**CROOZER**<sup>®</sup>  
The bicycle trailer

CATALOGUE 1993 - ANDREAS & HANNA GEHLEN

In March 1993 I opened the bicycle-trailer shop "Zwei plus zwei" in a courtyard garage in Cologne. As the young father of a three-year-old daughter, I had developed a fascination for bicycle trailers. With the "Zwei plus zwei" mail order catalogue, I set out to bring the world of bike trailers closer to interested cyclists across Germany.

If someone would have told me that, 25 years later, my daughter would be working in the company with me, that my small, one-man operation would grow into a family-run business with 40 employees and that we would evolve from the retailer and wholesaler "Zwei plus zwei" to the manufacturer "Croozer GmbH", I probably would not have believed them.

Although some aspects of our business – like our passion and enthusiasm for offering amazing, fascinating and multifunctional products – are no different than they were a quarter of a century ago, a few things are new: like our pride in having become one of the world's leading brand manufacturers of bicycle trailers. To celebrate our anniversary year, we are particularly excited to be presenting the best Croozer trailers ever built.

I hope you will enjoy learning about them in our new catalogue!

# 25 YEARS OF FUTURE

Nowadays, it's hard to imagine a bike path or city street without bicycle trailers. They have become an integral part of many people's everyday lives and, together with bicycles, represent a modern, forward-looking mode of transport. However, when the foundations of today's Croozer GmbH were laid in 1993, the bicycle trailer as we know it today was nowhere to be seen. As a dealer, distributor and manufacturer, we are delighted to have been one of the pioneers of this sector and proud of the integral role we have played in the burgeoning popularity of the bicycle trailer over the past 25 years.

Our primary interest from the very beginning has been offering trailers that best meet our customers' needs, with our high standards for quality, safety and comfort. Our numerous innovations and patented inventions are the fruits of our tireless development work, which is aimed at simplifying our customers' lives while on the move. We offer a three-year warranty on every Croozer trailer and a 10-year warranty\* on the frames. To ensure that your outings with the Croozer are not only easy to use but also worry-free, all of the materials we use undergo stringent testing for harmful substances, and all technical functions are subjected to the most rigorous laboratory tests.

# KID

## FAMILIES ON WHEELS

The Kid and Kid Plus child trailers offer you maximum flexibility and outstanding safety. Whether you are the parent of an infant, an older preschooler or both, our trailers offer a safe and comfortable way to be active and get around town as a family, any time of year. All Kid and Kid Plus models come with trailer, stroller and jogger kits.

# KID PLUS

## TWO MODELS

The two models of our child trailers are made with the same high-quality frame and materials and share the same standard features. The important difference is that the Kid Plus comes with a patented Croozer AirPad® suspension system and integrated sensor-activated lighting. Both the Kid and Kid Plus are available in one-seater and two-seater versions.

# HIGH-VISIBILITY HANDLEBAR LIGHT

KID PLUS  
SENSOR LIGHT INCLUDED

## CLICK & FLASH®

The rechargeable light built into the handlebar makes the trailer clearly visible from the front (white) and back (red).  
Developed in cooperation with Busch + Müller.

## SENSOR TECHNOLOGY

The sensor-activated light turns on automatically when you are riding in low-light conditions or at night. Standlight function: the light continues to shine for 4 minutes after the trailer has stopped moving.

## HIGH-POWER BATTERY

Lithium-ion battery with 15 hours of light per full charge.  
USB charging cable included.

KID  
SENSOR LIGHT AVAILABLE  
AS ACCESSORY

# CROOZER AIRPAD® SUSPENSION

## NO ADJUSTMENT REQUIRED

The patented Croozer AirPad® adapts automatically to the load.  
The suspension system requires no adjustment or maintenance.

## DELIVERS A SMOOTH RIDE

The numerous micro-fine air pockets, together with the special shape of the pads, absorb and dampen shocks for optimal suspension. The material reacts immediately, allowing the trailer to glide over rough road surfaces. The shock-absorbing properties prevent it from rocking or bouncing.

## SYLOMER®: A HIGH-TECH MATERIAL

The material is used for vibration isolation in construction projects, in particular as earthquake-proofing for buildings. It stays resilient and elastic in any weather and has a service life of more than 50 years.

ONLY WITH  
KID PLUS!

# THE SAFETY COCKPIT

KID & KID PLUS

SAFE FROM  
UV RAYS

Plastic windows and integrated rain cover with a UV-protection factor (UPF) of 80+. Tested in accordance with UV Standard 801.

## 5-POINT SAFETY

5-point harness with central buckle for easy opening and closing.

## SEAT IN SEAT

Children between 10 and 18 months of age can travel safely and comfortably in the Croozer seat with the ergonomic Baby Supporter. It offers additional support for your child's head and torso. (accessory)

€ 49,95

## ERGONOMIC SEATS

The individual seats are mounted securely to the frame of the safe passenger compartment. The 5-point harness system has a central buckle for easy opening and closing.

## ALL-ROUND PROTECTION

Highly robust aluminium passenger compartment with patented bumper and safety frame protects young passengers on all sides.

## CUDDLY NOOK

The perfectly fitted fleece insert and zip-on, fleece-lined Winter Bunting Bag create a warm nest, even when temperatures drop below freezing. (accessory for Baby Seat)

WINTER-SET.  
€ 39,95

## EASY-PULL HARNESS SYSTEM

The Baby Seat is equipped with its own padded 5-point harness. The Easy-Pull system makes it a breeze to tighten the straps.

