AUDIO DOOR PHONE

USER MANUAL

Please read this manual carefully before using the product .

1. Parts and Functions

Side View

[1] **Handset**: Pick up to communicate with visitor.

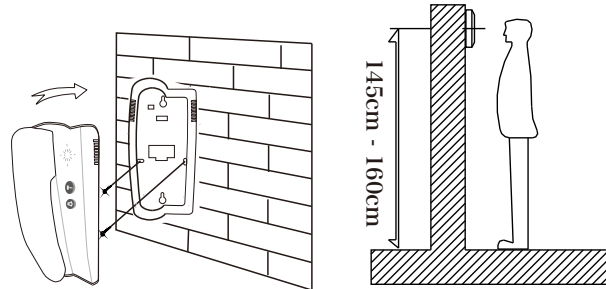

[2] **Handset curve**: Connect handset with the phone

[3] **Unlock button**: Press to release the door.

[4] **Call button**: In standby mode, press Call button to activate the inner call.

[5] **Speaker**: Send out a bell

2. Monitor Mounting

Using the screws to fix the Mounting Bracket on the wall.
Connecting the system correctly, then hang the Monitor on the mounting bracket firmly.

3. Operation Instructions

Door release function:

When visitor calls from outdoor station, the phone rings, pick up handset to talk with the visitor, then press the **UNLOCK** button to open the door.

Inner call:

Pick up handset, then press **CALL** button to activate the inner call, all monitors connected to the system will ring at the same time. Pick up any monitor, the others will stop ringing immediately.

Door Bell Call Button:

Additional door bell call button can be connected to the phone, so that the visitors can ring the door bell again in front of the user's apartment. When the call button is pressed, the phone will output ring tones.

How to setup the inner call dial number on the monitor?

Keep pressing **UNLOCK** button until you hear a long beep. Start setting 2 digit dial number.

UNLOCK button refers to first digit 1~9

CALL button refers to 0 /confirm.

Eg. Set the dial number to 09.
