

## SIATKA ZABEZPIEZAJĄCA - 30x30mm - 3.5x6m

Artikelcode	MET-60826-12005
Afmeting	3.5 m x 6.0 m
Maaswijdte	30 x 30mm
Dikte draad	2.5 mm
Randkoord	8 mm
Gewicht	160 g/m <sup>2</sup>
Bevestiging	Elastische koord (6 mm)
Materiaal	Polypropyleen (niet elastisch)
Eigenschappen	UV-bestendig, Knooploos
UV-stabiliteit	300 kLy
Kleur	Zwart
Verpakking	PVC-tas met ritssluiting
Breeksterkte	ca. 635 N

### Container net - Coarse mesh - 30 x 30 mm - 3.5 m x 6 m

Introducing our black, high-quality, coarse mesh container net with diamond-shaped meshes (30 mm x 30 mm). Easily attach the 6 mm wide elastic cord to the anchor points of your container. Made of strong, UV-resistant polypropylene and convenient to carry in the included storage bag. Less rigid than nylon nets (so this net is easier to store).

*TIP: These sizes represent the extreme dimensions of the net. We recommend choosing a net for your container that is 50-70 cm longer and about 50 cm wider than your container.*