BABYSEAT  
€ 89,95

FITS  
KID &  
KID PLUS

## SAFETY COCOON

The high sides protect your baby and provide the necessary safety on the road.

## FOR THE TINIEST TOTS

The patented Croozer Baby Seat is mounted at a gentle incline, guaranteeing an ergonomic and back-friendly reclining position. Young Croozer passengers can ride along from infancy.

## BABY HAMMOCK

## 8 ATTACHMENT SITES

The Baby Seat is mounted to the safety frame of the passenger compartment at 8 different sites. This special mounting system is not only stable and flexible, but also absorbs vibrations and provides for a safe and gentle ride.

# SIMPLIFY YOUR DAILY LIFE

KID & KID PLUS

## NO CHANCE FOR CRUMBS

Muddy rubber boots? No problem. With the Floor Protection Tray, you can clean the trailer in a matter of seconds. The sturdy side walls also make it easy to find dropped items. (accessory)

## ANTI-THEFT

The bumper has large openings for the easy attachment of a bike lock.

Tried-and-tested, user-friendly folding system allows for the easy transport and storage of your Croozer.

## SPACE- SAVING

## MAXIMUM CAPACITY

A very spacious and sturdy cargo compartment with a large opening lets you carry your shopping, toys or changing bag.

# DOG XL

## 2 WHEELS FOR 4-LEGGED FRIENDS

The new Croozer dog trailer is our pride and joy. It goes by the name of Dog XL and was specially developed for the transport of large and heavy dogs. Its design offers plenty of space for tall dogs, with a very low and wide door for easy entry. This means that, on your errands or family outings, you can easily take along an older or ailing dog – or even puppies whose physical activity must be restricted in order to avoid problems later in life.

## IN GOOD HANDS

### DOG'S EYE VIEW

Curious canines enjoy a good view of their surroundings through the large mesh window in front. This window, which is made of heavy-duty nylon netting, can be zipped open for even more headroom or covered with the removable plastic window for rain protection.

## SPACE FOR BIG BREEDS

Interior length 90 cm  
Interior height, front 77 cm  
W x H Door opening 46 x 60 cm  
Drop/rise 14 cm

### FRESH AIR GUARANTEED

Excellent ventilation through large mesh windows, even on hot summer days.

### EASY ENTRY

Low, wide and large door for ailing or older dogs, as well as puppies.

# PRACTICAL DETAILS

## CHEW PROOF

All interior surfaces are protected from tenacious chewers.

## SAFE AND PRACTICAL

The tried-and-tested safety design of Croozer's child trailers also protects your faithful friend in traffic. The curved bumper makes locking the trailer very easy.

## EASY FOLDING

Compact storage size thanks to user-friendly telescopic folding mechanism.

## STABLE WHEN PARKED

The parking brake braces the trailer securely when loading or unloading your dog.

## DOG CRATE FOR HOME USE

Without the wheels, the Croozer serves as a cosy den for your four-legged friend: at the office, at home, on trips – and for helping puppies get used to being in the trailer.

# CARGO

## FLEXIBILITY ON THE GO

The new Croozer cargo trailer is versatile and multifunctional. In the large cargo compartment, there is plenty of space for your weekly shopping, including beverage crates. Touring and long-distance cyclists will appreciate the convenient design features: splash resistance, sites for lock attachment and easy cleaning.

## WORRY-FREE ON THE MOVE

### DURABLE ZIPPER

Large, top opening with extra-heavy-duty zippers.

### HANDCART FUNCTION

Kit with handle and front wheel for easy conversion from bicycle trailer to handcart. (accessory)

### SIDE WHEEL GUARDS

Integrated side guards protect the wheels. Each has an opening for the attachment of a bike lock or for use as a carrying handle.

### SOLID BASE

Robust cross frame with longitudinal bracing and riveted base for optimal distribution of the load.

### COMPACTLY PACKED

Space-saving storage of the trailer thanks to user-friendly side-to-side folding system.

CLICK & CROOZ®

# THE RIGHT HITCH

FOR E-BIKE,  
MOUNTAIN BIKE  
OR CITY BIKE

UNIVERSAL HITCH  
COMPATIBLE WITH 85%  
OF ALL BIKES

Crooz Kid and Kid Plus trailers come with two universal hitches. The Dog XL and Cargo trailers come with one. Easy installation: just remove the nut, place the universal hitch over the end of the rear-wheel axle, screw the nut back on – done. The Click & Crooz® hitch system is extremely safe and user-friendly: the hitch connector latches onto your bike with an audible click, is lockable and can be removed again with the simple press of a button.

## CLICK & CROOZ® HITCHES

### THRU AXLE WITH INTEGRATED HITCH

Once you know the length and thread pitch of your bike's thru axle, you can replace it with the appropriate Click & Crooz® thru axle with integrated hitch.

### AXLE NUT WITH INTEGRATED HITCH

For solid axles that are too short or for anyone who prefers the more aesthetically minimalistic axle nut hitch, which screws directly onto the rear axle.

### QUICK-RELEASE AXLE WITH INTEGRATED HITCH

Once you know the length of your bike's quick-release skewer, you can replace it with the appropriate Click & Crooz® quick-release axle with integrated hitch.
