* Components A, C, E, F, P have been pre installed with plastic solenoids. * Each set comes with a screwdriver, cat teaser, gloves and sandpaper.			

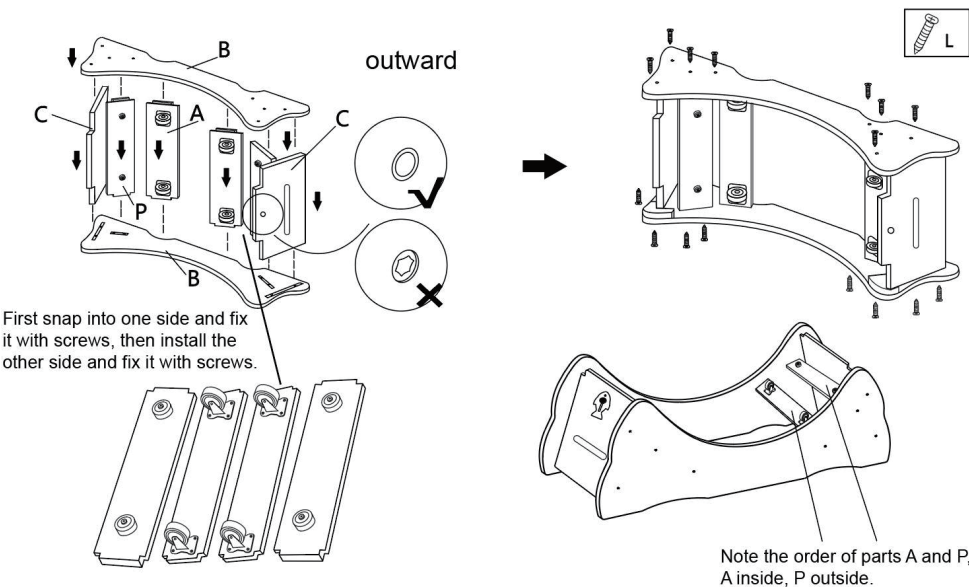

Assembly Instructions

Instructions hint:

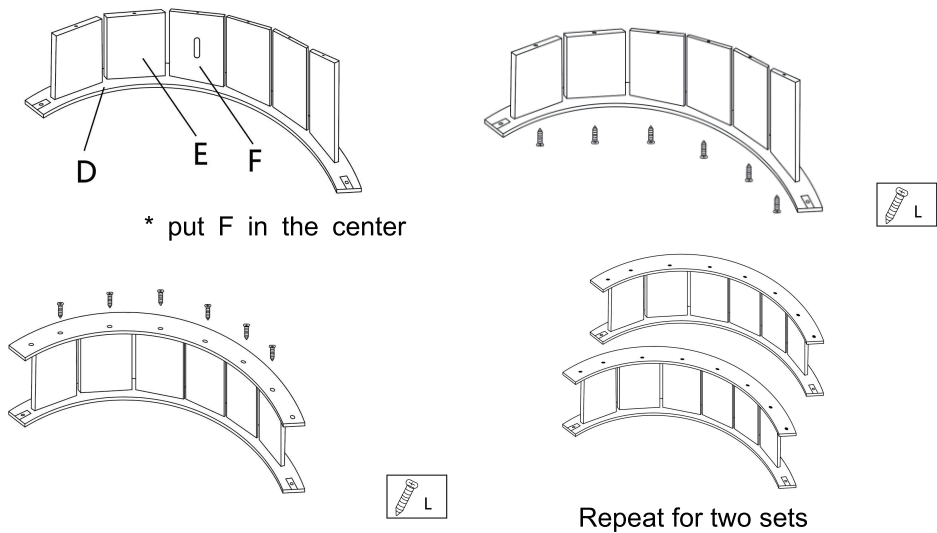

Do not tighten the mounting screws to the end at one time, and tighten them again after a single component is installed and formed!

