

## Clearing the Human Microbiome EM Field (HMBEMF)

### NEW ANATOMY: Human Microbiome EMF- in the Template

#### **What?**

The Human Microbiome Electromagnetic Field is held within the Template of the Sacred Anatomy. It radiates out of the physical body and exists by creating a field that extends beyond the containing membrane of the HEMF. It is most related to the subtle nervous system and lives in the Sacred Anatomy much like the microbiome does within the physical gut in a parallel manner. Microbiome EMF under and outside of the HEMF inside of the Template.

The colors and feel of the HMBEMF are completely different than the brightly colored and individualized HEMF or the Aura appears. It took me a long time to understand the foggy shapes and shifting colors I saw in the Template were actually related to the miniscule physical body inhabitants, the microbiome, which lives as a whole complex system while it thrives, and reproduces within the bio layer. The gut bacteria is critical to the health of the entire digestive system but there is much more than that. 80% of the DNA that makes up human beings is NOT human but instead, part of the massive microbiome that lives within and off of the human body.

The EM Field of the Microbiome is an extension of the physical body and is dependent on for life. There is a treasure trove of information available to us in the Microbiome. We have just started to scratch the surface of what it is and what it means to human health and well-being.

#### **Why?**

We all know about taking probiotics and how important a balanced gut flora is for good health but the extensive human microbiome is bigger than that and the health of the biological body can be increased or understood by studying the field of the HEM Microbiome.

## How?

Keeping the Human Microbiome Electromagnetic Field healthy can be helped with clearing. It can be supported with simple energy clearing. This gives this additional part, this extra human part of the Human Energy Structure the dignity and weight it deserves.

Because this Field is made of electromagnetic energy and as a result is related although not of the HEMF the entire thing is reflective. It is like the HEMF and there are 4 reflective layers within the HMBEMF, r-organs, r-structural, r-systems and r-point of transmutation. They are related to the layers that the Template overlays: the cognitive and the strata of the cognitive layer define the 4 r-layers of the HMBEMF.

Sacred Anatomy Energy Medicine

## Clearing the Human Microbiome Electromagnetic Field

**Symptoms:** Reoccurring gut issues like colitis, irritable bowel disease, digestive difficulties, reflux and even allergy sufferers may benefit from this clearing. It can also be done once a year as a maintenance self-care piece.

1. With permission, applying your Edge, determine the need to Clearing Human Microbiome Electromagnetic Field (HMBEMF)
2. Place a vent into the inner-most r-layer, the r-organs and run the vent through the entire HMBEMF, continuing through the Sacred Anatomy spiritual, etheric and soul layers and into the universal.

3. Begin by clearing the first of the 4 layers. The r-organs bringing *ULL* underneath the releasing vent.
4. Continue venting through the other 3 r-layers- r-structural, r-systems and r-point of transmutation.
5. Like the HEMF bring in: *ULL, Integration, and Blending* to prepare the containing membrane of the HMBEMF to hold rejuvenation.
6. Fill the entire Field with *Human Microbiome Electromagnetic Radiance (sparkly and bluish)*
7. Strengthen the HMBEMF Containing Membrane by surrounding it with the *The Healing Stamina of Archangel Raphael (blue)*
8. When the HMBEMF is 100% full and the containing membrane is strengthened, fill the vent with *ULL* and close it.
9. Bring in *Harmonizing the HEMF* and *Harmonizing the Template*.
10. *IBWSIB*
