READ THESE INSTRUCTIONS THOROUGHLY BEFORE YOU START USING THIS PRODUCT.

Keep these instructions for future reference.

WARNING! Read all safety warnings and safety use recommendations.

Gloves L2211XXY hereinafter the "clothes" or "protective clothing" is manufactured in accordance with the EN 420:2003+A1:2009 and Regulation 2016/425. Gloves are category I personal protective equipment and they protect hands against superficial effects (minor injuries, abrasions) of mechanical hazards. The internet address where the EU declaration of conformity can be accessed: www.lahipro.pl

PROTECT AGAINST SUPERFICIAL MECHANICAL HAZARDS ONLY.

The gloves are not resistant to:

- a) water penetration,
- b) fire and hot surfaces,
- c) solvents,
- d) caustic agents,
- e) material aging,
- f) misuse.

The gloves are available in size 8, 9, 10, 11. The size of gloves should always fit user's hands well. They should be worn during work when hands are exposed to mechanical hazards with superficial effect. If the gloves are damaged stop working and replace the gloves with a new pair.

WARNING! Do not wear the gloves if there is a risk of entangling in the moving parts of machines.

The gloves provide protection only to the parts of the body they cover.

The gloves are made of polyester (100%). They are coated with nitrile.
