TRPO

ABA

ATA

TCLA

TRE-Z / TRE-PV

TTPAD / TTP

CHARACTERISTICS

- Zinc plated, zinc yellow passivated and stainless steel.
- Self drilling versions, inviolate, with hole for cup, different heads and slots: assembling flexibility.

APPLICATIONS

- Use in all type of assemblies of wood carpentry.
- Applications: union of metallic wood connectors to wood, woods assembly, iron reinforcements to wood....

BASE MATERIAL

1. SELECTION CHART

SCREW	HEAD	TIP	THREAD	SLOT	CERTIFICATE	SURFACE TREATMENT	APPLICATION
TPPO		Countersunk 90°	S	Wood 40°	Pz		Zinc plated yellow passivated Fixing metallic connectors on wood Wood to wood fixings
TPPOZ		Countersunk 90°	S	Wood 40°	Pz		Zinc plated Fixing metallic connectors on wood Wood to wood fixings
TPTO		Countersunk 90°	S	Wood 40°	Tx		Zinc plated yellow passivated Fixing metallic connectors on wood Wood to wood fixings
TPA2		Countersunk 90°	S	Wood 40°	Pz	---	Stainless steel A2 Fixing metallic connectors on wood Wood to wood fixings
TPBR		Countersunk 90°	Drill	Wood 40°	Pz	---	Zinc plated Hard surface wood. Hard wood
TRPO		Round	S	Wood 40°	Pz	---	Zinc plated yellow passivated Fixing handles, power dopbit, shields, etc.
ABA		Countersunk	Drill	Metal 60°	Ph	---	Zinc plated Fixing wood >12 mm to a metallic profile
ATA		Countersunk	Drill	Metal 60°	Tx	---	Zinc plated Fixing wood >12 mm to a metallic profile
TCLA		Pan	Nail	Self tapping	Ph + ranura	---	Zinc plated Venetian-blind fastening
TREZ/ TREPv		Pan	Straight	Wood 40°	Allen	---	Zinc plated / Black oxidation Chipboard fixings
FS		Countersunk 90°	Drill	Metal 60°	---	---	Zinc plated Fixing metal plates to wood

** 75 mm thread length from TPPO60120

- Zinc plated yellow passivated.
- 90° countersunk head, 40° wood thread, Pz recess.
- S tip allows wood straight drill.
- Applications:
 - Fixing metallic drilled connectors on wood.
 - Fixing metallic drilled reinforcements on wood.
 - Fixing hard wood on wood.

2.2 TP-TO

Chipboard screw 90° countersunk head, thread 40°

Characteristics

Steel

Zinc plated yellow passivated

Properties

Hexalobular Tx

CE Marked

Countersunk head

S tip, pin

Installation Data

PLANO

* 72 mm thread length for TPTO50120
 ** 72 mm thread length from TPTO60110

- Zinc plated yellow passivated.
- 90° countersunk head, 40° wood thread, S tip allows wood straight drill.
- Hexalobular ISO 10664 (Tx) recess allows higher torque than Pz.
- Applications:
 - Fixing metallic drilled connectors on wood.
 - Fixing metallic drilled reinforcements on wood.
 - Fixing wood on wood.

2.3 TP-A2

Chipboard screw countersunk 90° head, thread 40°

Characteristics

Stainless available

Properties

Pz

Countersunk head

S tip, pin

Installation Data

CODE		TPA230	TPA235	TPA240	TPA245	TPA250
d _k : head diameter	[mm]	6.0	7.0	8.0	9.0	10.0

Pz dopbit code		PUTO010	PUPOC01 PUPOL01	PUPOC02 PUPOL02	PUPOC02 PUPOL02	PUPOC02 PUPOL02

PLAN

- A2 stainless steel (AISI 304).
- 90° countersunk head, 40° wood thread, Pz recess..
- S tip allows wood straight drill.
- Applications:
 - Fixing metallic drilled connectors on wood.
 - Fixing metallic drilled reinforcements on wood.
 - Fixing hard wood on wood.

2.4 TP-BR

Chipboard screw 90° countersunk head, self-drilling, wider thread pitch

Characteristics

Steel

Zinc plated

Properties

Pz

Countersunk head

Self drilling

Installation Data

CODE		TPBR4325	TPBR4330	TPBR4335	TPBR4340	TPBR4345	TPBR4350	TPBR4360	TPBR4370
l: screw length	[mm]	25	30	35	40	45	50	60	70
l _g : thread max length	[mm]	Completa	20	23.3	26.7	30.0	33.3	40.0	46.7
Pz recess		#2							
Pz dopbit code		PUPOC02 / PUPOL02							

PLAN

- Zinc plated; Thread diameter: 4.3 mm; Lengths: 25 – 70 mm.
- 90 ° countersunk head. 40° wood thread, wide pitch, Pz #2 recess.
- Self drilling screw, able to drill hard woods (oak, etc.) with no damage, and covered woods (melamine, etc.).
- With ribs under the head for straight wood and coating countersink..
- Applications:
 - Fixing hard surface woods (melamine, etc.).
 - Avoids damage in hard woods when drilling (American oak, etc.).
 - Fixing metallic drilled connectors on wood near the edges.
 - Fixing wood on wood near the edge.

2.5 TR-PO

Chipboard screw panhead, thread 40°

Characteristics

Steel

Zinc plated yellow passivated

Properties

Pz

Panhead

S tip, pin

Fixture thickness	[mm]	L - 18	L - 21	L - 22

PLAN

CHARACTERISTICS AND BENEFITS ABA/ATA

- Zinc plated.
- For fixing wood on metal (metal thickness > 1.75 mm).
- Both wings avoid the wood to be damaged by drilling a pilot hole.
With ribs under the head that countersunk the wood straight away, also melamine and other materials.

For assembling wood on metal, a hole in the wood is required with some space to avoid threading the wood before the drill in the strip is finished. Otherwise the drill tip could be burned, the wood broken or the fixing wood-strip unglued.

Take these precautions:

- Drill previously a hole bigger than thread's diameter.
- Use an extra-large self drilling screw (non commercial).
- Use a self drilling screw with two wings: the reamer created on the wood has a bigger diameter than thread so that this does not touch the wood. Wings and thread will break in contact with metal.

Standard drilling screw. The wood breaks.

Extra large drilling bit crew. Not standard.

2 wings self drilling screw.

- Drills the wood.
- Wood ream + metal drill.
- Threads in the metal plate.

2.8 T-CLA **Nail screw for blinds**

Characteristics

Steel

Zinc plated

Hammer needed

Properties

Pz with slot

Panhead

Diamond tip

Installation Data

Code	Screw diameter [mm]	Screw length [mm]	Recess	Pz dopbit code
TCLA3928	3.9	28	PZ2	PUPOC02 / PUPOL02

PLAN

- Zinc plated.
- Pz #2 recess with slot.
- Pz dopbit PUPOC02, PUPOL02.
- Self tapping thread 60° .
- Nail tip.
- Application:
 - Venetian-blind fastening
