

# HIGH-STARCH MEAL

## Product Specification Sheet

High-Starch Meal is a great choice to complement pasture based diets. It promotes milk production through the different stages of lactation. With low NDF and high palatability High-Starch Meal promotes increased DM intake, which increases the amount of energy available to reach and maintain high levels of productivity.

Containing a combination of different starch sources with different degradation rates inside the rumen, you can rely on High-Starch Meal to deliver prolonged energy to meet the animals' demands – regardless of the stage of lactation.

High-Starch Meal characteristics include:

- A combination of high quality starch sources with different degradation rates to provide long lasting energy
- Energy dense (13.3ME) and high digestibility
- A broad carbohydrate profile (fibre, starch and sugar) for increased microbial growth inside the rumen and improved volatile fatty acid production
- Can be feed straight or included as a component of a blend

### PRODUCT INGREDIENTS:

Made from a selection of wheat and grain products, and by-products.

TYPICAL NUTRITIONAL ANALYSIS (DDGS PLUS)	
Dry Matter	89.4%
Starch	49.8%
Energy	13.3 MJ/kg DM
NDF	17.2%
Fat	2.8%

### FEEDING RECOMMENDATION

Suitable for feeding to lactating dairy cows. Requirements will differ depending on the current diet. As a guide, if feeding High-Starch Meal, you should introduce slowly to adult dairy cows at 500g per cow per day, increasing to a maximum of 4kg per cow per day.

### STORAGE

Store in a dry area and ensure all precautions are taken to store away from bird and rodent infestation.

### IMPORTANT NOTES

Due to its high palatability and starch levels, there is a risk cows will gorge and overfeed which could lead to acute rumen acidosis. Always provide High-Starch Meal in a controlled feeding environment as part of a balanced diet.

## DECLARATION

Agrifeeds® makes the following declarations in respect of the animal feed described in this specification sheet. Each of the declarations is given on the basis of Agrifeeds® knowledge at the time of issue of this specification sheet and in reliance that third parties, who supply ingredients and provide mixing/manufacturing services to create the feed, have complied with Agrifeeds® animal feed safety requirements.

- 100% GM free.
- Does not contain ruminant protein and is suitable for feeding to lactating dairy animals.
- Has been processed in a plant dedicated to the production of plant based products only.
- Has been inspected after processing in accordance with appropriate official procedures, and found free from contamination by any unprocessed plant material, vermin, birds, fecal material/ other animal products.
- Consignments are imported in accordance with the Ministry for Primary Industries (MPI) standard for the Importation of Processed Animal Feeds of Plant Origins.
- The product in this product specification sheet meets all requirements under NZCP1 Code of Practice.
- Agrifeeds® have one up traceability with the product named in this product specification sheet.

## THIS PRODUCT DISCLAIMER RELATING TO USE MUST BE READ AND UNDERSTOOD

Whilst this product meets the quality standard for an animal feed supplement marketed in New Zealand, the farming environment in which this product is used and how this product is used is beyond the control of Agrifeeds®. The use and application of this product requires a proper level of skill and understanding of good farming practices for the feeding and care of dairy animals.

It is a condition of sale that the purchaser of this product is solely responsible either directly or by way of supervision for its proper, skilled and informed use or application in the farming environment.

Agrifeeds® and its sales agents are neither responsible nor liable for the improper or inexperienced or uninformed use or application of this product and disclaim all and any liability to the fullest extent at law for any direct or indirect, special, or consequential loss, damage, or any other claim or liability of whatsoever nature including but not limited to results obtained, animal impairment, injury or death arising out of or flowing from such improper or inexperienced or uninformed use or application of this product in the farming environment.

All statutory, regulatory and common law warranties, guarantees, duties and any other obligations of whatsoever type or nature inconsistent with the above including but not limited to those under the Sale of Goods Act and the Consumer Guarantees Act are to the necessary and fullest extent excluded.
