**2. Music mode:** Click on the music mode or slide the operation interface of the APP to enter the music mode. The APP will automatically search for the music player in the mobile phone. If you click on a music player to play music, the device will vibrate as the music changes. If you want to stop the music mode, click or slide to other control interface.

#### Note:

If the sound of the mobile phone playing music is too low, it may not be able to drive the device to vibrate. Iphone can only use the music player that comes with the system.

-9-

### 3. Delimit mode:

Click on the swipe mode or slide the operation interface of the APP to enter the swipe mode. Tap "+", swipe your finger on the phone screen, and the device will vibrate with the change of the swipe. You can keep the vibration mode for next use.

-10-

**4. Shake mode:** Click on the shake mode or slide the operation interface of the APP to enter the shake mode, and the device will vibrate according to the shaking rhythm and amplitude of your phone.

-11-

- e. Friends search can search for corresponding registered users by gender and age, and can also search accurately by ID number, nickname, mobile phone number, and mailbox.
- f. After the search results are displayed, you click the add button on the right, and the system will send the friend request information to the target user.
- g. After the other party receives the message of the friend application, click the message button to enter the message center to view the message (the red dot means: unread), agree or reject the other party's friend application, if agreed, the mutual friend addition is successful.

-13-

- h. After the friend is successfully added, long press the friend icon to comment, delete, black out, and report the friend.
- i. Click the icon of the friend you want to interact with, the system will initiate an interactive invitation, if the other party accepts your invitation, the interactive connection is successful.

**Note:** If the other party is not connected to the toy, your interactive interface has no control buttons at this time. The toy must be connected to the other party to have control buttons on your interactive interface. The device connection button on this interface is the Bluetooth icon in the upper right corner.

-14-

- j. After the interactive connection is successful, the video is not turned on by default. You must first invite the other party's video and the other party agrees to open the video function before opening both parties.
- Note:** When interacting, the control button is to control the other party's device, not your own device.

-15-

## Attention

1. Please charge the product properly in a safe place.
