to stay covid-free, even when exposed to high viral loads for extended periods of time. See separate instructions for Super Generators.

1. From the Edge, determine necessity. Physical pulse may look sluggish and feel bumpy, slightly depressed.
2. Dowse the % of effectiveness of the Layers. Anything less than 100% indicates need.
3. Visualize, coming into every cell and molecule in the physical body, the following energies:
 - a. *Quercitin (yellow with a tinge of green)* – maximum dosage for the individual
 - b. *Vitamin C (pale orange)*
 - c. *Vitamin D3 (brownish purple) and A (rust)* [bring in as two separate streams together] at maximum dosage for the individual
 - d. *Thieves Formula (a cloaking energy that is invisible)* at Tier 4
4. Make an anti-viral weave at Tier 4 of: *Atomic Iodine (black with gold sparkles)*, *Colloidal Silver (shiny silver)* and *Red Algae (red with brownish-green mottles)*
5. Pure Source Energies on at a time (not a weave or blend) at Tier 4:
