

Vixagon VMT Collections

PROFESSIONAL AUDIO / HI-FI & HOME CINEMA / PUBLIC SPACES / WORKSPACES

Description

Introducing three new collections to our well-known Vixagon VMT, the hexagonal-shaped acoustic panel. Having 4 different colors or patterns in the same box will help to have more design versatility, allowing the creation of endless shapes on walls and Ceilings.

Made with recycled sound-absorbing materials, the Vixagon is designed to enhance the acoustics of any space while adding a stylish touch to the decor.

The Vixagon VMT Collections are packed in a really innovative way: we are using the same material as the product itself as packaging material. This will give the bonus of having extra Diamond shapes that can be used in conjunction with your Vixagon to create your artwork. These new version of the Vixagon VMT come in boxes of 12 units.
