Love Your Tan

Bodysculp™ Anti-Cellulite

These special anti-cellulite firming peptides will make your skin feel tight and look amazing.

Tropic Tan Enhancers

Tropical Heat! A rich blend of natural extracts that will take your tan to a tropical level of awesome! WARNING: Tropic Tan Enhancers will cause an unbelievable tanning result!

Natural Tan Enhancers

We took some of mother nature's most awesome ingredients and created this scientific blend that will push your tan to the next level. Be prepared to unlock your natural beauty!

Xtreme Moist™

Make sure your skin is moisturized to the extreme! Good hydration is essential in getting the perfect tan. With Xtreme Moist™ your skin won't be thirsty any more!

Tyrosine Boost™

Tyrosine stimulates the making of natural melanin in the skin. Melanin is the primary determinant for skin colour, or in other words: your tan! Tyrosine Boost™ enhances a 100% natural tanning process to get a durable and ultimate dark tan.

Goldtone™ Instant Bronzers

Speed up the tanning process and get the maximum out of one tanning session with Goldtone™ Instant Bronzers. Goldtone™ belongs to the very latest generation in bronzing technology that allows you to enjoy the perfect golden tan immediately!

Goldtone™ Time Released Bronzers

The very latest in tanning is the time-released bronzer. Goldtone™ Time-Released Bronzers work up to 48 hours and create a beautiful and very dark tan.

Extreme Tingle

Extreme Tingle is a very intense ingredient. When applied to the skin, it increases the circulation of blood and oxygen to the surface of the skin. This results in the production of Melanin that gives the skin its natural dark color.

Hibiscus Antioxidant

Hibiscus, the surf flower from Hawaii, is known for its healing powers. It is one of the best antioxidants that nature provided us with. Using a good antioxidant for your skin before, during and after tanning is essential in keeping your skin healthy! We love Hawaii!

Light Diverting™ Minerals

A rich mineral complex that breaks down light into a full colour spectrum and evenly redistributes light rays onto your skin on a micro level for a darker and more even tanning result.

Tan Fresh™ Technology

Tan Fresh™ Technology makes sure that the scent of the lotion remains the same before and after tanning. Stay fresh with Tan Fresh™.

CoQ10 Anti-Aging

CoQ10 is an essential antioxidant found in every living cell that provides the energy source for cellular renewal and smooth, firm skin.

Vitamin E

Vitamin E is an antioxidant that helps to prevent signs of skin aging due to possible negative effects of UV light.

Walnut oil

Walnut oil is naturally antiseptic, anti-inflammatory, firming and moisturizing, and contains a rare form of vitamin E that is very beneficial to skin health.

Aloe Vera

Aloe Vera is a powerful and intense natural moisturizer that helps to prevent skin dehydration during and after tanning. For a healthy, smooth and soft skin.

Acai Berry Extract

The Acai berry is a high potent antioxidant and very nutritious. It contains a rich source of iron, calcium, vitamin E and fibre. Acai berry extract helps numerous ailments and is a support for a healthy golden looking tan.
