**TO DO: SEND Susie PDF OF GR AND PP!**

### Follow Up:

Susie is still holding at 100% effectiveness. She received the GR and PP document I sent. I answered her questions and I led her through GR and PP again. She felt more confident

### Comments about Follow Up:

Susie was concerned she was not doing Golden Rain right, so was happy to have me go over it again with her.

It was the first time I did this piece and I learned to be very patient with the client as they learned how to do the daily self care of GR & PP. I encouraged her to call me if she had any more questions over time about this practice.
