**Gentili clienti,**  
sentiti ringraziamenti per il vostro ordine!  
A prescindere che abbiate scelto un mobile realizzato in legno naturale, un fronto lucido o un fronte di materiale plastico opaco – ogni esemplare ha la sua particolarità. Anche le caratteristiche e la struttura del legno, quali ad esempio i rami minori nei mobili di legno naturale, sono parte del fascino individuale di ogni singolo mobile.

Dato che i mobili in legno naturale sono

esposti al continuo variare del clima e

dell'umidità, è probabile che in superficie

insorgano mutamenti quali crepe capillari o cambiamenti di colore. Generalmente

con passar del tempo diminuisce

la chiarezza e aumenta la saturazione

del colore – il legno si scurisce.

I citati mutamenti sono un normale

processo dei materiali naturali, quali appunto il legno.

Il presente libretto intende darvi alcuni suggerimenti sulla cura del vostro mobile, affinché vi procuri lunghe soddisfazioni.

**Sostanzialmente vale:**

• Non poggiare oggetti roventi sui mobili.

• Non poggiare candele a diretto contatto sul mobile.

• Asciugare subito i liquidi versatisi.

• Ad intervalli periodici controllare se vii e ceriere sono salde.

• Il caratteristico odore fragrante è sempre una prova di qualità dei mobili in legno naturale.

• Le macchie chiare sui rami si formano resina, e sono levigabili con un panno asciutto che non lascia peli.

• Anche trattandosi di altri materiali lignei, di vernice, pale o imbottigli, all'inizio è inevitabile un leggero odore caratteristico. Dopo qualche tempo però, quest'odore svanisce da sé.

Potete autore a farli volatilizzare in

minor tempo cambiando poi spesso

aria all'inizio o dopo passando sui mobili un panno umido o acqua con qualche gocca d'aceto.

• Conservare bene le presenti istruzioni.

**Istruzioni sulla cura dei mobili in materiali pannellati**

Per la cura dei mobili in materiali pannellati si consiglia di usare un panno morbido, che non lascia peli, o un panno di lana. Passare il panno leggermente umido sulle superfici.

**Sostanzialmente vale:** In nessun

caso utilizzare i seguenti detergenti e prodotti per la pulizia:

• panni in microfibra o spugne a tampono. Questi prodotti contengono spesso fini particelle abrasive, che possono provocare sgaffiature sui mobili;

• forti sostanze chimiche fortemente detergenti

o solventi. Questi prodotti possono agredire le superfici;

• polvere abrasiva, paglietta d'acciaio o spugne abrasive. Rovinerebbero la superficie in modo tale che non sarebbe più possibile ripararla;

• schiuma per lavare, paille di ferro o spugne gommate. Elles détruisent la surface si profondément qu'il n'est pas possible de la retrouver;

• aspirapolvere. Per via dell'elevata pressione e calore con cui il vapore colpisce le superfici, esse rischiano di deteriorarsi o addirittura a staccarsi dalla sottostitutura.
