

USER MANUAL FOR BED RAILS FOR TODDLERS

Supelkowelove
Scandinavian Design

General Information

- The product is designed for use in baby cribs.
- It is machine washable.
- The bed rail protector shields the child from bumping into the crib slats, ensuring comfort and safety.
- Made from certified materials (Oeko-Tex Standard 100, "Safe for Children").
- The protector is not a toy – its primary function is to prevent crib-related injuries.

Installation Instructions

Before Installation:

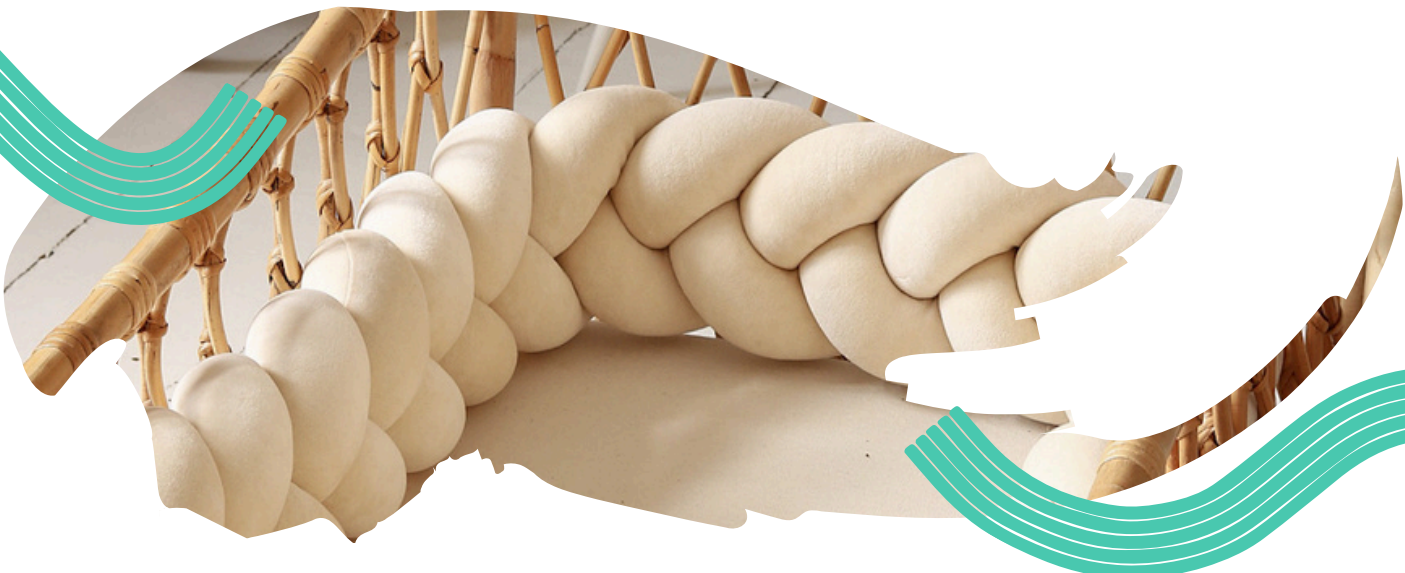

- Make sure the bed rail protector is in perfect condition, without any damage to the fabric, ribbons, or filling.
- Check if it fits the crib dimensions.

Installation:

- The protector is attached to the crib slats using ribbons.
- It should be secured in multiple places to ensure stability and prevent shifting.
- Make sure the protector does not cover the child's face or restrict airflow.

After Installation:

- Check if the protector is securely attached and if the child cannot easily remove it.
- Regularly inspect the attachment, fabric condition, and cleanliness.

Safety Instructions

- The protector should be removed when the child begins to sit up on their own! (There is a risk of climbing on the protector and falling out of the crib.)
- Do not use if the product is damaged! If there are signs of wear (fraying, damaged ribbons, loose attachment), the product should be replaced with a new one.
- The product is intended for use only under adult supervision.
- Do not use the protector in playpens, bassinets, or bedside cribs unless it is specifically designed for them.
- Do not place the protector near sources of fire or high temperatures.

Cleaning and Maintenance

Wash at a maximum temperature of 40°C on a gentle cycle.

Do not use bleach or harsh detergents.

Dry flat, avoid intensive spinning.

Do not iron at high temperatures.

Warnings

Remove the protector when the child is able to sit up on their own! (Risk of climbing and falling out of the crib.)

The product is not a toy – use it only for its intended purpose.

Keep away from fire and heat sources.

The packaging is not part of the product – keep it out of reach of children.
