Graduate Program in Science and Technology Sophia University

上智大学 理工学研究科理工学専攻

Preparing young talent to become next-generation scientists and engineers in global community

English-based Program started in September 2013

2013年9月にスタートした英語によるプログラム

The Green Science and Engineering Division was established in 2013. It occupies a special position among the nine divisions of the Graduate School of Science and Technology.

First of all, the entire educational program, including lectures and research guidance, is conducted in English. In addition, emphasis is given to environment- and sustainability-related studies, which are vital to the future of humankind.

To foster crossdisciplinary education, faculty members from the eight divisions (Mechanical Engineering, Electrical and Electronics Engineering, Applied Chemistry, Chemistry, Mathematics, Physics, Biological Science, and Information Science) will be involved in teaching and research guidance. At the same time, by joining the research group of the faculty member of their choice, students can receive research guidance and pursue much more advanced research work.

グリーンサイエンス・エンジニアリング領域は2013年度に開設されました。この領域は、理工学研究科の9つの領域の中でも特別な位置づけにあります。

まず、講義・論文指導を含むすべての教育が英語で受けられること、また、人類の将来を考えるうえで最重要テーマである、「環境と持続可能性」に関連する研究に重点が置かれたプログラムであるということです。

分野横断的な学びを推進するため、このプログラムでは他の8つの領域(機械工学、電気・電子工学、応用化学、化学、数学、物理学、生物科学、情報学)のすべての教員が教育・研究指導を担当します。また同時に、学生は他の8つの領域から1人の指導教員を選び、その研究グループに参加することで、より進んだ研究と論文指導を受けることができます。

Message from the Dean

Masahiro RIKUKAWA
Dean of the Graduate School of Science and Technology

Welcome to the Green Science and Engineering Division offered by the Graduate School of Science and Technology. The Faculty of Science and Technology and the Graduate School of Science and Technology were among the first to embark on globalization as an organization. In the autumn semester of 2012, the Green Science Course and the Green Engineering Course were started as part of the undergraduate programs of the Faculty of Science and Technology, and classes are conducted in English, targeting international students. In the autumn semester of 2013, the Green Science and Engineering Division was started at the Graduate School of Science and Technology, in which education ranging from classes to dissertation guidance is conducted entirely in English.

The Graduate School of Science and Technology has one interdisciplinary graduate program with several divisions. Students choose a single area of specialization so that barriers among disciplines are reduced to the lowest possible level. This is representative of "cross-disciplinary knowledge" that we aim for and the result of our efforts to integrate areas of specialization so that students may not be bound by any single area of specialization and be able to acquire professional

knowledge from a broad perspective. Sophia University has set forth its mission: "Sophia – Bringing the World Together," by acknowledging diverse ideas, promoting academic studies and research on a wide array of ideas, and respecting their mutual relationship. The Green Science and Engineering Division embodies our mission. Our educational goal is to have students from various countries and regions or ethnic groups get together to learn, grow, and assimilate themselves back into various countries, regions or ethnic groups in the future where they play a role of bringing the world together.

Why don't you study leading-edge technology in Japan, i.e., a unique technology-oriented nation, with a view to becoming a researcher or an engineer who can play an active role in the global society? At Sophia University, almost all the faculties and graduate school courses are consolidated in a single campus where students from all over the world form a small yet diverse society. We encourage you to set your sights on the future by not only gaining knowledge but also exchanging ideas with a large number of people and showing respect for each other in this small yet highly diverse global society.

Message from the Chairperson

Tadashi ADACHI
Chairperson of the Master's and Doctoral Program in Green Science and Engineering Division

Welcome to the Green Science and Engineering Division of Sophia University Graduate School of Science and Technology!

The Green Science and Engineering Division, which was newly established at the Graduate School of Science and Technology in autumn 2013, aims to develop human resources who are capable of addressing global environmental issues towards the realization of a sustainable society. As one of the features of the Division, faculty members of the all divisions of the Graduate School of Science and Technology engage in teaching, thereby fostering cross-disciplinary education. Students can choose their thesis adviser on the basis of their field of interest, and work at their adviser's laboratory where they can receive research as well as thesis guidance.

