USES

- **Fast and efficient removal of all types of graffiti (inks, varnishes, paints)** for maintenance and cleaning companies or departments in charge of repairing buildings, urban equipment, underground stations as well as all types of road and railway vehicles (subway or train coaches).
- In addition to graffiti, this product is very efficient for removing stickers and adhesive residues. It is suitable for overhanging surfaces (ceilings) without risk of dripping.
- **SOCOSTRIP T4212 SATWIPES** is used without mixing or dilution, at room temperature. Apply regularly by wiping in crossed layers at right angles, precisely marking the area covered by graffiti. With presaturated wipes, apply once; if the graffiti is not eliminated, leave the product to act for 5 minutes and wipe again with the rag or the wipe. Finally, if necessary wipe with a dry rag or wipe.
- Some paints or plastic materials may be sometimes embrittled, we advise to carry out a compatibility trial of **SOCOSTRIP T4212 SATWIPES** with painted substrates or materials such as thermoformable.

The system of pre-saturated wipes provides **economical, environmental and safety advantages for users** compared to the method of using loose solvent with cloths. It helps to:

- Standardise cleaning and preparation operations,
- Improve quality and production line performance,
- Lower the quantity of product used,
- Reduce waste: for the same surface, the volume of wipes used is 5 to 10 times less than the volume of traditional cloths,
- Reduce VOCs (Volatile Organic Compounds) by 65% to 100% as targeted by the European Legislation,
- Improve users' safety:
 - Drastically reduces the quantity of solvent released in the atmosphere,
 - No risk of accidental spillage of drums full of flammable liquids (fire hazard),
 - Pre-saturated wipes are easy to use, handle and store compared to cloths and solvent drums.
