Accommodation

There are several accommodation options to choose in Hobart. The price of accommodation may vary according to the type of accommodation.

Accommodation choices may range from short term arrangements such as hotels, motels, backpackers to shared options such as granny flats, studio apartments, student accommodations etc.

Homestay

Homestay is another go-to option for student accommodation because it helps students settle in a new environment before learning to live by themselves. Homestay provides students an opportunity to live with an Australian family and learn the culture. Students are provided with meals and other amenities to make their stay very comfortable. This arrangement is mandatory for U18 students who will not be travelling with a legal guardian or family member. If you are interested in a Homestay arrangement, please contact student support.

Student Accommodation

This accommodation arrangement offers various styles and configurations such as studio (single) and shared apartments for four to six people. These apartments could be same sex or mixed.

Rental

Most rental properties require a bond and is usually equivalent to the amount of four weeks' rent. If you have a limited budget, you may consider sharing a house or apartment with several friends or looking for share house accommodation. This allows you to split the costs among several people. Some places may ask you to sign a lease committing to six months or 12 months, while others may be more flexible.

If you leave early in your lease term, (called breaking lease) your landlord or agent may seek compensation. Another thing to consider is location. It is important to think whether your accommodation is close to shops and restaurants, and how long it takes to travel to your campus and work. Consider living close to your campus, otherwise look into public transport options.

Tenants' Union of Tasmania

Know your rights as a renter in Tasmania. Tenants' Union of Tasmania have an interpreting service and fact sheets translated into many different languages. If you need any advice on renting in Tasmania, the Tenants' Union of Tasmania can give you advice.

Electricity:

You may need an adapter in order to plug your appliances into the power sockets. The adapter required for Australia is Type 1 Australia plug. The plugs in Australia have two flat metal pins, forming an inverted 'V' shape and occasionally a third pin in the centre. The electrical current in Australia is 220 - 240 volts, AC 50Hz.

Finance

Banking

There are many banks and automatic teller machines (ATMs) where you can withdraw money from an overseas bank account. You can easily open a bank account in Australia. All you will need is your passport, eCoE and Visa.

Budgeting for expenses in Hobart

Living away from home can pose a great strain on any student financially. Budgeting effectively can help you to stay on top of your spending and help you manage your expenses, subsequently allowing you to have some savings.

- When travelling in trains at night, avoid travelling in empty carriages

Sun Smart

The sun in Australia is very strong and can cause sun damage or skin cancer. Australia has one of the highest rates of skin cancer in the world. To avoid sunburn and lower the risk of developing skin cancer, it is important that you follow these simple precautions:

Protect your skin

For best protection, we recommend a combination of sun protection measures:

SLIP, SLOP, SLAP

- **Slip** on some sun-protective clothing that covers as much skin as possible
- **Slop** on broad spectrum, water resistant SPF30+ (or higher) sunscreen. Put it on 20 minutes before you go outdoors and every two hours afterwards. Sunscreen should never be used to extend the time you spend in the sun
- **Slap** on a hat - broad brim or legionnaire style to protect your face, head, neck and ears
- Seek shade
- Slide on some sunglasses - make sure they meet Australian Standards

For more information, visit: www.sunsmart.com.au/

Obeying the Law

The law in Australia is intended for all Australians and visitors, which includes international students as well. Obeying the law will ensure you avoid breaching your visa conditions. Disobeying the law, in some cases could land you in jail or get you deported from the country. One prevalent law in Australia covers the topic of discrimination which is greatly frowned upon.

Every individual living in Australia must learn to respect others and not act with prejudice in relation to gender, nationality, religious beliefs disability, marital status and sexual preference.

Religion

Hobart is a multicultural city where you can find churches, temples, mosques and religious centres. Google to find one close to you! Worship centres sometimes provide free English lessons and fun activities for international students as well.