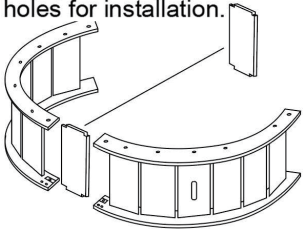

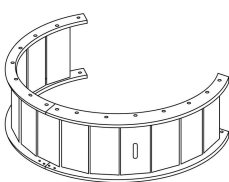

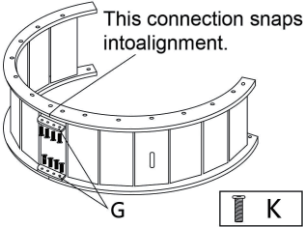

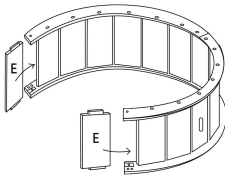

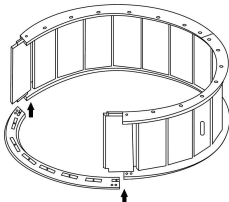

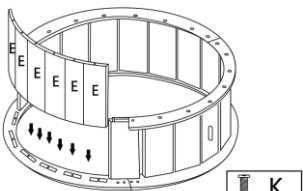

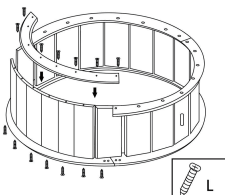

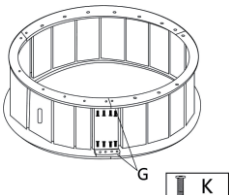

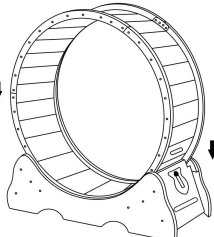

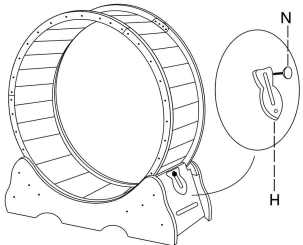

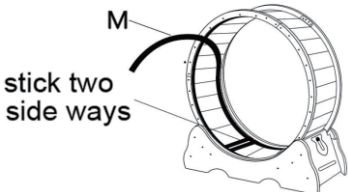

STEP1

Base installation

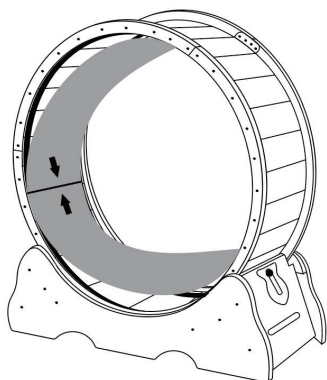

STEP2

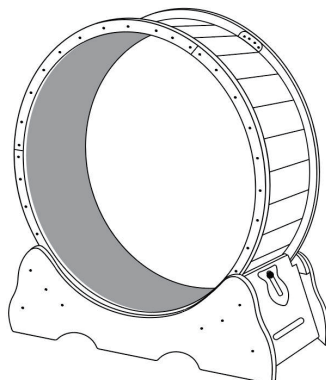

STEP3 Here, use E with double holes for installation. 	STEP4 	STEP5 This connection snaps into alignment. 
STEP6 	STEP7 	STEP8 
STEP9 	STEP10 	STEP11  Place the rollers on the base.
STEP12  Connect the lock plate H with the screw N and fix it on the plate with holes C.	STEP13 Please paste the black buckle as shown in the figure below.  Put black belt back glue mother-in-law Tear off the top layer paper, along the Roller fixed one circle.(Wipe the rollers clean first!) The Velcro of the accessories is sent out in one piece, which needs to be cut according to the length of the runway.	

STEP14

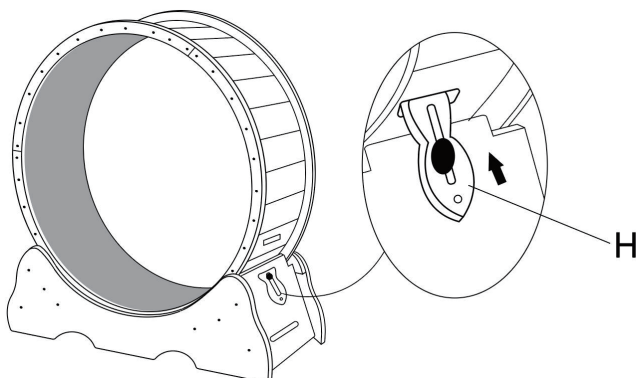

STEP15

Finished

Lock it when not in use.

* H wooden lock is inserted into the card slot and locked.

TIPS:

1. The number of screws marked above is the actual number used during installation. When the product is shipped, 1~3 more screws of each type will be given as spares.
2. During the use of the product, children are prohibited from approaching without the company of adults.
3. The edge of the product is a bit sharp, and you need to wear gloves for installation; at the same time, it comes with sandpaper, so you can polish the edge again by yourself; without gloves, be careful when touching the running wheel.
