

**UYAR**

# The classic.

P180 Competition kebab knife/gyros knife for professional cutting of gyros, kebabs, doner kebabs, chicken kebabs, turkey kebabs and shoarma.

# P180 Competition

## Circular knife

The hardened high-end circular knife impresses with its durability and precision.

## XLR Plug

This plug allows the kebab knife to be cleaned separately by removing the power cord.

## High speed DC Motor

High-speed DC motor and a constant voltage supply ensure powerful, clean cutting.

## High-tech lever switch

The ergonomic positioning of the wear-free high-tech lever switch with magnetic technology ensures safe and easy handling.

## Description

- Circular knife smooth  $\varnothing$  80 mm
  - Electronic power supply of the 3rd generation
- The 3rd generation power supply is the most powerful kebab knife power supply on the market.
- High speed DC Motor
- High-speed DC motor and a constant voltage supply ensure powerful, clean cutting.
- Waterproof (IP67)
- The kebab knife handpiece is waterproof according to IP67.
- Wear-free high-tech lever switch with magnetic technology
- The ergonomic positioning of the wear-free high-tech lever switch with magnetic technology ensures safe and easy handling.
- XLR Plug
- This plug allows the kebab knife to be cleaned separately by removing the power cord.
- Extremely light, quiet and yet very robust
- These properties can only be realized through high-precision CNC production parts from our own production. The knife is extremely handy and is designed for continuous professional use.
- Hygienic Design
- The hygienic design with reduced corners and edges allows easy and hygienic cleaning.
- Made in Germany
- Our high-tech knives are manufactured by UYAR Technology Center which is located in Künsebeck near Halle Westfalen (Germany). and many other features...

## Technical Specifications

Daily capacity	≈ 70 kg
Blade diameter	Ø 80 mm
Full load speed	≈ 7000 rpm
Stepless cutting adjustment	0 - 10 mm
Cable with plug	2,2 m
Weight (without cable)	≈ 940 g

## Power Adapter

Voltage	110 - 220 V
Frequency	50 - 60 hz
Power output	130W / 22 V DC

## Others

Shipping	with paket
Weight	≈ 3 kg
