SAFRAN LANDING SYSTEMS (formerly MESSIER-DOWTY)	PCS-2621
SAFRAN	Pr-1500

SOCOCLEAN A3433 does not contain nitrite (toxic), nor soda, nor potash (corrosive), nor solvent (flammable).

- This is an economical degreaser, usable at a low temperature (40 to 80°C / 104 to 176° F), at very low concentrations (3 to 10 % on average). It offers protection for pieces in sheltered storage without requiring any rinsing.
- SOCOCLEAN A3433 is biodegradable, immediately miscible in water and contains surfactants necessary for optimum degreasing.
- Easy to use, low foaming.
- The salting-out power of the oils makes the maintenance of machine tanks easy.

USES

- SOCOCLEAN A3433 is used to degrease all metals - especially dichromate cadmium plated steels or alloys with chromate conversion - by spraying.
- The product is especially suited to the cleaning of chromated cadmium-plated steels, or when a chromic anodisation such as Alodine has been applied.

DIRECTIONS FOR USE

The concentration used depends on the degree of soiling and the greases to be removed from the parts. Typical values in most cases are: temperature 45 to 50°C (113 to 122°F), concentration 5 %, contact time 5 to 20 minutes.

TECHNICAL CHARACTERISTICS

Odour	low
Specific gravity	(at 20°C/68°F) 1
pH	neutral
Flash point	(ISO 2719) none
Appearance	clear liquid
