

KIBBLED MAIZE

Product Specification Sheet

Kibbled Maize is an energy-dense feed sourced from locally grown New Zealand maize. It provides a high starch feed that is slower to degrade in the rumen than cooked grains. It is an ideal product to blend with Palm Kernel Expeller and other safe feeds to provide a balanced, energy-dense feed option post-calving.

PRODUCT INGREDIENTS: 100% Kibbled Maize

TYPICAL NUTRITIONAL ANALYSIS

Dry Matter	88-89%
Crude Protein	8-10%
Energy (ME)	13.6 MJ/kg DM
Starch	72%
NDF *	10%

FEEDING RECOMMENDATION

Requirements will differ depending on current diet. It is recommended you feed 0.5kg-2kg/cow/day and use as part of a blended ration to increase starch and energy levels of the feed.

IMPORTANT NOTE

It is not recommended to feed Kibbled Maize constantly unless it is mixed 70% PKE/30% Kibbled Maize or lower. Due to high starch levels there is a risk cows could gorge and overfeed, leading to acute rumen acidosis.

STORAGE

Store in a dry area, away from bird and rodent infestation.

DISTRIBUTOR

Agrifeeds™, PO Box 627, Hamilton 3240,
Level 1, 18 Rostrevor Street, Hamilton 3204

*NDF = Neutral Detergent Fibre, as % of concentrate diet.
