

# Dermedic Hydrain 2 Long-Lasting Moisturizing Cream (50 ml)

## Product Information Sheet

### Product Description:

Dermedic Hydrain 2 Long-Lasting Moisturizing Cream offers triple moisturizing action to protect the skin from excessive water loss, bind moisture, and keep it in the epidermis. The result is smooth and soft skin that stays hydrated for a long time. The active ingredients soothe irritations caused by external factors, visibly reduce redness, neutralize free radicals, and reduce the skin's sensitivity to harmful UV radiation.

### Recommended For:

Dermedic Hydrain 2 Long-Lasting Moisturizing Cream is perfect for dehydrated, dry, and sensitive skin that does not tolerate standard creams. It is also suitable for use during rosacea and acne treatment. The cream provides comprehensive facial and neck care by hydrating, strengthening the skin's natural resistance, and protecting against free radical damage.

### Active Ingredients:

Glycerin, Dub Diol, Urea, Abil OSW5, Shea Butter, and Vitamin E.

### Usage Instructions:

Use in the morning and evening, or as needed, on the face, neck, and décolletage.

### Product Comparison:

This product is compared with:

- Dermedic OILAGE Nourishing Day Cream for Restoring Skin Density (50 ml)

- Dermedic Hydrain 3 Hialuro Micellar Water H2O (500 ml)