Ever since its establishment, Sophia University has been known for its global educational environment. Academic discussions and research papers have been presented in English, the common language in the field of science. Located in the heart of Tokyo, Sophia University offers a wealth of opportunities for students to familiarize themselves with Japanese history and experience modern culture.

Let's realize together an abundant research experience founded on cooperation as well as friendly competition between faculty members and students and among students themselves, by making the most of their diversity. From Sophia University, let's take off into the world and seek solutions to complex problems, including global environmental issues that would not be resolvable without a global perspective.

Graduate School of Science and Technology

<http://www.st.sophia.ac.jp/english/graduate-studies/index.html>

The Graduate School of Science and Technology has one interdisciplinary graduate program with nine divisions.

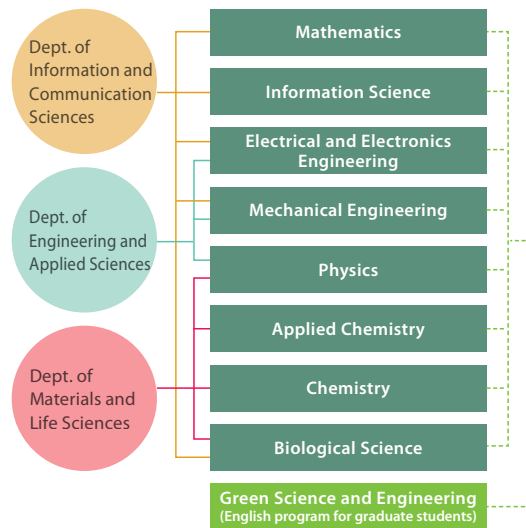

The interdisciplinary graduate program aims to be both specialized, to bring to light new scientific information and technological developments in all the academic divisions, and interdisciplinary, to foster a common regard for the effects of such developments on humankind, the society, and the global environment.

The first stage of the program is designed to maintain consistency with undergraduate instruction by combining crossdisciplinary knowledge and specialty with the objective of cultivating highly educated individuals who can contribute to the well-being of humankind and the society. The second stage of the program aims to produce researchers who can execute independent research in one or more academic fields.

理工学研究科は学際的な協力も活発な1専攻9領域です。

現代科学・技術の各学問領域でその進歩に寄与する専門性と、人間社会や地球環境に与える影響を総合的にとらえる学際性をもつ研究科を目指しています。

前期課程では学部教育との一貫性に配慮しながら、複合知と専門性を兼ね備え、人間社会に貢献できる知的人材を育成します。後期課程では各専門分野で自立して研究を遂行できる研究者の養成を目的としています。

Course List

科目の一覧

Compulsory Elective Subjects for Master's Program 選択必修科目(博士前期課程)

Course Title	Cr.	Course Title	Cr.
Master's Thesis Tutorial and Exercise 1A 大学院演習 I A	1	Master's Thesis Tutorial and Exercise 2A 大学院演習 II A	1
Master's Thesis Tutorial and Exercise 1B 大学院演習 I B	1	Master's Thesis Tutorial and Exercise 2B 大学院演習 II B	1

Elective Subjects for Master's Program 選択科目(博士前期課程)

Course Title	Cr.	Course Title	Cr.
Green Science and Engineering 1 グリーンサイエンス・エンジニアリング I	2	Differential Equations for Natural Phenomena 自然現象のための微分方程式	2
Green Science and Engineering 2 グリーンサイエンス・エンジニアリング II	2	Statistical Data Analysis 統計的データ解析	2
Green Science and Engineering 3 グリーンサイエンス・エンジニアリング III	2	Environmental Atomic and Molecular Physics 環境原子分子物理学	2
Green Science and Engineering 4 グリーンサイエンス・エンジニアリング IV	2	Introduction to Superconductivity 超伝導入門	2
Artificial Intelligence 人工知能	2	Environmental Basic Biology 環境基礎生物学	2
Advanced Mechanical Engineering 1 アドバンスドメカニカルエンジニアリング 1	2	Environmental Life Science 環境生命科学	2
Advanced Mechanical Engineering 2 アドバンスドメカニカルエンジニアリング 2	2	Computer Science コンピュータサイエンス	2
Advanced Electrical and Electronics Engineering 1 電気・電子工学特論 1	2	Applied Computer Science 応用コンピュータサイエンス	2
Advanced Electrical and Electronics Engineering 2 電気・電子工学特論 2	2	Seminar in Green Science and Engineering 1A グリーンサイエンス・エンジニアリングゼミナール I A	2
Environmental Chemistry 環境化学	2	Seminar in Green Science and Engineering 1B グリーンサイエンス・エンジニアリングゼミナール I B	2
Advanced Materials 先端材料	2	Seminar in Green Science and Engineering 2A グリーンサイエンス・エンジニアリングゼミナール II A	2
Computational Chemistry 計算化学	2	Seminar in Green Science and Engineering 2B グリーンサイエンス・エンジニアリングゼミナール II B	2
Supramolecular Analytical Chemistry 超分子化学	2		

