

## PRODUCT INFORMATION SHEET – EU

### Product name:

Desk LED Lamp with Wireless Charging

### Model:

D10

### Category:

Electrical lighting equipment – LED luminaire

### Technical description

The desk LED lamp is an electrical luminaire intended exclusively for indoor use. The product is equipped with an LED light source, a touch control panel, an adjustable arm, an integrated inductive wireless charging pad for mobile phones and an additional USB output. The lamp is designed for task lighting on desks and for bedside or ambient lighting in households and offices.

### Technical specifications

- Power supply: 9 V DC / 2 A
- Rated power of light source: max. 6 W
- Light modes: warm, natural and cool light
- Correlated color temperature: 3000 K – 6500 K
- Control: touch control panel
- Wireless charging: inductive (Qi-compatible devices)
- USB output: 5 V DC
- LED lifetime: approx. 50,000 hours
- Intended use: indoor use only

### Safety and regulatory information

The product shall be used in accordance with applicable safety and technical requirements of the European Union. Use the device only in dry indoor environments and keep it away from water. Only compatible power supplies with the specified rated values may be used. Wireless charging shall be used only with compatible devices. The product is not a toy and must not be used by children without supervision.

### EU regulatory compliance

The product complies with the essential requirements of applicable EU legislation, in particular Directive 2014/35/EU (Low Voltage Directive), Directive 2014/30/EU (EMC Directive), Directive 2011/65/EU (RoHS) and Regulation (EU) 2023/988 on general product safety (GPSR).
