K LINE

K LINE is an essential and functional solution of design made of zinc alloy that satisfies the most common requirements for the shelf supports.
 K LINE has been developed with a highly captivating and elegant shape so that it can be used as a shelf support for both wood shelves and glass shelves, in the latter case simply by applying a bespoke layer of rubber.
 A version of K LINE with a vertical pin of $\varnothing 5$ mm has been also developed in order to lock the shelf horizontally.

Certificates available on request.