Compulsory Subjects for Doctoral Program 必修科目(博士後期課程)

Course Title	Cr.	Course Title	Cr.
Doctoral Dissertation Tutorial and Exercise 3A 大学院演習 III A	1	Doctoral Dissertation Tutorial and Exercise 4B 大学院演習 IV B	1
Doctoral Dissertation Tutorial and Exercise 3B 大学院演習 III B	1	Doctoral Dissertation Tutorial and Exercise 5A 大学院演習 V A	1

Research Topics

教員の主な研究テーマ

The thesis research supervisor can be chosen from among faculty members of the Graduate Program in Science and Technology.

Information about the disciplinary specialties and research interests of faculty members are available on the Graduate Program in Science and Technology website:

<http://www.st.sophia.ac.jp/english/>

指導教員は、理工学研究科のほぼすべての教員の中から選ぶことができます。それぞれの教員の学問・研究の専門分野に関する情報は、理工学研究科のウェブサイトを参照してください。

Policy

Admission Policy (AP)

Green Science and Engineering (Master's program) グリーンサイエンス・エンジニアリング領域(博士前期)におけるアドミッション・ポリシー

Outline 前文	The Green Science and Engineering Division (Master's Program) seeks students with the following qualities: 本領域は、次のような資質を持つ学生を求めています。
1	Students who have studied the field of Global Environmental Science and Engineering and are motivated to perform research. 地球環境科学、工学分野で勉学を行い、研究を遂行することに意欲的である学生
2	Students who possess the standard academic skills associated with Science and Engineering in general that are required to study Global Environmental Science and Engineering and pursue research in the field. 地球環境科学、工学分野で勉学を行い、研究を遂行するために必要な科学、工学全般に関する基礎学力を有している学生

Green Science and Engineering (Doctoral program) グリーンサイエンス・エンジニアリング領域(博士後期)におけるアドミッション・ポリシー

Outline 前文	The Green Science and Engineering Division (Doctoral Program) seeks students with the following qualities: 本領域は、次のような資質を持つ学生を求めています。
1	Students who are motivated to independently pursue creative research and development in the field of Global Environmental Science and Technology. 地球環境科学、工学分野にて、自立して創造的な研究開発を遂行することに意欲的である学生
2	Students with the expertise and English skills required to independently pursue creative research and development in the field of Environmental Science and Technology. 地球環境科学、工学分野にて、自立して創造的な研究開発を遂行するために必要な専門知識と英語力を有している学生

Curriculum Policy (CP)

Green Science and Engineering (Master's program) グリーンサイエンス・エンジニアリング領域(博士前期)におけるカリキュラム・ポリシー

Outline 前文	The Green Science and Engineering Division (Master's Program) seeks to cultivate the ability to contribute to the further development of global environmental sciences, engineering and associated disciplines, as well as to the development of human society and global environment conservation, by having students take courses in Green Science and Engineering and other divisions and receive research guidance. 地球環境科学、工学および関連分野の発展に寄与し、人間社会の発展や地球環境の保全に貢献できる力を涵養するため、グリーンサイエンス・エンジニアリング領域や他領域の科目を受講し、研究指導を受けさせる。
1	Students will take courses in divisions other than Green Science and Engineering as well as general science and engineering courses to acquire broad knowledge of disciplines other than their disciplinary specialty. グリーンサイエンス・エンジニアリング領域以外の領域、および理工共通領域の科目を受講することにより、自分の専門領域以外の分野について広く知識を得させる。
2	Students will take courses offered by the Green Science and Engineering Divisions to acquire expertise in these disciplines. Furthermore, they will conduct research on a specific theme; and therefore acquire profound professional knowledge of their theme in a broad context and learn about research procedures, organization and ethics. グリーンサイエンス・エンジニアリング領域が提供する科目を受講し、これらについて専門知識を得させる。また、特定のテーマについて研究を行い、このテーマと周辺について深い専門知識を得るとともに、研究の進め方、まとめ方、研究倫理などを学ばせる。
3	All courses will be offered in English and students will improve their scientific English proficiency through presentation of their research and submission to academic journals. 受講する授業はすべて英語で行われ、研究成果の発表、論文の執筆などにより、科学における英語力を向上させる。

