ASSEMBLY STEP

This diagram shows an exploded view of a mechanical assembly. The main assembly consists of two L-shaped brackets, labeled C and D, which are connected by a central horizontal shaft. A circular inset provides a detailed view of the connection point between the two brackets. Within this inset, a cylindrical component labeled Q is shown. Two screws, labeled X, are used to secure the assembly. Below the main assembly, a series of small components are shown in an exploded view, labeled W and Z. These components appear to be washers or spacers that fit between the brackets and the central shaft.

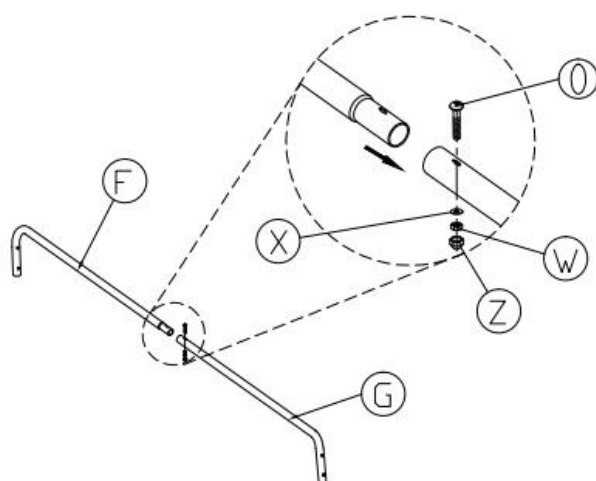

A technical line drawing of a folding saw. The main drawing shows the saw in its folded position, forming a tripod shape. The handle is labeled 'A', the blade is labeled 'B', and the pivot mechanism is labeled 'A1'. A circular inset provides a magnified view of the pivot mechanism, showing the blade (labeled 'U') being secured by a bolt (labeled 'W') and a nut (labeled 'X') through a plate (labeled 'Z').
