WOLF-7 PRO

NIGHT VISION GOGGLES

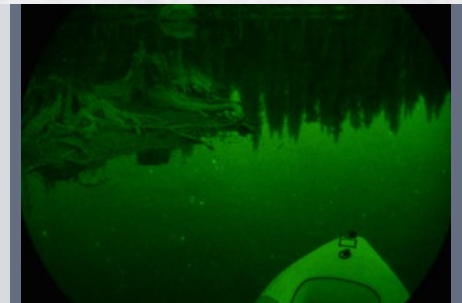

The AGM Wolf-7 PRO is a bi-ocular Night Vision goggle system built around commercial grade image intensifier tubes especially to provide decent night vision options for budget minded hunters and other outdoor enthusiasts. They are an exceptional choice for hands-free use. Built with high-grade optics and simple, reliable electronics, the Wolf-7 PRO provides bright and clear night vision images, even in the most trying conditions whether it is boat ride along the coast or nearest cave exploration with your kids. Adjustable interpupillary distance will offer comfortable night vision experience to user of any age and literary any size user This unit includes a built-in IR light source for reading maps or basic, short-range illumination in complete darkness.

The AGM Wolf-7 PRO is available with a variety of accessories such as 3X, 5X, 8X magnification lenses for long-range viewing, head mount for hands-free operation, and additional, high-powered IR illuminators for long-range use. Having additional 3X, 5X, 8X lenses will help you to build personalized night vision bino for every specific occasion you will have.

Waterproof, rugged, light, and compact, the Wolf-7 PRO is the perfect hands-free unit for a variety of outdoor activities with your family. Show the beauty of the night to your kids!
