

Sacred Anatomy Energy Medicine Procedure

Treating Astral Deity Sepsis (ADS)

This Procedure is a powerful one. Be aware that the energies used to do this Procedure are healing as well as clearing. They are purifying and really stimulating and are not to be used in other things. The energies came in specifically for this Procedure.

1. At the Edge, with permission determine the need by checking for the ADS-number: 91. Any other number and there is no ADS. Look only for 91.
2. If you see 91- immediately put on Ultra Haz Mat – (that's extra thick golden-white Haz Mat (3 feet) with an iridescent blue edge)
3. Build 3 boxes around the client. Make sure they are thick and strong.
4. Call on *Archangel Michael, Archangel Ariel, Archangel Gabriel and Archangel Raphael*- ask them to stand in all 4 Corners- Also call upon the *Sacred Anatomy Energy Angels* to support you.
5. Call upon: *White Light of Purity*- this is a brilliant white light that is very strong. It will come in like a freight train and you may not even be able to track it with your dowsing rod it will be so strong. Check in every 20-30 seconds to see if it is done-
6. Following the *White Light of Purity* ask for *Archangel Michael's* help and lift the interior box up- give it to *Archangel Michael*.
7. Bring in- *cosmic tier – ULL--(Source Light-Super-Charged*)* into the center of the physical body with the intention of pushing anything that might remain out of the HES. When you are finished monitoring, call upon *Archangel Michael* and ask for his help lifting the 2nd box up and out.
8. Check the number- Is it still 91? If so go back to step 6.
9. Bring in *Harmonizing the Layers* and *Harmonizing the BOL*. And *IBWSIB*
10. Release your Haz Mat from step 2 into the 3rd box and before you remove the 3rd box put on new Haz Mat (if it is appropriate for you) - At last, lift it up to *Archangel Michael*.

Practitioner Supplemental

11. Release and thank your helpers, the *Archangels: Michael, Ariel, Gabriel, Raphael* and the *Sacred Anatomy Energy Angels*.

**Super-Charged* means to “bump up” the energy by adding *Source Light* (golden-shimmering) to it. This is done by simply asking for: *Source Light- Super-Charge*.
