Super Star Support: Strong & Fortified Bones

1. At the Edge and with permission determine need. Check the *SLM* value which should be no higher than 75%.
2. Set a discerning field for high level work. Using any of the discernment tools.
3. Surround the client in 3 sticky boxes. This is because you are going to literally drive out the weakness and porosity and you want to capture it in the sticky box as this debris may contain toxicity or even a stray entity. This will have been a heavy load for the client and should be a relief.
4. Remove and replace the inner sticky box.
5. Bring in the *White Light of Cleansing* followed by the *White Light of Purity* and then tier 4 *ULL*. These will push any remaining debris out of the BOL and skeleton and leave it sparkling clean.
6. Restore the bones and resolve any remaining porosity by bringing in *Organ Vitality for the Skeleton* and *System Vitality for the BOL*
7. Bring in *Extragenic Integration* and *Extragenic Blending*
8. Check the *SLM* value. It should be higher than it was but not all the way up to 100%.
9. Coat the entire physical body with *Source Light* sending it into every single cell. Lighting up the Light Body and radiating the brilliance of this most powerful energy out into the space you are in.
10. Coat the entire channel with *Source Light* taking special attention with the super villi at the anterior and posterior of the channel and surrounding the exterior membrane of the channel thickly with this radiant light.
11. The channel will feel longer and thicker at this point. Now bring in *SLM* but feel it coming up and out of the *SLM* Zone within the channel. Literally coming through the sides of the zone into the structure and causing the witnessing chamber to swell in response.

12. This is a major event in the life of the zone and it will almost crackle as it releases if this is the first time you have done this procedure. This is something that should be done as needed but not too regularly. To support it at this moment bring in *ULL* to soothe and restore the zone and the witnessing chamber as an adjunct.
13. Check SLM value if it is finally at 100% bring in Subtle Light Matrix and take the SLM value over 100% to even as high as 150%. OK, I realize that's silly but that's what the HES wants! Periodically, check to see if it is at a higher percentage. When it feels complete you are!
14. *Harmonizing the Layers*, and *Harmonizing the BOL*
15. *IBWSIB*

Your client should be ready to take on the world. This is especially helpful for leaders, teachers, healers, and spiritual directors.