Green Science and Engineering (Doctoral program) グリーンサイエンス・エンジニアリング領域(博士後期)におけるカリキュラム・ポリシー

Outline 前文	The Green Science and Engineering Division (Doctoral Program) seeks to cultivate the ability to conduct research independently based on high expertise in global environmental sciences and engineering and broad knowledge of associated disciplines, by having students take Seminars and receive research guidance. 地球環境科学、工学における高度な専門性と関連分野の広範な知識を有し、自立して研究開発を遂行できる力を涵養するため、演習を受講し研究指導を受けさせる。
1	Students will read academic papers and commentaries in interdisciplinary fields other than global environmental science and engineering to acquire broad knowledge of these disciplines. 地球環境科学、工学分野以外の学際分野などの学術論文や解説書などを精読することにより、これらの分野について広く知識を得させる。
2	Students will conduct intensive research supported by research guidance provided by faculty; and therefore acquire profound professional knowledge of their theme in a broad context, learn about research procedures, organization and ethics, and submit their dissertation as a culmination of their research. 地球環境科学、工学分野において教員の研究指導を受けながら集中して研究を遂行し、このテーマと周辺について深い専門知識を得るとともに、研究の進め方、まとめ方、研究倫理などを学び、研究の集大成として博士論文を提出させる。
3	Students will present their research outcomes in Japan and overseas in English, compile and submit academic papers in English, and conduct research at overseas institutions as required; and therefore, they will actively improve their communication skills. 得られた研究成果を国内外にて英語で発表し、また英語論文を執筆投稿し、必要に応じて海外の研究機関にて研究を行い、これによりコミュニケーションスキルを積極的に向上させる。

Diploma Policy (DP)

Green Science and Engineering (Master's program) グリーンサイエンス・エンジニアリング領域(博士前期)におけるディプロマ・ポリシー

Outline	Green Science and Engineering Division (Master's Program) aims to foster human resources who can contribute to the further development of Global Environmental Sciences, Engineering and associated disciplines and use their expertise to contribute to the development of human society and global environmental conservation. With a view to this aim, the program sets standards for the skills and knowledge students should acquire before graduation as described below. Those who have fulfilled the requirements and have passed the thesis defense will be awarded a diploma.
前文	本領域では、地球環境科学、工学および関連分野の発展に寄与し、専門知識を用いて人間社会の発展や地球環境の保全に貢献できる人材の養成を目的に、学生が修了時に身につけるべき能力や知識を次のように定めています。修了要件を満たし論文審査に合格すれば、これらを身につけた者と認め、学位を授与します。
1	The ability to multidimensionally identify how technology can impact human society and the global environment, acquired by studying a wide range of disciplines, including natural science disciplines beyond one's disciplinary specialty or interdisciplinary fields covering the social sciences. 自分の専門分野以外の自然科学分野あるいは社会科学分野との学際分野も含め広範に学ぶことにより、技術が人間社会や地球環境に与える影響などを多面的にとらえる力
2	Acquisition of expertise that will lead to leadership in cutting-edge research and development in Global Environmental Sciences, Engineering and associated disciplines, and the ability to develop new technologies and explore new fields. 地球環境科学、工学および関連分野において最先端で活躍できる専門知識を身につけるとともに、新技術の開発や新分野の開拓のできる力
3	In order to accommodate globalization, a level of English proficiency that enables high social performance as well as the ability to understand connections with local communities and society. グローバル化の進展に対応するため、社会で活躍できるレベルの英語力と地域及び社会とのつながりを理解する能力