Marriage and Domestic Violence

Under Australian law, men and women have equal rights and may choose to enter into marriage. An individual can be legally married at the age of 18. Marriage to more than one person is against the law and could be punishable by jail time.

Violence against another person is illegal in Australia. This includes physical abuse, sexual abuse, assault, social abuse, economic abuse, physiological, emotional and verbal abuse. All forms of violence are punishable by jail sentence or deportation.

Competency Based Training

Competency Based Training (CBT) is an approach to teaching that focuses on allowing a student to demonstrate their ability to do something. Used in the VET sector, CBT is used to develop concrete skills and is typically based on a standard of performance expected in the workplace and industry.

CBT programs deliver qualifications that are made up of Units of Competency. Each unit defines the skills and knowledge required to effectively perform in the workplace. Assessment is based upon the learning outcomes expected from each Unit of Competency.

Assessment

Assessment is specifically conducted to determine if a student can deliver essential outcomes related to the performance criteria within each Unit of Competency. Basically, this means assessment is conducted to see whether or not a student has the required skills and knowledge to perform effectively in the workplace. If a student's performance in the assessment does not demonstrate the requirements, the student is marked as 'Not Competent', while successful performance will result in the student being deemed 'Competent'. Assessors will look for evidence against which to base their judgements of competency.

The ways to demonstrate to our qualified assessors that you can perform to the required standard and be classed as "Competent" or "Meeting Requirements", include:

- Being observed as you work/perform the tasks and activities
- Responses to verbal questioning
- Written response to theory questions
- Responding to a role play or case study

Submitting Assessment

You are expected to complete assessment for all units in your qualification. You will need to submit assessment by the due date for a result to be recorded. You will receive full and detailed instructions on the requirements for each assessment, including its context and purpose; ensure you talk to your trainer and/or assessor to clarify anything that is not clear to you.

Assessment Feedback

You will receive feedback regarding the outcome of each of your assessment items. To be deemed “Competent” against a nationally accredited unit, you must meet the requirements for all elements that comprise that unit.

Plagiarism

All work that you submit must be your own. You will have signed a declaration at the start of each assessment that this will be the case. Plagiarism is taking someone else's work and/or ideas and passing them off as your own. It is a form of cheating and is taken seriously by AIBT/AIBT-I. To help you understand, the following are examples that constitute plagiarism:

- Copying sections of text and not acknowledging where the information has come from
- Mashing together multiple 'cut and paste' sections, without properly referencing them, to form an assessment response
- Presenting work that was done as part of a group as your own
- Using information (pictures, text, designs, ideas etc.) and not citing the original author(s)
- Unintentionally failing to cite where information has come from

Referencing

When it comes to properly acknowledging where information has come from, students should be aware of, and be able to properly use, referencing protocols.

Training and Assessment Strategies

AIBTGlobal staff are appropriately qualified and have sufficient, relevant industry experience to train and assess the courses delivered. On occasion, a subject specialist may conduct assessment in conjunction with a fully qualified assessor. You will be advised of specific instances in your course whereby this may be the case.

Our methodologies regarding training and assessment work toward ensuring our processes meet national assessment principles including Recognition of Prior Learning (RPL), and Credit Transfer (CT).

Third Party Arrangements

Please refer to our website for all Third Party Arrangements:
<https://aibtglobal.edu.au/support/third-party-arrangements>

Issuing Certificates

Upon successful completion of your coursework and provided all fees are paid, a Certificate or Statement of Attainment will be issued to you within 30 calendar days of you being assessed as meeting all requirements for the course. This meets the compliance requirements under the Standards for RTOs 2015.

If for some reason AIBT/AIBT-I ceases to operate whilst you are still enrolled, a Statement of Attainment will be issued to you for the units within the qualification for which you have successfully met requirements.

- Notify AIBTGlobal Hobart within seven days of any change to your contact details, including home address, mobile number and email address
- Must not work more than 40 hours per fortnight during course semester but can work for unlimited hours during holidays
