

This manual is mainly for KTM Adventure. If you have KTM Super Duke please skip to the step number 4.

1. Uninstall the front windshield (4 screws).
2. With a sliding move upward uninstall black plastic cover.

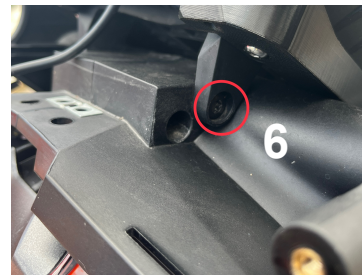

plastic cover. With a sliding move upward and then to the sides, the plastic cover can be removed. On the front fairing, the plastic cover is held in place by four screws. The plastic cover is held in place by four screws. The plastic cover is held in place by four screws.

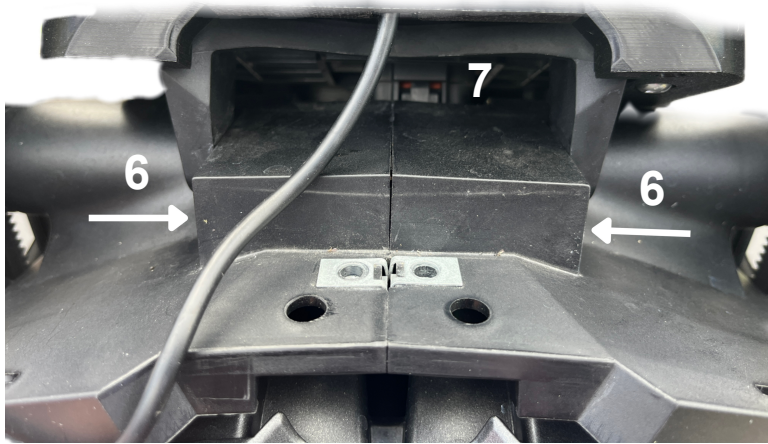

4. Unscrew bolt under the left side of the display.

5. Pull out the cylindrical insert at the right side.

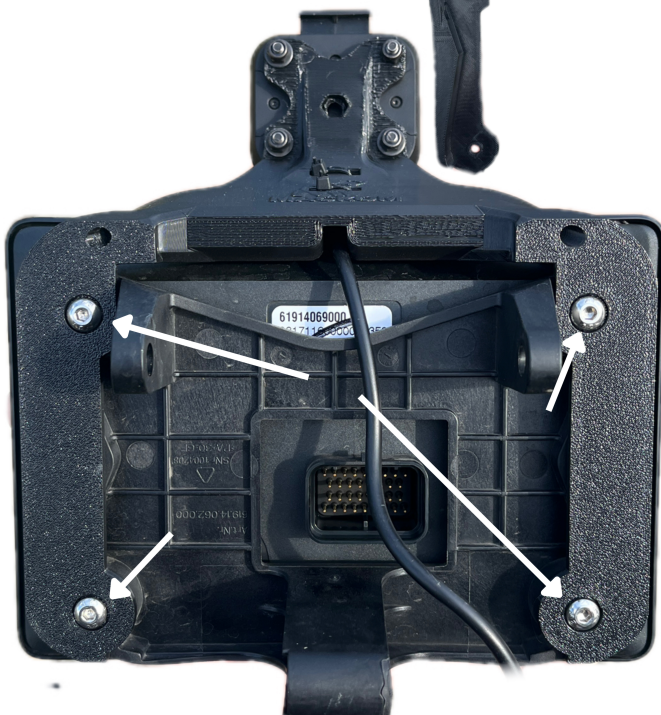

6. Unscrew 2 bolts holding the display bracket.

7. Disconnect the cable from display

8. Install the original Garmin Zumo XT/XT2 cradle. Be aware of the correct position of the GPS power cable. Add zip-ties.

9. Remove original washers. Screw only 2 bolts to the display thru display holder. **Do not tighten them up.**

10. Screw 2 left screws and tighten all 4 screws.

11. Now everything is ready to be reassembled in reverse order (from step 7). Be safe and enjoy the ride.