Green Science and Engineering (Doctoral program) グリーンサイエンス・エンジニアリング領域(博士後期)におけるディプロマ・ポリシー

Outline	The Green Science and Engineering Division (Doctoral Program) aims to foster human resources who have acquired high expertise in Global Environmental Sciences and Engineering as well as interdisciplinary abilities that enables the identification of impacts on human society and the global environment in a comprehensive manner and who can independently carry out research and development. With a view to this aim, the program sets standards for the skills and knowledge students should acquire before graduation as described below. Those who have fulfilled the requirements and have passed the thesis defense will be awarded a diploma.
前文	本領域では、地球環境科学、工学における高度な専門性を身に付け、人間社会や地球環境に与える影響を総合的にとらえる学際性を持ち、自立して研究開発を遂行できる人材の養成を目的に、学生が修了時に身につけるべき能力や知識を次のように定めています。修了要件を満たし論文審査に合格すれば、これらを身につけた者と認め、学位を授与します。
1	The ability to multidimensionally identify how technology can affect human society and the global environment, acquired by studying not only one's disciplinary specialty, but also a wide range of disciplines, including associated interdisciplinary fields. 自分の専門分野だけでなく、関連する学際分野なども含め広範に学ぶことにより、技術が人間社会や地球環境に与える影響を多面的にとらえる力
2	The acquisition of expertise to independently lead Global Environmental Sciences, engineering and associated disciplines and the ability to engage in creative research and development that will contribute to human development and wellbeing. 地球環境科学、工学および関連分野において最先端で自立的に活躍できる専門知識を身につけるとともに、人類の発展や幸福に寄与する創造的な研究開発を行う力
3	Research capabilities and communication skills of a level capable of leading globalization and independently playing an active role in international society. グローバル化の進展の先頭に立ち、国際社会にて独立して活躍できるレベルの研究力とコミュニケーションスキル

Degrees

取得できる学位

Master of Science in Green Science and Engineering or Doctor of Philosophy in Green Science and Engineering will be awarded after completion of each program. They are all accredited by the Japanese Ministry of education, culture, sports, and technology (MEXT).

Master's Program students are required to take a total of 30 credits (Compulsory Elective 2, Elective 28).

Doctoral Program students are required to take a total of 6 Compulsory credits.

グリーンサイエンス・エンジニアリング領域を修了することにより、日本の文部科学省により認定された次の学位を取得することができます。

■ 博士前期課程 修士(理学) または 修士(工学)

■ 博士後期課程 博士(理学) または 博士(工学)

博士前期課程では、30単位(選択必修2単位、選択28単位)の修得が必要です。博士後期課程では、必修6単位の修得が必要です。

Admissions Information

Entry Semester

- Spring (April)* and Autumn (September)
- *Spring entry is only for Ph.D.

Method of Admissions

- Document screening, Interview

Autumn entry (September)

- Application period(on-line): Mid-March ~ Mid-April
- Materials Receipt Deadline: Mid-April
- Notice of Results: Mid-June

Spring entry (April) for Ph.D. only

- Application period(on-line): Late-August ~ Mid-September
- Materials Receipt Deadline: Mid-September
- Notice of Results: Mid-November

For details, please refer to the "Application Procedure:"

www.sophia.ac.jp/eng/admissions/graduate_p/english_g2/gpst

For more information

Scholarships (as of 2020)

Scholarship applications accepted at the time of admission application

- New Student Scholarship: The grant varies from one-third to the full amount of the tuition fee for the first year of study.

Other financial aid programs (Applications accepted after entrance)

- Sophia University Tuition Support Scholarships: 1/3, 1/2, full tuition support for all international degree students with "College Student" status of residence
- Japan Student Service Organization(JASSO) Scholarship
- Sophia University Benefactors' Scholarships
- Other scholarship programs offered by public or private organizations

For detailed information, please refer to :

<https://www.sophia.ac.jp/eng/studentlife/index.html>

For more information

Housing

- Sophia University has several off-campus dormitories and offers affiliated housing options.

For detailed information, please refer to :

<https://www.sophia.ac.jp/eng/studentlife/index.html>

Students entered in September 2015 and Supervisors
