

SAEM Practitioner Training Level II

Sacred Anatomy Energy Medicine Technique

Advanced Haz Mat Gear

Advanced Hazardous Materials Gear is constructed of thick layer of golden light intentionally placed around the HES of the practitioner. Advanced Haz Mat Gear is distinguished from (standard) Haz Mat Gear by the high frequency luminous blue at the outer edge of the thick golden light. All that is required to use it is to call upon it by name: *Advanced Haz Mat*.

Please do not use when not needed, doing this will lessen its power for you.

Sacred Anatomy Energy Medicine Technique

Advanced Haz Mat Gear

- 1) Coat the edge of the structure with extra thick *Advanced Haz Mat*. It is golden with a blue light at the edge.
- 2) As you become accustomed to using *Advanced Haz Mat* and develop your connection with it you can just say: "*Putting on Advanced Haz Mat.*"
- 3) The energy will come right in.
- 4) **To take it off:** Strip it off and put it in the last Sticky Box (Rebuild) as you remove it. If you are wearing *Advanced Haz Mat* without working on a client. Build a Sticky Box to place your removed *Advanced Haz Mat* in so you can release it safely.
