

Sacred Anatomy Energy Medicine Bag Your Practice Clients

Each class you will learn several pieces that you will want to practice. The Practice Client is your opportunity to do just that. I urge you to set up 3 Practice Clients as soon as possible who will get free sessions and support your learning process. These will be free sessions 1 each month of the class until you are certified when you can begin to charge for the work. The average length of a student session is about 1.5 hours.

The Specifics:

- For SAEMB you will need a total of 3 clients for the course- one for each month of the class.
- Each client will need to fill in 3 forms. They are: Intake and Permission Form before the session and a Feedback form after the session.
- You will submit a single Session Report for me to read and to track your sessions with your client. Please combine all sessions together on one form.
- You will submit all of these forms at the same time monthly- due date is the last Friday of the month. January 28, February 25 and March 25. (last class , March 30 will have no assignments afterward)
- More details about how to turn the reports in will be given to you at the first class.
- We suggest you do at least 2 Practice Sessions per month with your client (you can do more if you like but there will be too much to do for only one session) .
- There will be only 1 Session Report for the month so all sessions within the month will be recorded on a single Session Report Form and will all be with the same person. The form expands on the computer.

Your Buddy Sessions

- Each month you will choose a new buddy in class and do a trade with them practicing all the new pieces they need to receive.
- Permission is assumed by their presence in the class so that form will not be necessary. Intake, Session Report, and Buddy Feedback is all you will need.
- You will be given a class list and time to contact potential buddies when class begins.
- Reports due by end of month with the Practice Client Session Reports.
